Lisa Gorcyca CONTINUED 1 / 2

JUDGE · OAKLAND · **6 SUBMISSIONS**

> *"I had a court order concerning threats being made by my ex. As Pro Se I requested that the court order be fulfilled. I was not allowed to finish going through my motion before Judge Gorcyca allowed the opposing counsel to interrupt me. They both decided that it was 'past the time' for the court order to be fulfilled. Another item, Judge Gorcyca would not follow the JOD. Tutoring was supposed to be paid by both. Even though I had a 2 doctor's stating tutoring was needed for my daughter's dyslexia, I still had to to pay for it by myself. Last, the Judge was supposed to review the evidence in my case. Instead she decided to 'trust' the opposing counsel and not review the evidence. The opposing counsel manipulated the facts to the point one could construe that here statements were false. In her judgement she put me down viciously when all I was doing was trying to get some fairness, and equal treatment by the FOC."*

> *"He ignored everything that she ordered and did not make my ex do it and only me, even though she ordered and threatened him with jail over it she just kept sweeping it under the rock where I finally gave up pressure in it. She said stuff on the record I have court transcripts to prove it even brought them into her to remind her and she pretty much told me too bad. I don't care what I said previously I'm gonna change it just to make your ex happy for whatever reason it was disgusting I don't know what she had going on with him, but there was something. He had a lawyer and his lawyer was actually a pretty shady person himself, but he my ex would laugh at me and say that him and the judge were at parties together, so I would never beat him and that he keep getting away with it."*

> *"She pushed my trial 3 time with no explanation. Then stated she was not going to look at all the evidence of a disabled child being abused / neglected by his mother. She signed off and granted the stop of a surgery that our special needs child needs to breath better. Clearly not in the best interest of the child. Not sure. Postponed the trial 3 times now nothing"*

GAL / CHILD REPRESENTATIVE · OAKLAND · **5 SUBMISSIONS**

> *"In my opinion, the GAL assigned to my case is not impartial and failed to act in my child's best interests. Throughout this process, I felt that recommendations were made to support predetermined outcomes rather than to objectively evaluate the facts and circumstances of the case. What has been particularly concerning is that the same GAL continues to be appointed in cases before the same judge, despite widespread concerns expressed by parents who have appeared before them. Over the course of this litigation, I have spoken with numerous mothers who have had experiences with this judge and GAL, and many expressed similar concerns regarding fairness, objectivity, and accountability. The perception among many parents is that recommendations are often accepted without meaningful scrutiny, even when significant evidence exists to the contrary. This creates a sense that outcomes are predetermined and that parents are not receiving the independent evaluation that a GAL is supposed to provide. Whether those concerns are ultimately justified is for others to determine. What I can say is that my experience left me with little confidence that my voice, my concerns, or the evidence I presented were given fair consideration. The consequences for my son and for my family have been profound."* 6TH JUDICIAL CIRCUIT (OAKLAND COUNTY)

GAL / CHILD REPRESENTATIVE · OAKLAND · **5 SUBMISSIONS**

> *"She falsified court documents stating that my home was not safe. She testified that I told her this and I did not. She also sent my 5 year old child to be tested for ADHD without including his past medical history and encouraging me to administer 15 mg of Adderrall to my at the time 5 year old child who did not display any behaviors/and or symptoms of ADHD. She over charged for basically no service. She also failed to speak with my family and get the proper information for the case. She suggested that my child should not stay overnight at my home, and never visited my home. She suggested the administering of medicine by Zoom everyday with the father to monitor. Even though I gave my son the medicine against my own will and judgement she accused me of not giving it. It was recoreded daily and sent to my attorney. This affected my custody. Falsified records and recommended my son not return home provided false testimony without speaking to me or visiting my home Provided false testimony, ordered stop visitation with my son without evidence"*

> *"From the 1st time my daughter disclosed CSA, she has lied to the court about the status of the CPS investigation. She took away my parenting time and I had to jump through multiple hoops over a year to get custody of my daughter back. A year later, my daughter disclosed again. This time her forensic interview resulted in CPS filing to terminate the parental rights of my daughter's father. The GAL lied to the court on March 24, 2021 saying that CPS had no filed to terminate parental rights. She claimed i was also being investigated. And she asked thst she be able to do her own investigation. The Judge turned her into an L-GAL. She then worked with the court-appointed child psychologist to create an affidavit claiming my daughter recanted. She had the psychologist send that to the prosecutor, who then declined to press charges due to conflicting evidence. She admitted this in the recorded in July 2021."*

> *"When I was in DV shelter, rather than call me or respond to my attorney, she filed a missing persons report against me and called the police numerous times to make it seem like I was endangering the kids."*

THE HEADLINE NUMBERS

MICHIGAN AT A GLANCE.

