"attorneys behind closed door and then he has signed order stating that he heard the full case and heard all evidence when the transcripts do not match that He has prolonged hearings that last three for six years while children are having to visit abusive parents He also refuses to hear that a father was absent for 4 1/2 years and it's not the biological father in order ex parte orders that one of four children has to go with a parent that he does not know that is not biological without a hearing And he also separates siblings. There is numerous cases where he has deliberately separated, siblings permanently, and also in my case, he separates siblings every holiday. He does not enforce that of father supports all children. He lets the father's chief which children the father likes and wants to see, and he also supports fathers neglecting and abusing three or four children."

"He signed exparte orders and denied me the route. I have my protection orders heard he also failed to look at evidence or hear witnesses or to protect children which by law he is supposed to and he is allowing my children not to be abused installed continuously by my ex, he is not upholding the law and he's violating constitutional rights. He is also a Mason with my ex-husband and he is not making decisions by the laws and is not upholding the law. The judge made threats to me, and he never allowed me to present my cases. None of my cases have been heard. My modification has not been heard my protection orders have not been heard and abuse has been reported to him and neglect to my son and he refuses to hear it. he does not want to hear it at all."

"Denied my request for continuance due to not having representation or preparation to represent myself, made a final ruling stripping my rights based off of false accusations and beliefs with absolutely no evidence and dismissed my initial hearing for temporary custody even after supporting evidence was presented to the court. The judge made a final ruling without supporting evidence and dismissed the initial case even with supporting evidence provided." DEKALB COUNTY

> *"Changed hearing date several times. The children wanted to testify on their own behalf. Grandfather did not want this to happen. Changed hearing to a date mother would not have them. He then allowed the GAL to say that the children spoke with him and he could confidently say they were safe and happy with Grandfather. Refused to look at messages I had from the children disproving this statement. The judge knew my case was heavily dependent on audio and video since he would not allow the children to testify in person. Moved our hearing to a room that had no audio visual capabilities. Allowed my father to submit the childrens report cards as evidence of their "well-being" and dismissed the entire case."* AUTUAGA

My daughter has special needs and depends on consistent services and routine. The ongoing litigation contributed to disruption, instability, and hardship during a critical period of her development. WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so Alabama families — and families across every represented location — would stop being invisible to the data. This report is their record.

03 THE COST OF ALABAMA FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

EXPENSE CATEGORY	RESPONSES	MEDIAN	MEAN	TOTAL REPORTED
Attorney Fees	100	$13,650	$38,856	$3,885,617
Lost Wages	72	$15,000	$130,341	$9,384,571
Other Court Fees	37	$550	$7,799	$288,578
Therapy / Evaluations	55	$2,000	$4,163	$228,976
Reunification Services	30	$300	$1,337	$40,106
GAL Fees	59	$1,200	$4,491	$264,950
Asset Loss [1]	54	$20,000	—	—
Median Family Burden (70 families reporting 3+ categories)	—	$51,750	—	—

Median vs. mean: Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least $1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

1. On asset loss: One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median ($20,000) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

> My family had been traumatized and my children's innocence shattered. My children loved me and were traumatized by being alienated from me. It shows in every photo or video that we have to say goodbye. They both look sad, confused, angry,and they look like they don't know why I want to give them away. During visitation they are laughing, loving, affectionate, binding. Time for goodbye they will hardly look at me. Look sad and confused. Omari was a happy healthy loving attentive lil boy who used to make eye contact and was very verbal. After he went into the system he became mute to the point they thought he was autistic. They said later he was not autistic. And the duster mom sent me a letter and some pictures recently yo tell me both boys are in therapy. And they are both autistic abc Niko my youngest is still banging his head..something he ogvher up between leaving my mom's and going to foster moms. Both sins cal me mana and know who I am and love me. Niko had been banhnn. His head since he was 10 months old ld. He had to weed a bike hellment to visitation every visit. He has never been in my care so sometung he was subject to in the system caused him to act out. He showed siigbs of abuse at visitatin which I documented. No one even looked into it. Can't you talk to me, took photos for wrrote it in a report. In fact the case worker lied and said the oldest son put bruises in Niko in the tub but no 2 years old is strong enough to put bruises like that on a baby's lower back. In the tub no less. My children have suffered unnecessary trauma and abuse to the point of near death from covid because of department negligence, an unethical attorney working fur dhr, a fraudulent

> psyche doctor contracted by the state. Several case workers resding off fraudulent reports without taking the time to observe and investigate for them selves. A director that wrote fraudulent reports in order to cover het tracks for negligence, perjury, and writing false claims in a report. I hold the entire self accountable for not exhausting all efforts for reunification and violating my constituinal rights to due process and a fair hearing . Withholding resources that would help me, adding classes that won't help me and excluding me at an ISP meeting so I wouldn't be able to speak against them decreasing my visitation. Not being able to make up missed visits and allowing the duster mom to schedule therapy classes and dentist appointments on the one day I get to visit with them several weeks close to the end of my case I was never given the chance to tell my kids goodbye. I know they wonder where I am and they are being gurged to forget about me when I had a very strong bond with both my kids in spite of only seeing them. Approximately 208 days since they were taken into the system omari at 7 months and niko at birth

