Shy-Kendra Lawson

CPS WORKER · LENOIR · **6 SUBMISSIONS**

> *"Shy-Kendra Lawson delayed reunification and failed to properly support kinship placement despite an approved relative option and my continued requests for my children to be safely placed with family. Cleaner, stronger version for the form, because apparently forms want trauma squeezed into one tiny bureaucratic sentence: Shy-Kendra Lawson delayed reunification, failed to support approved kinship placement, and contributed to my children remaining in foster care instead of being placed with safe family."*

> *"Made or relied on false and misleading claims, ignored evidence in my favor, and supported keeping my child in foster care."*

> *"Delayed reunification by interfering with visitation and failing to support reasonable family placement options."* LENOIR COUNTY SOCIAL SERVICES

Cindy failed to fully investigate my child's best interests, ignored key evidence, and supported continued separation from me."*

Cindy Cronkhite failed to include important facts in GAL reports, did not support safe family placement, and contributed to continued separation from my children."*

GAL / CHILD REPRESENTATIVE · BEAUFORT COUNTY · **5 SUBMISSIONS**

> *"She was my GAL. I reported abuse to her which she did nothing about. I reported my money was being held by DSS from my job and she did nothing. I reported Abby Williams making me write a statement she was giving and spelling words for me and she did nothing. I told her the truth about my parents and why I kept trying to go home to them but it was never reported. She wouldn't allow me to see my siblings. She came to locked facilities I was in and told me I had to stay because there was no where else for me but there was. I had more family in WV willing to take me. I was also 17. She allowed dss to keep me out of school which delayed my graduation and threw me behind. She lied on her court report stating she saw and spoke with me each week and I barely saw her or spoke to her. She told a judge it wasn't in my best interest to speak with him and tried to quash my subpoena to testify from my mother's attorney when I specifically kept asking to speak with a judge. She at one point told me I was nothing but trouble to her."*

> *"Falsified her reports to the judge. Did not visit or talk with the children as reported. Allowed children's visits with abuser to continue even after she struck children on several occasions and children were refusing visits she made them attend stating it is an order and you and your dad will be in trouble with the judge if you do not go. She allowed contact with siblings to be severely restricted. She allowed one child's paydays to go to the social worker with him never seeing those wages again. She did not show up to juvenile court when child had ran away from abusive placement and dss was trying to have him charged for disorderly conduct. She did not help in getting his picture released to search for him. She did no advocacy for the children. She and lead social workers are friends and do a podcast online about wine outside of work. She was not neutral. She also did not respect DVPO in place with the parents."* BEAUFORT COUNTY

Does not advocate independently but clearly makes recommendations in conjunction with DSS. Even if it is not in the best interest of the child."*

> *"Lied to my children repeatedly. Participated in letting my daughter think I didn't want her home. Said she only "has" to speak to my children once every 90 days. Has hung up on my grandmother before and me as well. Her GAL reports are filled with lies and inconsistencies."* BEAUFORT

Jason Kimble

JUDGE · HARNETT COUNTY · **5 SUBMISSIONS**

> *"He dragged the case out over months and months because he kept claiming he didn't have time to listen to the testimonies. It cost our family tens of thousands of dollars. He claimed he lost his notes and extended the case yet another day for the father to say his piece all over again. Pushed and pushed his decision as far as he possible could. The father had zero case against the mother. All his accusations were proved false. The entire thing was weird and suspicious and showed favoritism towards the father. Justice was not served. Seemed the entire time the judge did not give a care at all about the case."* HARNETT

> *"Very inappropriate comments during the trial. He joked about himself not knowing when to stop drinking alcohol - knowing that he was arrested for a DUI from picking up his kids from school. He also was talking inappropriately with the attorney - he allowed heresay numerous times for her client. Didn't ask for proof. Discarded all evidence of her client being abusive and neglected to make a ruling several times until it was far enough out to claim comfort."*

She refused to report the abuse in the last facility I was in. She took my paydays from my job and I never received the funds back. She cancelled my dental surgery 3 times so almost a year later when my mom could get it done I had curved roots around my jaw and had to be cut more with a longer recovery time. She lied to me saying my family didn't want to see me. She wouldn't allow me to go to my church in the community. She wouldn't allow me to see my siblings. She frequently would take my personal belongings, many of which I've never gotten back, esp my cellphone. She would t allow me to go to my family in WV even tho I was wanted there. She lied on the stand about my behaviors. She lied on the stand saying I never told her I wanted to go home and stated I was afraid of my father. I watched her get really close to my mother when she told Latesha you will not speak to my son that way and Latesha told her what are you going to do about it? He's in our custody and he will do what we say. She would allow me to have no contact even with mys school or peers when I was telling of the abuse in the places she put me. Followed and stalked our family. Got physically aggressive with me personally saying and what are you gonna do about it? Refused to follow the court order and restricted parents access to medical and educational records, events, Dr appts, and had medication changed without parents knowledge or consent. Refused to follow a DVPO in place making parents be in a room with their abuser and not respecting the fear and concerns they had with the abuser. I later found this to not be true as many family members, my girlfriend, and even my friends had asked to see me and some to take me in. I also told her what Abby Williams had wrote and said in court was not true and she just kept saying I know her and she would not lie. It's like it didn't matter what I said. Lori Leggett is also who made me go to the first locked facility saying it was there or she would go for a petition to have me placed in juvie. I find you unbelievable," threatened to imprison me if I did not reveal the name of my attorney who advised me to flee this jurisdiction to keep my boys safe, then decided I was lying when I refused to give him the name; violates many of the Rules of Judicial Procedure but threatened to sanction me when I pointed this out; pretended not to understand what a conflict of interest was, and decided that the wisest action to take to determine the existence of a conflict was for *the conflicted person* to make this determination; withheld that he had a conflict of interest due to his former employment with NC's DSS, even after I mentioned numerous times that DSS behaved unethically and perhaps illegally, and that I've been told that DSS is trying to harm me; has a fantastical ego that is a major danger to anyone entering family court in Buncombe County, particularly if you are a woman and your children have suffered abuse caused by a man."*