Across 198 Michigan families reporting through the Family Rights Registry, the patterns are consistent: long durations in court, serious financial loss, and a disproportionate number of parents going unrepresented because they ran out of money fighting.

WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so Michigan families — and families across every represented location — would stop being invisible to the data. This report is their record.

03 THE COST OF MICHIGAN FAMILY COURT

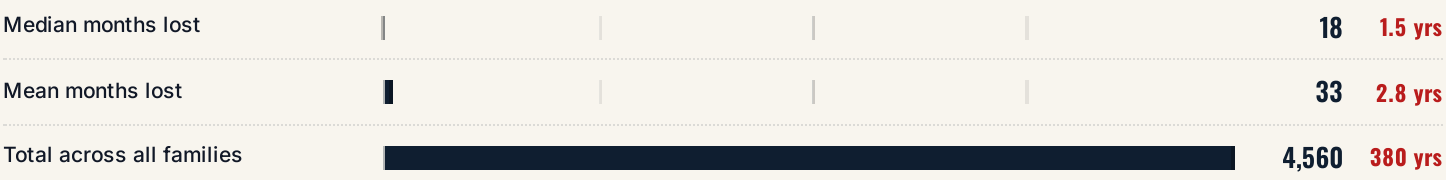

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

EXPENSE CATEGORY	RESPONSES	MEDIAN	MEAN	TOTAL REPORTED
Attorney Fees	120	$20,000	$66,341	$7,960,922
Lost Wages	96	$10,000	$56,128	$5,388,258
Other Court Fees	64	$1,250	$14,643	$937,171
Therapy / Evaluations	75	$2,000	$6,312	$473,431
Reunification Services	50	$300	$4,906	$245,296
GAL Fees	54	$3,000	$9,121	$492,551
Asset Loss [1]	80	$40,000	—	—
Median Family Burden (85 families reporting 3+ categories)	—	$104,500	—	—

Median vs. mean: Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least $1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

1. On asset loss: One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median ($40,000) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

My husband recorded my daughter through the bathroom window at my home. I called Ashley child advocacy center and also took her for a forensic interview. At that time we both did a police interview. I picked up my husband after work and took him to turn in his phone and interview. At first he denied. At that time my daughter (15) was unsure if he did it and he had a believable story. He stayed roughly 1 month until he admitted and moved out. I called the police and he turned himself in. The court opened a case and stated he was the respondant. The day of court I became the respindant, got placed in front of an attorney with a list of allegations, and sat infront of the judge. I had asked in court if my husband could live in the apartment in the barn with no unsupervised contact and no access to the house (i was a stay at home mom and home schooled at the time) they took my children that day and placed them in kinship care. They claimed mental and emotional neglect and academic neglect (3 of my children have IEPs and have been in public school and continue to fall behind. I was a substitute and decided to home school this year. Since they have court ordered my children to return to public school). This story goes on. This is just day one This has been awful and has destroyed my family in ways I cant explain. I lost my husband one day amd two days later had my children ripped. I'm so tired and broken. They are home but so lost. My son almost got admitting inpatient psychiatric because separation anxiety is so bad he has became unsafe. He is 7 years old. My life Is turned upside down and they still have jurisdiction and FRP is involved. Next hearing is beginning of March.

This system stole everything from me from my own birth mother and my siblings to my own God given gifts, I was mos!ted in the foster care system and by my birth father and dhhs and cps knew they separated me from my brothers because I was speaking up they kidnapped my babies. They prey on people that seek help from the government and they add more pain and suffering to the situations. I used to believe heros existed but the heroes protect the corruption by being silent and not speaking up. I am my kids amor I didn't know my laws or rights or what they did but now I know I will hold them accountable for 6 years stolen from me being a first time mother that can't carry anymore babies due to my health

— SHIANNE

The entire system (police, CPS caseworkers, judges, etc.) works together on an agenda most of us have no idea is being imposed onto us until our banks are empty, our kids are trafficked into the system, and we are too broke, too destroyed and too heartbroken to do anything about it. They destroyed my family, the health of my children and myself, stole my house, my kids and all my belongings, but what they didn’t do, was kill me, and my good spirit but they prob should have! To all parents: STAY AWAY FROM FAMILY COURT! It’s not safe for anyone right now. None of the courts are.

