Family-reported pattern context only. Each person must file only their own truthful, first-hand complaint using their own facts, dates, evidence, orders, transcripts, and documents.

Public threshold rule: Names are grouped conservatively by normalized spelling, role, and location. Common titles, punctuation, casing, and middle initials collapse together. Close misspellings are not auto-merged without admin review. Only family-direct submissions count toward the public threshold.

THE HEADLINE NUMBERS

MINNESOTA AT A GLANCE.

Across 88 Minnesota families reporting through the Family Rights Registry, the patterns are consistent: long durations in court, serious financial loss, and a disproportionate number of parents going unrepresented because they ran out of money fighting.

WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so Minnesota families — and families across every represented location — would stop being invisible to the data. This report is their record.

03 THE COST OF MINNESOTA FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

EXPENSE CATEGORY	RESPONSES	MEDIAN	MEAN	TOTAL REPORTED
Attorney Fees	46	$14,500	$46,270	$2,128,400
Lost Wages	45	$12,000	$69,466	$3,125,980
Other Court Fees	32	$1,004	$14,997	$479,904
Therapy / Evaluations	33	$500	$2,512	$82,900
Reunification Services	30	$150	$6,237	$187,100
GAL Fees	35	$500	$1,945	$68,059
Asset Loss [1]	45	$20,000	—	—
Median Family Burden (37 families reporting 3+ categories)	—	**$111,300**	—	—

Median vs. mean: Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least $1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

1. On asset loss: One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median ($20,000) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

Mn child protection has ruthlessly and maliciously damaged our family emotionally, spiritually, and financially. After being foster providers in a small town we became the target. Ever since the birth of my final and third child 8 years ago, we have been routinely surveillanced, manipulated, and preyed upon for statistical and financial gain in a smaller northern MN county. The judge, attorney, assessors, visit facilitators, gals, workers, law enforcement from bottom to top all seem to be in a secret group where the only rules and laws that apply are theirs. My children have been hurt and abused in the system, swept under the rug with an internal "investigation " in 2019. They have repeatedly lied, saying we didn't have prescriptions that we did...and they ran out the permanentcy clock by not starting a trial home visit when my children were with me. My children were out of my care for 35 days...they put them ages 1 and 4 and 180 days right off the bat.

Legal abuse was rapant, real threats recorded, incorrect information reported, lack of due process, and obvious bias allowed. A safe, healthy, proactive and loving parent should not be forced into paying exuberant amounts of money to retain custody of their child. How unethical to know that custody court pays wins to the person with the most money and willingness to break the most rules, while those that follow the rules are ignored. When violence is allowed and threats given power, peace and justice cannot occur. A child's best interest is not the focus at any point, but instead the winner is the one with the most financial power and ability to destroy the other party. It is not about who is the best parent, it is about who is the most destructive. My innate right to raise my child is captive by someone with more financial means than me. This is not justice, this is corruption, this is harm and alienation, this is future expenses and health disparities, this is giving power to the people this government is sworn to defend against. This is taking the purest part of life and weaponizing it to unnecessary and harmful extremes. Good parents are being victimized by bad parents and those are the victors of the court system- who is paid off by disparities and continued orders and financial burdens. Problems must exist for the courts and actors to capitalize it, solutions are not the goal.

Steve Shermone private attorney / city attorney /retired and Judge Jerrod Shermone's brother relationship created a conflict of interest in your case, and that an improperly handled ex parte motion contributed to a broader pattern of judicial bias and procedural violations. The family relationship was not disclosed or properly screened for conflict under judicial ethics standards. - Decisions affecting your case were made in a context where impartiality could reasonably be questioned due to the familial connection. - You believe an ex parte motion was filed or processed improperly, without your knowledge or opportunity to respond, and that this action materially harmed your case. - These events contributed to a pattern of procedural irregularities, lack of transparency, and decisions that appeared to favor individuals connected to the Shermone family network.

07 HOW TO READ THIS REPORT

WHAT THIS IS

The Family Rights Registry is a public, parent-reported data collection run by Stand With Meg. Every figure in this Minnesota report comes from Minnesota respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in Minnesota — not to replace formal research, and not to name individual judges or counties as responsible parties.

WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 88 Minnesota families reporting here are not the universe of Minnesota families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. Response counts and percentages use the number of families who answered that specific topic or financial field. The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – October 2026 through standwithmeg.com/family-rights-survey. Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

Dollar fields exclude blank, negative, and obvious data-entry artifact values above the report's field caps. When asset-loss values contain a strong statistical outlier, the asset-loss mean and total are suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county or regional field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
