Family-reported pattern context only. Each person must file only their own truthful, first-hand complaint using their own facts, dates, evidence, orders, transcripts, and documents.

Public threshold rule: Names are grouped conservatively by normalized spelling, role, and location. Common titles, punctuation, casing, and middle initials collapse together. Close misspellings are not auto-merged without admin review. Only family-direct submissions count toward the public threshold.

WASHINGTON AT A GLANCE.

Across 147 Washington families reporting through the Family Rights Registry, the patterns are consistent: long durations in court, serious financial loss, and a disproportionate number of parents going unrepresented because they ran out of money fighting.

WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so Washington families — and families across every represented location — would stop being invisible to the data. This report is their record.

03 THE COST OF WASHINGTON FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

EXPENSE CATEGORY	RESPONSES	MEDIAN	MEAN	TOTAL REPORTED
Attorney Fees	92	$30,000	$86,468	$7,955,050
Lost Wages	74	$30,000	$116,656	$8,632,550
Other Court Fees	42	$1,100	$8,992	$377,660
Therapy / Evaluations	70	$4,000	$7,765	$543,577
Reunification Services	41	$628	$6,897	$282,778
GAL Fees	63	$3,500	$8,141	$512,875
Asset Loss [1]	69	$50,000	—	—
Median Family Burden (78 families reporting 3+ categories)	—	$121,838	—	—

Median vs. mean: Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least $1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

1. On asset loss: One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median ($50,000) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

> The system has failed my children, took them from my care after 7 years of raising them since birth, put them in the home where they have been sexually assaulted, physically abused, and severely neglected. Their court restrained me from all contact with my children including phone calls based on lies. Judge ordered $1200 month child support and ignored my disability and my income from ssi is on $900. Ordered around $10k out of pocket expenses for DV courses, psychological evaluation, supervised visits (before the mom got a restraining order), and the court knows I live 10 hour round trip from the kids now. Mom has thousands of pages of CPS reports against her but WA state HB 1227 law blocks CPS from removing children from bad homes. I get no phone calls or contact whatsoever. The mom has only had one weekend a month for years, has never paid a dime in support, never attended any functions. She has physically attacked me 3x and has done so in front of my children. The GAL failed to complete here order by only interviewing people from the mom's side. WA state cps doesn't cross county lines. There's mom is a county hopper. Three generations of the paternal side of our family has been stripped from my children and I have never had an opportunity to even hug my children goodbye. I was put into the address confidentiality program and so were my children protecting us from DV, but Pierce County over rode Spokane County and ran with the kids. I can no longer disclose my physical location to protect me, and all mail and court notifications have to go through the Secretary of Washington State. Spokane county refuses to let go of the open parenting plan in their county and said
>
> — ANONYMOUS PARENT (1/2)

> that Pierce County parenting plan is null and void and should never have been brought forth in Pierce. Spokane still holds jurisdiction. I cannot afford to comply to anything Pierce County has ordered which included supervised visits by a specific supervisor who has a two year waiting list. I was told that if I cannot comply I can have all my rights stripped from me forever. All I want to do is love and enjoy my kids.

The courts have protected the abuser of my children and I, allowed unlawful hearings/filings and orders without my knowledge, refused our civil/constitutional/due process rights, in Washington State and Idaho. My children have spent the last six years never knowing when or where their abusive biological father will show up. Their last few years of childhood/teenage years have been extremely difficult to have joy as hearing have been scheduled ongoing, my preparation of answering motions/filings as pro se takes a tremendous amount of time away from my children/teenagers, continues to take a toll on my health with diagnosis of ADHD/CPTSD/Anxiety/Depression/Battered Wife Syndrome/Lupus/Connective Tissue Disorder/Fibromyalgia brought on by the massive stress from the abusive litigation I'm encountering. Our family finances have been very very strained leaving my teenagers and I below poverty, on state assistance, needing help from others, not meeting our most basic needs. My children/teenagers have anger management issues, SPD/ADHD/Anxiety/ODD/Depression/CPTSD, fear of being forced again and again to face their abusive biological father through reunification or placed in his/his enabling families custody. The judges made it known that no matter what this abusive man has done to me or our children/teenagers he will be reunited and I will be forced to endure as many hearings as he drags me through for as long as he wants and pay for all of it. My family has lost almost everything! These judges use their immunity to abuse people and families like mine, torture us, financially abuse us, steal years of goodness with our children away, creating a dead lock in our lives, approving

— ROBERTA CODI (1/2)

coercive control, supplying a way to force mothers and children/teenagers bond to grow thin by applying pressure to how long we can endure the evil corruption. I have begged for help from advocacy offices, attorneys, judges, and no one has been willing or able to help my family. Now the Idaho courts are ignoring the laws, will not provide protection for us, nor stop the vexatious litigation from my abusive ex-husband or his attorneys. My children/teenagers and I are facing losing our house, what health we have left, our dignity and happiness. The only way we have barely made it this far is because we have faith in God.