Estranged me (the mother) from my kids who were legally kidnapped to the other side of the country in Canada in 2020. Severe CPTSD. My kids all developed depression, insomnia, anxiety and behavioural issues. I have been battling a serious illness (breast cancer) since 2018 with a second occurrence that happened this past October. Severe poverty, loss, destitution, loss of civil liberties (the government suspended my drivers licence because I couldn't pay outrageous child support- my parents had to drive me to chemotherapy and life-saving medical appointments). My income is long term disability and I get $2150/month. My court order for child support is over $600/month. He won't let it go. I'm in arrears of over $40,000. It's still being tallied up by the month. Any income and credits from GST or other government rebates get garnished and automatically go to him. Severe financial and economic post-separation abuse. Evidence of physical and all other abuse during marriage which I presented to the courts was blatantly ignored & swept under the rug. He remarried and the income between him and his spouse is at least $350,000/year. They tried to bury me alive and still are. Fraud, maliciousness. Contempt of court. Not providing his tax returns for the last 5 years. In the same week I found out I had survived my first occurrence with breast cancer, the ex threatened me with a mobility application to move my kids cross-country. They gave him everything, I lost everything because I was too weak to represent myself and couldn't afford a lawyer. Legal Aid in my province is filled with incompetence and negligence - nobody would help me. In fact, the lawyers from legal aid took

advantage of my vulnerabilities and purposely dragged me, one for an entire year, she did absolutely nothing but gave me false hope. It's really unbelievable and sadistic. I have literally paid with my life and my kids lives because I made the choice to get married. Alberta Canada is festering with some of the most corrupt judges in the Western world. What happened to me and is still happening is absolutely criminal.

The corrupt family court system has permanently damaged my daughters childhoods, created painful memories that will never be forgotten, caused deep agony for my children and myself, and helped abusive people utilize the legal system to “punish” and “retaliate” by keeping me from my children when they have never gone more than the 5-6 days with their fathers without their mother. I’ve been a constant for them and I’ve been told how much my children have cried for me-the court system allowed this and created this nightmare because they would rather take the easy way out for themselves and their “colleagues” in a situation with layers of conflicting interests, than to become educated on abuse and manipulation tactics so they can appropriately face these situations.

— KAREY

This nightmare destroyed my adult life, robbed me of my relationship with my children, joy and the ability to be a productive citizen. All of us have been psychologically tortured and abused. My former honor-student, band leadership, perfect record son is battling mental health and legal problems and my daughter is emotionally avoidant and has extreme trust issues. Financially, the loss is probably close to 2 million, if you estimate lost wages.

— AMY

Autauga County family court has failed my children and me over and over again. More than 30 years of mental and physchological abuse has been legally perpetuated at the hands of the court system.

— ELIZABETH

Threatening me with jail time unless I gave into the ex at court. All because I would not give my children to him during my parenting time. Simply because the parenting coordinator and GAL said I should. The judge wants to set an example. You cannot bring your phone on that floor of the court house. 10 years of abuse, 4 years of battling in the courts to keep my children and this is where we are. My sons will end up with a vindictive manipulator and the people who enable him.

— RACHEL

Some days I sit back and realize... the worst thing that has ever happened in my life barely exists in anyone else's. My child was taken away. My world stopped. My heart broke in a way that will never fully heal. But the world didn't stop. People kept laughing. Kept posting. Kept living like nothing happened. And I don't blame them... but it still hurts. Because for me, it's not a "moment." It's not something I can move past. It's not a memory I can just visit when I feel like it. It's my everyday life. It's waking up missing them. Going to sleep missing them. Hearing their name in my head but not out loud. Living in a world that keeps moving... without them. And sometimes it feels like I'm the only one still standing in the middle of the loss, while everybody else already walked away from it. Like my pain is too big for people to sit with, so they just... don't. But I carry it. Every single day. I carry the love. I carry the memories. I carry the "what ifs." I carry the silence. So if I seem distant, or different, or heavy sometimes... just know— I'm living a life I never asked for, without someone I can never replace. And even if the world moved on... I never will.

07 HOW TO READ THIS REPORT

WHAT THIS IS

The Family Rights Registry is a public, parent-reported data collection run by Stand With Meg. Every figure in this Alabama report comes from Alabama respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in Alabama — not to replace formal research, and not to name individual judges or counties as responsible parties.

WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 156 Alabama families reporting here are not the universe of Alabama families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. Response counts and percentages use the number of families who answered that specific topic or financial field. The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – October 2026 through standwithmeg.com/family-rights-survey. Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

Dollar fields exclude blank, negative, and obvious data-entry artifact values above the report's field caps. When asset-loss values contain a strong statistical outlier, the asset-loss mean and total are suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county or regional field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
