ALASKA AT A GLANCE.

Across 36 Alaska families reporting through the Family Rights Registry, the patterns are consistent: long durations in court, serious financial loss, and a disproportionate number of parents going unrepresented because they ran out of money fighting.

WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so Alaska families — and families across every represented location — would stop being invisible to the data. This report is their record.

02 THE COST OF ALASKA FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

EXPENSE CATEGORY	RESPONSES	MEDIAN	MEAN	TOTAL REPORTED
Attorney Fees	21	$50,000	$66,655	$1,399,750
Lost Wages	21	$25,000	$52,714	$1,107,000
Other Court Fees	14	$5,000	$24,857	$348,000
Therapy / Evaluations	17	$5,000	$7,386	$125,560
Reunification Services	8	$450	$1,838	$14,700
GAL Fees	4	$0	$3,000	$12,000
Asset Loss	18	$40,000	$86,611	$1,559,000
Median Family Burden (19 families reporting 3+ categories)	—	**$165,000**	—	—

Median vs. mean: Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least $1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

Family court system is the only system that you're guilty until proven innocent without any evidence whatsoever no past history of any kind of violence no police records no hospital reports just words the mother was able to run off and remove the children from my life

This court has allowed unsubstantiated false allegations of domestic violence render jail time, has enabled opposing side to engage in coercive control , obstruct visitation and has cause a substantial amount of life resources researching and looking for any justice just in an opportunity to exercise federally protected fundamental interest in being a parent. Not to mention still waiting on $40,000 in equalization of domestic property assets that as never addressed back in 2021- still trying to get justice.

06 HOW TO READ THIS REPORT

WHAT THIS IS

The Family Rights Registry is a public, parent-reported data collection run by Stand With Meg. Every figure in this Alaska report comes from Alaska respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in Alaska — not to replace formal research, and not to name individual judges or counties as responsible parties.

WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 36 Alaska families reporting here are not the universe of Alaska families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. Response counts and percentages use the number of families who answered that specific topic or financial field. The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – October 2026 through standwithmeg.com/family-rights-survey. Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

Dollar fields exclude blank, negative, and obvious data-entry artifact values above the report's field caps. When asset-loss values contain a strong statistical outlier, the asset-loss mean and total are suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county or regional field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
