01 NAMED COURT ACTORS · OREGON

A name appears below only after 3 or more independent families have named the same actor in Oregon. Submitter names, emails, and contact details are never published. Comments below are direct family reports — one per family — with all identifying information removed.

Landon Poppleton

PSYCHOLOGICAL EVALUATOR · OREGON · **6 SUBMISSIONS**

> *"Supervising psychologist at NW Family Psychology and Jessica McBride's supervisor. Admitted to Mother over the phone that psychological evaluation reports are used as a mechanism to get evidence into court that could not otherwise be admitted through normal evidentiary procedures. Stated in writing that "the court is the client," not the person being evaluated, confirming the evaluation was conducted to serve the court's interests rather than as an independent clinical assessment. Looped Rachel Finn into email communications and referred to her as "counsel for a party," despite Finn being the child's attorney, not counsel for either parent. Refused to communicate directly with Mother about concerns with the evaluation, requiring all communication go through counsel, effectively cutting off the evaluated party's ability to challenge the methodology. Initially offered Mother a phone call but then reversed course and refused to take one without counsel present."*

> *"He is a hired hand. Dr Poppleton was hired to be an expert on my case, unfortunately my attorney guided me to meet with him prior to the hearing. That made him not able to be my expert. And his findings were that it was in fact an abusive relationship and he tried to convey that to the other court actors including the child's attorney Sandy Faber. And it was all used against me during our hearing."*

> *"reviewed case and determined there was a high likelihood of psychological abuse, took payment but never testified, never reported abuse as mandatory reporter, talked to opposing counsel"*

> *"Didn't talk to my collateral and only listened to narcissistic ex."*

> *"Basically paid off by mother to grant full custody"*

Family-reported pattern context only. Each person must file only their own truthful, first-hand complaint using their own facts, dates, evidence, orders, transcripts, and documents.

Public threshold rule: Names are grouped conservatively by normalized spelling, role, and location. Common titles, punctuation, casing, and middle initials collapse together. Close misspellings are not auto-merged without admin review. Only family-direct submissions count toward the public threshold.

THE HEADLINE NUMBERS

OREGON AT A GLANCE.

Across 83 Oregon families reporting through the Family Rights Registry, the patterns are consistent: long durations in court, serious financial loss, and a disproportionate number of parents going unrepresented because they ran out of money fighting.

WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so Oregon families — and families across every represented location — would stop being invisible to the data. This report is their record.

03 THE COST OF OREGON FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

EXPENSE CATEGORY	RESPONSES	MEDIAN	MEAN	TOTAL REPORTED
Attorney Fees	50	$21,000	$92,326	$4,616,300
Lost Wages	42	$15,000	$98,214	$4,125,000
Other Court Fees	37	$1,000	$9,428	$348,824
Therapy / Evaluations	32	$130	$5,008	$160,260
Reunification Services	30	$0	$955	$28,660
GAL Fees	28	$0	$6,343	$177,600
Asset Loss [1]	35	$25,000	—	—
Median Family Burden (28 families reporting 3+ categories)	—	$182,500	—	—

Median vs. mean: Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least $1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

1. On asset loss: One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median ($25,000) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

All the children were brought into court and my ex had her testify at age 16 that I deserved to be choked and hit - it was torture. I asked for the children to not be involved in the divorce proceedings to protect them. I was overruled. It caused emotional damage to my children and they still believe it was my fault that they were forced to go to court. > The system has taken away time that could have been spent with my daughter, at age 16. She isn't being able to use her voice and have her own autonomy. This has been going on since she was 8 and allowed to continue. Stripping her of any chance to live a normal childhood. She is being taught to not trust the courts and anyone involved with them. It's heartbreaking.

07 HOW TO READ THIS REPORT

WHAT THIS IS

The Family Rights Registry is a public, parent-reported data collection run by Stand With Meg. Every figure in this Oregon report comes from Oregon respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in Oregon — not to replace formal research, and not to name individual judges or counties as responsible parties.

WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 83 Oregon families reporting here are not the universe of Oregon families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. Response counts and percentages use the number of families who answered that specific topic or financial field. The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – October 2026 through standwithmeg.com/family-rights-survey. Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

Dollar fields exclude blank, negative, and obvious data-entry artifact values above the report's field caps. When asset-loss values contain a strong statistical outlier, the asset-loss mean and total are suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county or regional field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
