## WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so Missouri families — and families across every represented location — would stop being invisible to the data. This report is their record.

## 03 THE COST OF MISSOURI FAMILY COURT

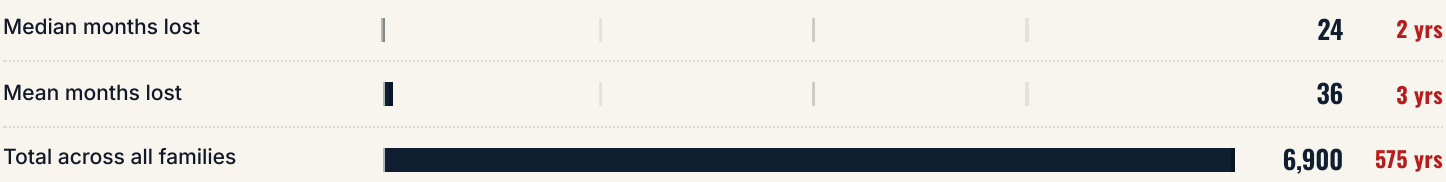

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

| EXPENSE CATEGORY | RESPONSES | MEDIAN | MEAN | TOTAL REPORTED |
|---|---|---|---|---|
| Attorney Fees | 158 | $15,500 | $40,583 | $6,412,050 |
| Lost Wages | 118 | $10,000 | $103,732 | $12,240,346 |
| Other Court Fees | 80 | $500 | $5,141 | $411,309 |
| Therapy / Evaluations | 101 | $1,200 | $5,793 | $585,140 |
| Reunification Services | 59 | $100 | $1,649 | $97,263 |
| GAL Fees | 127 | $2,000 | $6,242 | $792,750 |
| Asset Loss [1] | 95 | $25,000 | — | — |
| **Median Family Burden (116 families reporting 3+ categories)** | — | $91,500 | — | — |

**Median vs. mean:** Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least $1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

**1. On asset loss:** One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median ($25,000) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

She claimed assets owned by others failed to report marital debt all to come out with an extreme favorable judgement. False accusations required me to take 26 wk domestic violence class and 8 wk anger control. Completed 26 wk class virtual, now still trying to cause problems through court with that. Still don't have my personal items from marital home and she has not refinanced the home as court ordered her to do over 8 months ago.At the beginning my kids were kept away from me for 6 months going through multiple attorneys until I finally got visitation a few months before trial.

I see the cases here & they are disgusting. Since this happened all I have wanted to do is advocate for poor families, cps tricks you into signing things & do all sorts of things even I didnt know,but all ive done for the last few years is read about cases & the injustice & watched videos & learned laws. However I cant leave my town of 5000 ( dad has visitation) I am TERRIFIED that as long as my children are school age, there could be retaliation. This bothers & angers me immensely. Nobody should have to worry 1 angry ex hotline call, or just a cps made up lie & it could happen all over or much worse!

He was forced into public school. We don't do public schools. My son is living with an abuser someone who's tried to kill himself multiple times and someone who has tried to kill me multiple times. I've been harassed by law-enforcement in court officials. I had to move thousands of miles away for safety from the system. I'm not even allowed to speak to my son. My son sent me a Snapchat video where he was telling me. He loves me. He misses me. He really wants to see me. Hurry up and get my stuff done so I can see him. The court refuses to give me my final judgment since January 9 and I don't even know what my legal last name is. There's no way for me to know what stipulations to court have in order to see my son. I feel like my life is pointless until I can get my child away from that man. I've been labeled as mentally unstable for simply being a victim of domestic violence.

Pro Se is not a bad option looking back. All the time, stress and energy getting info, going to appointments, taking phone calls and finding more ways to make money to pay an attorney-that is really not looking out for your child or you like they say 99.8% of the time, can just as reasonably jump in to reading laws, studying cases, filling out forms, going to open court hearings and see the judge and attorneys in action, and presenting your own case. Sounds intimidating and it seems like the courts don't want you to do it because it's harder for them, attorneys don't want you to do it because it takes their job, but you can do it. Now it's easier than ever. Know your rights and the laws- attorney represented or pro se.

> My husband immediately requested a GAL before any hearings had taken place. I agreed thinking that having someone speak for my child would be helpful. The GAL has created an absolute which hunt on me. She has tried to use my trauma diagnosis of things like PTSD as "proof" of me being unfit, rather than proof of my husband's abuse even after I had informed her of the abuse. She has subjected me to evaluations and required that I sign up for SoberLink alcohol monitoring because I had a DUI, not during parenting time, that I've been charged with while escaping another abusive partner. She is misrepresenting the data that has show 3 small blips of alcohol over 4 months. All were residual mouth alcohol from fruit juice or extracts. They all dropped consistent with residual mouth alcohol and not consumption, yet she has insisted in court that this blips prove that I have a drinking problem. She has called my lawyer and tried to convince him that I do not even want my child and that I find her too difficult. My lawyer is not responding to emails and is showing up unprepared and is agreeing to even blatant lies about me. This is my third lawyer and this has happened every time. A year ago my mother and sister repeatedly assaulted me in front of my child. They insisted that I had assaulted them repeatedly. My daughter's dad immediately filed a motion for emergency full custody based on their false allegations and withheld my child for 2 months until the matter was reviewed by the Court and denied. Although their claims were later disproved by video surveillance, he still claims that I was the aggressor and even though it was denied by the court, he believes that he did nothing

St Charles County Family Court was complicit in the complete alienation of my children and total financial ruin that I will likely never recover from.

