## Maggie Kuhl

ATTORNEY / GAL / CHILD REPRESENTATIVE · PUTNAM · 3 FAMILIES

"Maggie Kuhl works at Putnam County Courthouse multiple times during the week. She is also represented Cara Branham my ex for the majority of the court proceedings over the 11 years and the 22 times that she has sued me for contempt and there's only one twice both financial both because the other Party owes me \$4000 and refuses to pay any of accrued cost on my side of the fence. Maggie Kuhl works at Putnam County Courthouse multiple times during the week. She is also represented Cara Branham my ex for the majority of the court proceedings over the 11 years and the 22 times that she has sued me for contempt and there's only one twice both financial both because the other Party owes me \$4000 and refuses to pay any of accrued cost on my side of the fence. She also has violated professional codes of conduct like that is her main job with lying coming in right before court and filing something knowing that I'm representing myself and don't have time to respond going outside of the quart room with Joseph Hunter to then take my decision making away when I was representing myself so they had a closed-door discussion about who was going to have decision-making without me present, and I'm representing myself. She has tried to embarrass me at my workplace by having somebody come in, and serve me multiple times even though I have my cell phone number that hasn't changed for almost 17 years and stated the first time I was served at my workplace to call me and I will meet them anywhere to get the paperwork. They do not need to come to my employment and try to embarrass me at my employer. They still continue to do so" **PUTNAM COUNTY**

"I have a special needs child. I was always 100% primary parent and that father never went to doc appts or therapy appts. that he never paid for food or diapers or anything. The father never spent anytime with the child. Then later I was told that she has "relations" with the petitioner's counsel. Maggie never opened her mouth in defense. she also said that she had never lost a case to the petitioner's attorney and made a lot of good proposes and then rolled over and did nothing during trial to protect the child. Even when I gave her alot of evidence to us"

"At one point, she went over a year without speaking to the kids, yet continued to write reports and make recommendations."

**Public threshold rule:** Names are grouped conservatively by normalized spelling, role, and location. Common titles, punctuation, casing, and middle initials collapse together. Close misspellings are not auto-merged without admin review. Only family-direct submissions count toward the public threshold.

THE HEADLINE NUMBERS

# WEST VIRGINIA AT A GLANCE.

Across 44 West Virginia families reporting through the Family Rights Registry, the patterns are consistent: long durations in court, serious financial loss, and a disproportionate number of parents going unrepresented because they ran out of money fighting.

## WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so West Virginia families — and families in every state — would stop being invisible to the data. This report is their record.

THE COST OF WEST VIRGINIA FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

**Median vs. mean:** Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least \$1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

The system has destroyed my family. I've lost one child to adoption who should've never been adopted out two of my kids. I signed over to their father in fear that I would lose them, and then I lost a pregnancy due to stress of the court, and then I got protected by two other states whenever I gave birth to my other two children so altogether, I have six children and two are in my custody that the state couldn't touch because they did leave their jurisdiction to try and take them and got told where to go by two other states who read their case that was closed and told them they had no reason to touch my firstborn son. Let alone be there trying to take my new babies, and I have to custody of two of my kids, but I don't know how to get my older son out of adoption. I've looked at the case, and I've seen all the broken laws and constitutional rights that were broken and my parental rights that were stepped all over but mind you in the same case the judge decided to adopt three children to a registered sex offender knowing he was a registered sex offender and I have confirmed he is on a registry so let that sit in a judge says that a mother isn't good enough to be a parent in the eyes of the state, no matter how many hoops she jumped through, but believes that a registered sex offender who touched a child under the age of 13 is suitable enough to raise three children let that set in

As soon as my children were ordered into the full custody of their father, opposing counsel sent an email offering to return the children if I obtained a “do not prosecute” to spare the father from the fallout of his crimes. I'm not a perfect man, and I have made mistakes and I have reacted to some situations that I have been put in in not the best way, but I have never jeopardize my son safety I have always thought about the best interest of my son's future, their financial longevity, their success in business and in relationships and family and growth. I've went from a hero to a zero on the sidelines cheering, my son, being a part of every minute to being ripped away like a villain, no arrest, The physical and Dangerman just false allegations, small town good old boy, clubs, and manipulation by a system. It has cost me everything. My child, the innocence of my child. Our bond. My motherhood. A child's childhood. It has cost me my mental health even further, my ability to trust "justice" and "authority". It has cost me my home, finances, a nest egg my deceased father left me which was for me and my future children to thrive. My dignity, my spirit, I am a shell of who I once was. It has almost cost me my job due to overwhelm. The court has allowed domestic abuse to thrive, while my entire life has been torn part. My life has been deduced to before this.. and after this.. My child reported sexual abuse, my mental health was targeted, and the abusers go without remorse, they thrive off my dime and have used a scared little girl in their disgusting pawn to further destroy me, while they destroy her. They have taken EVERYTHING from me.

It has broke a good family and had stole my children and would not listen to them so I am afraid if something really bad does happen to them then they won't say anything cause no one listen to them before and makes me scared for them

It completely tore my world apart and made me have no hope in the justice system/government!

The court system that says God as our witnesses allowed a criminal lawyer defend criminals in family court. The psychological harm and reputation is forever dipped in hell and I'll gladly give up my ticket to upstairs to meet them at its gate in the Gods Court

— KAYLA

Because the court is aware of mother's past the child did not receive fair representation or due process in proceedings. Total neglect if child's education and learning disabilities

**07 HOW TO READ THIS REPORT****WHAT THIS IS**

The Family Rights Registry is a national, parent-reported data collection run by Stand With Meg. Every figure in this West Virginia report comes from West Virginia respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in West Virginia — not to replace formal research, and not to name individual judges or counties as responsible parties.

**WHAT IT ISN'T**

This is not a representative sample. Respondents self-select. The 44 West Virginia families reporting here are not the universe of West Virginia families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. We flag outliers and report medians when means are distorted (see page 3, note 1). The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

**METHODOLOGY · FAMILY RIGHTS REGISTRY**

Data in this report was collected April 2024 – May 2026 through [standwithmeg.com/family-rights-survey](https://standwithmeg.com/family-rights-survey). Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

When a respondent's financial entry differs from the population by more than three standard deviations, the mean is suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
