THE HEADLINE NUMBERS

# WEST VIRGINIA AT A GLANCE.

Across 37 West Virginia families reporting through the Family Rights Registry, the patterns are consistent: long durations in court, serious financial loss, and a disproportionate number of parents going unrepresented because they ran out of money fighting.

## WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so West Virginia families — and families in every state — would stop being invisible to the data. This report is their record.

02

THE COST OF WEST VIRGINIA FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

| EXPENSE CATEGORY               | RESPONSES | MEDIAN   | MEAN     | TOTAL REPORTED |
|--------------------------------|-----------|----------|----------|----------------|
| Attorney Fees                  | 22        | \$6,250  | \$20,592 | \$453,016      |
| Lost Wages                     | 14        | \$1,750  | \$11,259 | \$157,630      |

| Estimated Median Family Impact | —         | \$11,753 | —        | —              |

**Median vs. mean:** Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers.

Family court proved that abuse can be rewarded and those who never abuse their kids can be punished. As soon as my children were ordered into the full custody of their father, opposing counsel sent an email offering to return the children if I obtained a “do not prosecute” to spare the father from the fallout of his crimes. Unable to get that, the smear campaign continued and I am still without my children. The theory of parental alienation is being misused and weaponized in true, substantiated abuse cases. I lost complete faith in our legal system.

I've went from a hero to a zero on the sidelines cheering, my son, being a part of every minute to being ripped away like a villain, no arrest, The physical and Dangerman just false allegations, small town good old boy, clubs, and manipulation by a system. ## 07 HOW TO READ THIS REPORT

### WHAT THIS IS

The Family Rights Registry is a national, parent-reported data collection run by Stand With Meg. Every figure in this West Virginia report comes from West Virginia respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in West Virginia — not to replace formal research, and not to name individual judges or counties as responsible parties.

### WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 37 West Virginia families reporting here are not the universe of West Virginia families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. We flag outliers and report medians when means are distorted (see page 3, note 1). Quotes are minimally edited.

### METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – May 2026 through [standwithmeg.com/family-rights-survey](https://standwithmeg.com/family-rights-survey). Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

When a respondent's financial entry differs from the population by more than three standard deviations, the mean is suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 5 independent families name the same actor.
