THE HEADLINE NUMBERS

# UTAH AT A GLANCE.

Across 33 Utah families reporting through the Family Rights Registry, the patterns are consistent: long durations in court, serious financial loss, and a disproportionate number of parents going unrepresented because they ran out of money fighting.

## WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so Utah families — and families in every state — would stop being invisible to the data. This report is their record.

02 THE COST OF UTAH FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

| Median Family Burden (20 families reporting 3+ categories) | —         | \$161,600 | —         | —              |

**Median vs. mean:** Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least \$1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

CPS took my kids for 10 months because they spoke up about abuse the other parent was doing. They said I coached my kids even though I had hospital records and PO from another judge still fighting for sole custody especially because my ex wanted our children to stay in foster care.

— HALEY

They have stripped all forms of safety from my child and myself. I went through domestic violence, it's not physical anymore, but all other forms. I trust no one. You must be an abuser of elderly, women, and children to be protected by the court. I would be heard and listened too in a criminal case more. The family system is not family focused and they support generational trauma. The moms can't work, but have to sole provide with no child support. The judges exact words to me, "you are definitely not safe around him (my ex) but your child is". What??? My child is in survival mode with his so called father. He has stomach issues and anxiety and teachers make comments of his confidence. And the court thinks that is not abuse? I hate the family court, they clearly are ignorant. Trained to spot abusers, not victims, they have zero clue of DARVO. It's shockingly embarrassing and very scary.

— MELONIE

Complete psychological terrorism. My adult daughters testified in court against my ex (who also abused them), the judge gas lit them, discredited their testimonies. After his corrupt ruling, they both said to me "I'm never having kids". Destroyed their future and hopes for healthy families, etc. Allowed my two little ones to be abused repeatedly and their father given full protection and immunity from investigation and accountability.

The family court system has kept me and my children in a prolonged, high-conflict process where repeated litigation, delays, and enforcement gaps have allowed instability to continue instead of creating lasting protection and consistency in which it's supposed to be intended for. So far it has given an abuser temporary custody, now he's trying to take it again for false reasons, with the gal on his side. It has forced me to parent under constant scrutiny and emotional strain while my children remain exposed to financial strain uncertainty, conflict their father won't stop, and avoidable disruption to their wellbeing due to him being allowed to bring me to court every year.

**06 HOW TO READ THIS REPORT****WHAT THIS IS**

The Family Rights Registry is a national, parent-reported data collection run by Stand With Meg. Every figure in this Utah report comes from Utah respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in Utah — not to replace formal research, and not to name individual judges or counties as responsible parties.

**WHAT IT ISN'T**

This is not a representative sample. Respondents self-select. The 33 Utah families reporting here are not the universe of Utah families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. We flag outliers and report medians when means are distorted (see page 3, note 1). The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

**METHODOLOGY · FAMILY RIGHTS REGISTRY**

Data in this report was collected April 2024 – May 2026 through [standwithmeg.com/family-rights-survey](https://standwithmeg.com/family-rights-survey). Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

When a respondent's financial entry differs from the population by more than three standard deviations, the mean is suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