> The greatest pain was not only surviving abuse. It was watching a system built to protect children knowingly empower it. For years, I fought not just one man, but an entire network of silence, favoritism, and indifference. I lost financially. I lost physically. I lost pieces of myself emotionally. Yet the greatest loss was the years stolen from my children's peace and innocence. Courts speak of "the best interests of the child," but too often they ignore the terror of forcing victims to remain tied to their abusers through custody and parenting coordination. Justice without courage is not justice at all.

Organizations like CPS originally was founded with good intentions, now they are just leaching taxpayers dollars, using them and abusing them with their own money. They intentionally hire poorly trained and poorly paid staff, whose livelihoods depend on getting paid through the state, including poorly performed, failing attorneys. This, in turn, gives them the state affiliation and guaranteed income that isn't performance- based. None, I repeat, NONE OF THESE PEOPLE have genuine interest and care for the children they allegedly help, but essentially break.

I went in to court with an attorney within 10 minutes I don't even know what happened it happened so fast My attorney knew that she kidnapped my son never even brought it up to the judge it was automatically how much am I paying child support that was the main subject that had nothing to do with what she had done to me. Now I'm stuck painting an outrageous amount of child support. I can't afford to even go see my son and live at the same time. She agreed to 50% custody but she still wanted the full child support even though she made false allegations against me and she kidnapped my son. The courts in Hillsdale Michigan and Dover Delaware look the other way because they are getting a portion of my child support money. And they have no care of what she had done to me Mentally or psychologically. And worse yet they had no care of how it would affect my son mentally and psychologically as well.

The destruction of my family has changed every part of my life. Living through years of separation from my daughter has created a level of grief and trauma that is hard to put into words. Every holiday, birthday, school event, and milestone that passes is another reminder of everything we've lost. The repeated trips back to court have only added to that trauma. Each hearing brings hope that maybe this time things will change, only to leave feeling like we're no closer to healing or being reunited. Instead of finding solutions, we've spent years reliving the same pain over and over. It's emotionally exhausting, financially draining, and has left our entire family living in a constant state of uncertainty. This hasn't only affected me. It has affected my husband, my children, my extended family, and most importantly, my daughter. Relationships that should have been built naturally have instead been replaced with distance, missed memories, and unanswered questions. We've missed birthdays, holidays, sporting events, family dinners, and countless everyday moments that can never be recreated. Despite everything, I have never stopped loving my daughter or hoping for the day our family can begin to heal. No family should have to endure years of separation while repeatedly returning to court without moving any closer to a resolution. The emotional toll of living in that cycle has been devastating for all of us.

— TARA

I went to the Frind the court to get help with child support from a man that showed no interest in his child and had a long history of drug abuse. Instead, I had to file bankruptcy borrow money from everybody just to keep my son safe from him after her, ignoring all the evidence. To this day, I still haven't gotten child support, even though it was ordered, but yet she put my son at risk numerous times. I went to them for help and instead they took away all the safety and security that I had earned on my own. I went for help, instead she destroyed my life.

People ask me what the system did to my family, and the truth is, it didn't just take my children—it took years of our lives that we can never get back. My family was torn apart. My daughters were removed and ultimately adopted, only to later endure years of abuse in the home that was supposed to keep them safe. While they suffered, I spent years fighting to be heard, trying to get people to look at the evidence instead of the assumptions that had already been made about me. The hardest part isn't just what happened—it's knowing that so many opportunities existed to stop it. There were professionals whose job was to protect children, and somewhere along the way, that protection failed. My children paid the price. The system didn't just affect me. It affected every one of my children, my husband, our extended family, and the relationships we should have been able to build over the last decade. It stole birthdays, holidays, graduations, everyday moments, and memories that no court can ever give back. Despite everything, I refused to give up. I kept fighting because my children deserved someone who would never stop believing in them. My story isn't about revenge. It's about accountability. No family should have to endure what mine has, and no child should spend years in danger while the adults responsible for protecting them look the other way. I can't change the past, but I can use my voice to fight for change so that what happened to my family doesn't happen to another.

— ANONYMOUS PARENT

The system, paid by our taxes, should protect victims of assault, however there is a funnel of money going towards trafficking kids instead because they know you'll do anything to try to get them back. Its been impossible to hold them accountable. They ruined my life and family relationships.

— ANONYMOUS PARENT

They have denied a child a life with both parents and lack of support to the child due to having to present things in a special way. When abuse is occurring, it shouldnt matter how you get the proof to the courts, it should be looked at!

— ANONYMOUS PARENT

The system has denied my child a sense of safety, and taken away her childhood. She say she wishes she could just be a kid. I have always encouraged her to feel free to love both parents and not choose sides and her love for her mother is weaponized to traumatize her further. She has to go and be with a parent that beat and verbally abused her sibling and watch as the system didn’t punish her and actually tries to push her into accepting her mom is safe despite her continued fear that her mom will hit her again.