From the beginning, I was in a domestic violence case. I went to my local domestic violence advocate. They helped me write up a restraining order, and the judge denied it because of my ex stating that he didn't do it. I had my car repossessed, I had to have supervised visits, the judge said I was unfit, I was to stay at her mom all of my kid's lives. My ex didn't even want to see the kids until his mom stepped in and took over. She had a lot of money I didn't. I didn't work in the marriage. My current partner's confident information was shared all over social media by my ex's mom despite requesting to be taken down by the site, emotional damage, reputational damage, overtime my time with my children got shorter and shorter and it's been almost 10 years. My ex is now alienating me from my kids and the judge will not change the parenting plan. My ex allowed my oldest son to stay because he claimed abuse and when mediation didn't go his way, he filed habeas corpus against me. This was very emotional emotionally damaging. Cps has done nothing. The judge ignores the fact that my case is domestic violence and instead continues to put me in harms way. On a whim he changed the parenting plan so that I have to go to where my ex is to pick up my kids when I am pregnant and there is domestic violence history. I am forced to pay Child Support despite not having a job so I am now in debt, and my license has been suspended twice. My ex told the school where my children are that I'm not allowed to call them so I have no contact with them. I'll calls between me and them are monitored by my ex which is against the parenting plan but the court will do nothing. I have not seen my oldest

My sister took them away from me with lies to just get child support from me so she could use it for her travels around the world. Also the court granted her the guardianship with all rights and left me limited parental rights and supervision visits one day a week for one hr. + a restraining order without no evidence of the accusations made against me of abuse. The judge I got is very biased and isn't hearing me at all, I get shut down and harassed without a valid reason.

— SALLY

DCYF Brought 160 children over from a different county and placed them in foster care in spokane county. It added 30 extra cases on to the workers already thirty caseloads , which doubled their load and gives them no time for reunification efforts. The removals from another county is suspicious. The workers are not being transparent.They have been scrutinized multiple times in court recently for providing false information , and I witnessed the judge do nothing

I had an obvious abuse her in my case court found him to have committed domestic abuse past and present GAL in equipped to recognize recognized Domestic Violence or he just actually decides with abusers he's known decide with abusers in King County. He has ruined many children's lives, not just mine, but he falsely influenced the court to find me abuse a conflict on false data court adopted it protected the abuser contacted. The abuser never contacted me on the phone. His influence gave 50% custody to the father during the summer and other joint decisions when he had 191 restrictions also put 191 restrictions on me for false abusive conflict based on misinformation. Cost me thousands of 20000dollars in fees

My ex abandoned me my entire pregnancy begged me, then took me to court said I withheld our daughter and told them I was crazy. The judge believed majority of the lies and labeled me as high conflict and placed a 191 in WA on me, CPS found abuse in his home and the judge said I manipulated doctors,police and CPS. My social media gets stalked and so does my oldest daughter who isn't even his kid, I am scared to speak out and tell my story. My 3 year old is living 50% of her time with a non parent that abuses her .

The system put my son in primary custody of a parent who he alleged SA'd him and although "unfounded they still gave him primary custody years later. I am a victim of DV and abuse and the judge used that against me in the family law trial with my other son's father. After several years of restrictions put on him. He has now blocked me completely from anything that has to do with our son and I have every other weekend. I've had to fight him an arbitration for his 86 Serbian orthodox holidays he's claimed and I won that arbitration. The parenting plan that was signed off by the judge is asinine it is completely against me and in the other parents favor completely I have no rights. This is negatively affect my son and my family tremendously.

This case documents, in a certified transcript, a trial court judge who announced the outcome to opposing counsel at the first hearing, reversed her own statutory findings twenty-four days later based on personal opinion about a state's desirability, admitted she sometimes confused this case with a different one, agreed in advance to exclude all historical evidence from trial, and told both parties before trial began that they already knew what she was willing to do — and then entered a custody order stripping a fit primary parent of her children without a single written best-interest finding.

The Court system has inflicted devastating harm by disrupting five of my seven-year-old daughter's seven years of life through five custody changes and depriving me of more than two years of meaningful parenting time—while falsely labeling me as requiring domestic violence treatment despite contrary trial testimony—then compounded this by disregarding the prenuptial agreement to seize 50% of my separate-property business, awarding the family home to my former spouse, and committing systemic due process and Title II ADA violations (including denial of accommodations for my TBI/PTSD, redundant harmful assessments, lack of grievance process at every court level, and attorney representation failures) that enabled these outcomes.

Mine is the same story as yours, if you are reading this statement you have either been a victim of family court or are someone who can help change this system. Silencing adult and child victims to extract maximum compensation in a broken system causes Irreparable harm to loving parent child relationships. This occurs daily in the pay-to-play family court horror show in America and globally. Protective parents are vilified and silenced while the abusers get custody. Same story, different family, different state, same type of actors across the board all for profit. The best interest of the child is just a slogan; not reality. I will tell our story in my upcoming book, I will never be silenced by a cold hearted system that profited on our misery and abuse.

07 HOW TO READ THIS REPORT

WHAT THIS IS

The Family Rights Registry is a public, parent-reported data collection run by Stand With Meg. Every figure in this Washington report comes from Washington respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in Washington — not to replace formal research, and not to name individual judges or counties as responsible parties.

WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 147 Washington families reporting here are not the universe of Washington families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. Response counts and percentages use the number of families who answered that specific topic or financial field. The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – October 2026 through standwithmeg.com/family-rights-survey. Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

Dollar fields exclude blank, negative, and obvious data-entry artifact values above the report's field caps. When asset-loss values contain a strong statistical outlier, the asset-loss mean and total are suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county or regional field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
