"Violated our due process rights"

**Public threshold rule:** Names are grouped conservatively by normalized spelling, role, and location. Common titles, punctuation, casing, and middle initials collapse together. Close misspellings are not auto-merged without admin review. Only family-direct submissions count toward the public threshold.

THE HEADLINE NUMBERS

# SOUTH CAROLINA AT A GLANCE.

Across 63 South Carolina families reporting through the Family Rights Registry, the patterns are consistent: long durations in court, serious financial loss, and a disproportionate number of parents going unrepresented because they ran out of money fighting.

## WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so South Carolina families — and families in every state — would stop being invisible to the data. This report is their record.

THE COST OF SOUTH CAROLINA FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

| EXPENSE CATEGORY                                           | RESPONSES | MEDIAN    | MEAN      | TOTAL REPORTED |

| GAL Fees                                                   | 40        | \$9,250   | \$17,919  | \$716,759      |
| Asset Loss <sup>1</sup>                                    | 26        | \$90,000  | —         | —              |
| Median Family Burden (44 families reporting 3+ categories) | —         | \$168,500 | —         | —              |

**Median vs. mean:** Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least \$1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

**1. On asset loss:** One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median (\$90,000) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

Family court is where justice goes to die. All judges, attorneys, guardians ad litem, evaluators, law enforcement, child protection agencies, and anyone involved in this process in any way should be thoroughly trained and have a complete understanding of trauma and coercive control. The danger being imposed on children and families due to the family court crisis and lack of knowledge is unimaginable. There is nothing I have seen yet that is in the best interest of the child in this court system. It needs to be held accountable, scrutinized, reviewed, and reformed! My kids will be in therapy for life after the hell we are going through. It's all a racketeering scheme. It's truly disgraceful. More needless families will be torn apart, people will continue to lose their lives, or their livelihoods until there is real change!

Refuses to acknowledge litigation abuse. and if you're the defendant, you might as well forget it you will forever be guilty. There's no due process but haste, dramatic, major changes that traumatize parents, and children for years, waiting for resolution. Richland County family Court will push a parent and a poverty just to preserve a court order even if that parent didn't have the ability to pay child support. They now garnish 60% of my check every two weeks and I can no longer even pay my rent and they don't care.

Malicious fracturing of attachment

Multiple people in the DSS system repeatedly apologized and said this should never happen. I don't trust DSS leadership, I learned they are a love, hate relationship. We were great for 3 years, and then in the final hearing so many lies. DSS turned on us. In the end our granddaughter has been adopted. We see her all the time.....She asks us all the time why she could not live with us. Greenville SCDSS is evil, they lie and manipulate, they create orders, (not always legal) and then Cherry Pick how the order outcome should be--its not about the child!

The family court system has failed myself and my daughter greatly by turning the abuser into the victim an giving him full power over our lives. Ten years in and my daughter’s meantal health will be impacted forever.

It has taken everything from me, torn my family apart at a cost/debt that will be paid ultimately by my children. Everyone close to me has been affected and are at a loss.

I reported concerns my child raised of department of social services. Due to multiple reports being unfounded I've lost primary custody. My ex is military and deployed and the judge is leaving my child with the step mom. Despite never being notified and her not having guardianship or custody.

It has left us fighting for our peace and safety while being told I need to trust the man who has abused me for years and continues to use the courts to hurt me.

We have lost so much time, and now my daughter does not want to see or speak to me

Knowingly prying on the bereaved., Using my already diagnosed mental health cause more mental anguish mental distress mental harm to my family, soul bound

— ROBIN

The system has taken my oldest son from a large, loving family with over 30+ extended family members including three siblings that miss him dearly, and given him to a mentally sick chronically single woman who lives with her mentally sick chronically single mother. It has robbed us of every penny my wife of 12 years and I had in our retirement, savings, and bank accounts. It continues to pull us back and impose extra fines for inability to pay previous fines. We have three small children and are now forced to give up our home due to financial ruin.

Since I have my kids I have always been another one thing that I always been there never left them through the good in the bad we always been together. You came in and excited if you was big and bad Alexis Haywood and you stole my child from me. Who had no evidence no proof the back of what you said and what you did you just made of alligator and they running with it which is so wrong. I pray God have mercy on your soul

The system along with my cousin and drive away so deep between me and my daughter that I don't know that it could ever be fixed and they allowed that to happen

— ANONYMOUS PARENT

Too much to write here.

— ANONYMOUS PARENT

Financially destroy me, a father who doesn't even want his daughter just use her to destroy and hurt me, loss of trust in the system, my daughter withdrawn and in emotional distress at 6 years old

— ANONYMOUS PARENT

Motivated me to expose it. All of it. Husband hid cameras in my house- secretly recording me. Had to hire 5 lawyers. Family, case law, dss, wiretapping, criminal. Women that don't have several hundred thousand dollars to fall back on never see their kids and go to prison for things they didn't do in these situations. God has saved us. The system has failed us.

— ANONYMOUS PARENT

It is unfathomable to calculate what has been taken from us. My child has lost her innocence and her sense of security; I have lost my health to the physical agony of ongoing stress. Because of this system, my daughter no longer trusts the world around her and has been robbed of essential life and educational milestones. We are now left to navigate a deep, unrecognized grief. The family court system doesn't provide justice—it is a predatory enterprise that needs to be abolished.

## 07 HOW TO READ THIS REPORT

### WHAT THIS IS

The Family Rights Registry is a national, parent-reported data collection run by Stand With Meg. Every figure in this South Carolina report comes from South Carolina respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in South Carolina — not to replace formal research, and not to name individual judges or counties as responsible parties.

### WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 63 South Carolina families reporting here are not the universe of South Carolina families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. We flag outliers and report medians when means are distorted (see page 3, note 1). The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

### METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – May 2026 through [standwithmeg.com/family-rights-survey](https://standwithmeg.com/family-rights-survey). Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

When a respondent's financial entry differs from the population by more than three standard deviations, the mean is suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