My children and I had such a joyfilled relationship and they trusted that I would protect them after what happened. That was nearly nine years ago and I have not been able to see my children nor do I know where they were moved even though my ex had multiple CPS records and incidents known by therapists. The children lost their mother, their siblings, their maternal family, their home, their trusted doctors and other professionals, their trusted friends, their financial assets, their safety, and their hopes and dreams. Me too. They do not know their mother has never stopped fighting for them. They do not know how much they are missed by their mother, her family, or their friends. > Judge Cholack pushing off motions to other people of the court to handle it because he doesn't want too. It failed to see the narcissistic ways of my ex and the damage he has created to my daughter. Proof and evidence all ignored. Motions signed and ignored by ex. Haven't spoke to my daughter since may 2nd 2025

> I am a human trafficking survivor and my son was taken by force being trafficked in the system after the referee order for him not to go into foster care! If the Lord did not bless with the 10K, my son would be gone trafficked off in the system from discrimination, having a gentic disorder and lies!

Oakland County Judge Savin should've protected me from a habitual criminal offender. I was told getting a PPO was easy and that it shouldn't be a big deal. $9K later we are still paying for it. We are bound by a document that was signed under duress because of Judge Savin's phone call that told my lawyer for me to stop calling the police. I was in fear of my life based on all the domestic violence charges she had, the felon assault she had, and the neighborhoods she ran from. We were doxxed, filmed in court, people sat outside our gouse, she placed life size court photos of us in her yard. She did this all while on probation from an earlier assault charge. She was given a criminal trespass for being on my property while I had a ppo against her that I had to pay for because the Clarkston police wouldn't mess with her. Judge Savin didn't mind that this women on probation was allowed to cause all this ruckus. If judge Savin would've done her job that day I wouldn't still be reeling every time someone in a suit shows up in my house. The PTSD is very real and shame on her for doing that to me. We have/had all the documents and she didn't care. No family judge should be handling criminal PPO's.

The court has torn apart my family by separating my youngest child from all of his siblings and me, his mother. Now he is being raised by his grandmother, in her sons name. She wanted my son, not him. She won.

I no longer believe in people, the courts, or the system. It is not there to help or protect. I have no hope. My beliefs have been shattered. feel broken, a shell of the person I was.

It has taken literal years away from my daughter and I. She is only 3, and I have been forced yo miss so much. Tons of proof that I wanted everything to do with being there every day for her. Has cost me over $15,000 and that all could and should be for my daughter. The judge took away extra time just to child support would go up. Even though it was never even said that I was a bad Father.

They have put wrong information down. They've given me zero custody straight off the bat which have taken my daughter's time away from me, which is my only child. They've taken advantage of me by using my PTSD and mental health issues.

Safety is when you know you are safe, it's when you know that your parents are safe, it's when you can lay your head down at night and go to bed peacefully it's when you can tell your parents that you love them and give them a hug but once foster care takes you, you never know when you'll be safe again, you don't know when you will be able to lay your head down at night and fall asleep peacefully you don't know if your parents are okay and your biggest worry is your parents and your siblings at the end of the day but you're also so angry because the court took that all away from you.

The system has separated my child from me and from her grandparents, who are now afraid to see her due to my ex sending our daughter in to professionals with false allegations and has caused the permanent loss of irreplaceable time. It has also resulted in the loss of my home, savings, and financial stability while the situation continues without resolution.

I was denied due process, denied the right to speak on the record, coerced into a plea agreement and still fighting for reunification. I was triangulated out of my oldest child's life and haven't seen him in over 3 years due to court orders suspending my visitation.

The System has put my child in the hands of an abusive parent. The system believes fairness for the parents over my child's safety and multiple sources of proof and professionals input.

07 HOW TO READ THIS REPORT

WHAT THIS IS

The Family Rights Registry is a public, parent-reported data collection run by Stand With Meg. Every figure in this Michigan report comes from Michigan respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in Michigan — not to replace formal research, and not to name individual judges or counties as responsible parties.

WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 198 Michigan families reporting here are not the universe of Michigan families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. Response counts and percentages use the number of families who answered that specific topic or financial field. The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – November 2026 through standwithmeg.com/family-rights-survey. Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

Dollar fields exclude blank, negative, and obvious data-entry artifact values above the report's field caps. When asset-loss values contain a strong statistical outlier, the asset-loss mean and total are suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county or regional field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