— MEAGEHN

Kidnapped my daughter, separation trauma, told lies about me to my daughter. Distrust of the system.

— REBECKA

Tore it the fuck apart . My kids feel like i didn't try hard enough . I had a 4 bedroom house and they took guardianship when I choose to leave that house because there was black mold and they wanted to send my children home to a place that could make them deathly sick . I Hardly get to even speak to my kids . When they took the kids they placed them with Karen Olson who had lost her 2 kids for abuse and left them there for a month or more before ever doing a background check . The person they are with now has assault records her name is Tonya Daniels ( Shoemaker or Mena) . They dont seem to understand my children miss there mother and want to see me as I love and miss my children very much also . They put my kids with someone that talks really bad about me to my children . My children have told me multiple things said

— MELISSA

Dallas county, Mo is mostly responsible for my 4 children and my diagnosed PTSD. They could have saved us from all the abuse we endured. Physical, mental, sexual... They could have helped us. Instead, they helped our abuser! In every way possible! From ignoring us, gaslighting us, threatening to throw me in jail for trying to get charges on my abuser, taking my kids away and DFS placing them with our abuser, all the way to perjury! I've raised my kids to respect authority, but they, even as young adults, fear cops and DFS.

This system has ripped the goodness and joy from my family and mentally emotionally tortured myself and my daughters

— ABIGAIL

Took away my ability to provide for myself, to save or build and stole the assets built for the kids future. Where there was a strong bond of love and protection, joy and connection was replaced with disregard, anger, and displacement. My oldest daughter is now a prosecutor for family court learning to rake in $ like her mom and grandparents. My middle daughter completed her nursing degree and works for medical industrial complex making money hurting ppl without knowing what she's doing. My youngest son wants nothing to do with a healthy relationship with someone as he sees what happens to families. He lives with his uncle and has no interest in accomplishing anything. They are all grown bullies with stone hearts. Communication is more than fractured and I am disabled veteran who's done 7months for being broke. My wife was also thrown in jail by this judge for telling him to recognize the fraud.

— DALAS

The system is failed. This statement was said by the attorney, mediator which was a retired judge of 30 years. I have lost my assets that I was owed. It showed me that the courts do not help the innocent.

My son and I are complete strangers 21 years later. I'm $32,000 behind in child support. I was homeless for 8 years following the loss of a fraudulent court ruling by a judge who never had jurisdiction. Everyone knew but me. I'm so pissed.

— LAUREN

They are allowing a mother that is mentally and physically abusive to hold custody and use the system that she works in to shield abuse and constitutional violations. Judge called her abusive on the first page of the order.

— SHANE

It has broken my family apart to where my kids was always with me every single day. Not with there dad's at all i was fighting to get child support on both dad's before the courts did take my children. Right now I just can't think clearly.

— HOLLI

This judge put my child in a home with her father she didn't really know and with a gf and eventually they got married. So the step mom physically, mentally, and emotionally destroyed my child along with some of her fathers family members and to this day even tho I have had her home for three years now his family members still mentally and emotionally abuses my child to the point she isn't allowed to be around them other than her father. In order to keep the step mom out of my child's life I had to get an ex-parte order on her for my daughter after the fact my daughter sent me a video/more of a recording because you couldn't see what exactly was going on of her step mom mentally and physically abusing her while her father was literally right there and didn't stick up for our child! Not only did it destroy me but it destroyed my daughter where she is in therapy classes weekly!!

Then my sister and ex went to our courthouse told the court that I was beating my son had an ex-parta drawn up on false allegations with no evidence. No CPS, no DFS case worker was ever there at my house to take my son to an ER for evedince on the day I was thrown out of my house by 4 police officers. My kids were taken, I got clean and did everything the system asked. But they still wouldn't give them back. My daughter is home full time and has been for 2 years but I am still fighting family court for my boys to come home from the guardianship. The system tricked me into thinking guardianship was the best option( I did not have a lawyer present) and after I went with guardianship, they did not include visitation rights in the agreement like we discussed. So after my dfs case closed, I didn't get to see my boys for almost a year. Until i opened up another court case with family court. The system allowed my daughters dad to move 10 hours away with her and I didn't get to see her for 2 years. I have never lost parental rights and was supposed to have 50/50 custody when he ran off with her. The court did not make him come back.

I can't stomach the thought of even realizing the amount of destruction and an intentional disregard of a mother to children bond this has and will cause for myself and my children. I'm partially paid child support. She said she really didn't need it, but her attorney told her to put it in there because that made the court look at her as the custodial parent she has used law-enforcement to file false allegations, including police reports, she's used my oldest daughter whose not around and hates my wife as it means to cause disruption and fights and arguments one-sided my wife doesn't my daughter does in front of the child or child or three-year-old her and my ex-wife buddy and Dave called the law they have stocked. ## 07 HOW TO READ THIS REPORT

### WHAT THIS IS

The Family Rights Registry is a public, parent-reported data collection run by Stand With Meg. Every figure in this Missouri report comes from Missouri respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in Missouri — not to replace formal research, and not to name individual judges or counties as responsible parties.

### WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 254 Missouri families reporting here are not the universe of Missouri families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. Response counts and percentages use the number of families who answered that specific topic or financial field. The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

### METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – October 2026 through standwithmeg.com/family-rights-survey. Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

Dollar fields exclude blank, negative, and obvious data-entry artifact values above the report's field caps. When asset-loss values contain a strong statistical outlier, the asset-loss mean and total are suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county or regional field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
