THE HEADLINE NUMBERS

# NEW JERSEY AT A GLANCE.

Across 44 New Jersey families reporting through the Family Rights Registry, the patterns are consistent: long durations in court, serious financial loss, and a disproportionate number of parents going unrepresented because they ran out of money fighting.

## WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so New Jersey families — and families in every state — would stop being invisible to the data. This report is their record.

02 THE COST OF NEW JERSEY FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

| EXPENSE CATEGORY                                           | RESPONSES | MEDIAN    | MEAN     | TOTAL REPORTED |

| GAL Fees                                                   | 15        | \$0       | \$7,900  | \$118,500      |
| Asset Loss <sup>1</sup>                                    | 23        | \$100,000 | —        | —              |
| Median Family Burden (19 families reporting 3+ categories) | —         | \$325,500 | —        | —              |

**Median vs. mean:** Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least \$1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

**1. On asset loss:** One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median (\$100,000) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

Institutional Betrayed my children and myself with fake justice and no interest in being impartial. I am deaf Latina who doesn't speak English our abuser is deaf American born but nevertheless court has allowed his paralegal wife interfere and participate for him fully even though there are proof in writing that texts in app court are not his, nor long email with legal jargon to parent coordinators. In court his appearance are brief and fall short of his long demanding perjury claims on me. But nobody cares. I have requested to go onto mediation in court as both of us are in front of interpreter and mediator and his tantrums don't work and we are able to move on because his paralegal wife is not there to coach him but firstly attorneys don't want to suggest it and judge said they rather us to work it out outside court. But this leave us to the escalation of issues from our abuser for everything and for minimal it could be because he thrive in coercive control and litigation. He has told our children he will never stop fighting me until they are out of family court system and discouraged them to pursue college or university studies as he JW and wants them to go to mission and get married.

Rebuilt my entire life and he lied lied lied again to forced our children back into his care with an active temporary restraining order!!!!!!

## 06 HOW TO READ THIS REPORT

### WHAT THIS IS

The Family Rights Registry is a national, parent-reported data collection run by Stand With Meg. Every figure in this New Jersey report comes from New Jersey respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in New Jersey — not to replace formal research, and not to name individual judges or counties as responsible parties.

### WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 44 New Jersey families reporting here are not the universe of New Jersey families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. We flag outliers and report medians when means are distorted (see page 3, note 1). The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

### METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – May 2026 through [standwithmeg.com/family-rights-survey](https://standwithmeg.com/family-rights-survey). Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

When a respondent's financial entry differs from the population by more than three standard deviations, the mean is suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte-Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
