THE HEADLINE NUMBERS

ARKANSAS AT A GLANCE.

Across 43 Arkansas families reporting through the Family Rights Registry, the patterns are consistent: long durations in court, serious financial loss, and a disproportionate number of parents going unrepresented because they ran out of money fighting.

WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so Arkansas families — and families in every state — would stop being invisible to the data. This report is their record.

02 THE COST OF ARKANSAS FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

EXPENSE CATEGORY	RESPONSES	MEDIAN	MEAN	TOTAL REPORTED
Attorney Fees	28	\$12,500	\$66,734	\$1,868,550
Lost Wages	23	\$20,000	\$275,357	\$6,333,200
Other Court Fees	14	\$2,250	\$23,570	\$329,980
Therapy / Evaluations	20	\$3,000	\$8,385	\$167,700
Reunification Services	16	\$300	\$1,419	\$22,700
GAL Fees	23	\$1,700	\$16,611	\$382,050
Asset Loss ¹	18	\$50,000	—	—
Median Family Burden (19 families reporting 3+ categories)	—	\$161,000	—	—

Median vs. mean: Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least \$1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

1. On asset loss: One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median (\$50,000) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

My children were removed from my care by the Arkansas Division of Family Services under circumstances that were both unfair and deeply distressing. For over a year, the agency made it nearly impossible for me to regain custody, despite my constant efforts to comply with every requirement and reunite with my children. When my children were taken, I immediately asked that they be placed with family members, but that request was refused. The department delayed setting up the counseling and support services that I was ordered to complete, even though I was ready and willing to participate. To make matters worse, they moved my children four hours away from me, knowing that I did not have a vehicle. This made it almost impossible to visit them regularly, no matter how much I wanted to. Throughout the process, I was portrayed inaccurately. In court, the department told the judge that I was not trying or cooperating, which was completely untrue. The Arkansas State Police later investigated the allegations that led to my children's removal and found them to be unfounded and untrue. Even with that finding, my children were never returned to my care. Eventually, I was pressured into signing away my parental rights — not because I wanted to, but because I was cornered and made to feel that I had no other choice. My children were adopted, and I live every day with the pain of knowing that the truth was ignored and that I did everything I could to bring them home. This experience has left me determined to speak up — for myself, for my children, and for other parents who are struggling to be heard and treated fairly.

This system originally made it to where I was only allowed to see my children every other weekend and on Tuesdays, giving the mother full control to manipulate the minds of my kids. The state changed from this to 50/50 custody as a standard during the 2nd filing for visitation with my children. Because I have been successful at my job and constantly pushing to do better for my kids, I was told even with this agreement I have to shoulder the burden of child support, insurance, and the mother gets to choose which school the children attend. To this day my children have said they would rather attend schools closer to me and hate that the mother and her family have continued to talk negatively about me. The court has made it almost impossible to hold her accountable and she uses this knowledge to continue to cause issues in my new marriage and relationship with the children. Decisions about custody were made because she had a majority of the custody time and the fact that my children were stripped from me during Christmas and held for 6 months was never factored into this. It was like it didn't matter. Watching the pain in my youngest child's face when it's the night before they return is horrible. I have fought for the betterment of my children and constantly told that because I'm the dad, the burden of proof is higher on me that she is doing wrong.

06 HOW TO READ THIS REPORT

WHAT THIS IS

The Family Rights Registry is a national, parent-reported data collection run by Stand With Meg. Every figure in this Arkansas report comes from Arkansas respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in Arkansas — not to replace formal research, and not to name individual judges or counties as responsible parties.

WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 43 Arkansas families reporting here are not the universe of Arkansas families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. We flag outliers and report medians when means are distorted (see page 3, note 1). The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – May 2026 through standwithmeg.com/family-rights-survey. Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

When a respondent's financial entry differs from the population by more than three standard deviations, the mean is suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte-Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