I think advocating for me and parents like me is what cost him his judges seat in the last election. That being said he still signed orders that were unconstitutional and allowed in lies without the parents ever getting to speak or present evidence. He allowed us to be silenced and blocked. He allowed delays. He allowed full hearings against my teenage son without my son ever being notified or present knowing my son ran claiming abuse. He allowed back door meetings in his chambers without us as parents being represented or our children. He did give unlimited visitation with our parents present and all rights to appointments to be present and have records and our children to be able to contact one another freely. He had a responsibility though to say it was illegal and abolish it but he chose not to. He did so trying to hold that seat n still lost it because he was playing both sides."*

Since she became supervisor she hasmade my caseworker Shy-Kendra Lawson stop communicating with me completely and Kaaneetha has stopped all supervised visits with my children without a court order. She is disrespectful and has pushed for adoption and away from reunification since she started a few months ago. The last supervisor got up in the middle of work left everything at his desk, quit, and walked out. I believe that he couldn't go along with the orders he was being pushed to do to me. He had denied my visit on my baby's bday at first and then he called me the morning of my visit to tell me he was going to allow my visit after sleeping on it all night. He had started having compassion near the end and relating with me more and then he got up and just walked out and quit. Suspended my court-ordered visits with my children and told me visits would not resume unless I completed a hair follicle test, despite my prior negative drug screens and no new court order being shown to me. She signed an order to have two of my children removed from my moms care and placed in foster homes when my daughter fell off the trampoline and broke her wrist. She claimed it was improper supervision. The next morning cps and police came to my home with a non secured custody order for my 6month old baby girl. The petition was 4 paragraphs long. In court my lawyer was able to completely disprove everything on the petition with pictures, paperwork, questioning the case workers on stand. The judge still ruled against me getting my baby back and she was placed into the same foster as my other two kids. Ignored evidence,. Made judgements based on her opinion and personal vendettas rather than from law and general statutes She did not go by the laws and was unfair and she made her judgments and her decision based on her own opinions instead of evidence in the case and instead of going by statutes and laws. She ordered me to 30 days in jail because I left a detox center early by 1 day,. I was 8 months pregnant and ended up having my daughter while still incarcerated."*

WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so North Carolina families — and families across every represented location — would stop being invisible to the data. This report is their record.

03 THE COST OF NORTH CAROLINA FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

EXPENSE CATEGORY	RESPONSES	MEDIAN	MEAN	TOTAL REPORTED
Attorney Fees	136	$13,500	$72,628	$9,877,414
Lost Wages	98	$11,000	$84,666	$8,297,301
Other Court Fees	56	$2,250	$16,452	$921,325
Therapy / Evaluations	81	$2,500	$6,878	$557,130
Reunification Services	45	$500	$2,436	$109,640
GAL Fees	35	$0	$3,883	$135,920
Asset Loss [1]	82	$69,500	—	—
Median Family Burden (77 families reporting 3+ categories)	—	**$140,000**	—	—

Median vs. mean: Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least $1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

1. On asset loss: One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median ($69,500) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

I'm currently fighting to keep my home, and I am not able to find a job that I'm qualified for due to false charges that the attorneys and judge's refuse to dismiss due to lack of evidence. Due to the false charge it is more difficult to support my children while they're in custody, but I believe that this was the plan.

The system has systematically torn apart our loving family under the guise of 'best interests of the children,' while the court and DSS—driven by profit, not justice—have violated our constitutional rights, ignored documented corruption and perjury, and now illegally demand that I abandon my own home for six months to a year as a condition for reunification, forcing us to choose between our rights and our children! UNITED WE STAND AND UNITED WE FIGHT!

The Buncombe Co family law system and schools failed to protect me from an abuser that kidnapped my daughter from me. I suffer greatly emotionally on a daily basis dealing with the pain of losing my daughter and the false accusations. I suffer from bouts of intense depression, anxiety, and PTSD. The supposed 'helpers' were all happy to take my money in the thousands, until I went bankrupt while lying to me saying they could help. In reality the system drew a further wedge between my daughter and I, resulting in no contact. I am left feeling like a victim of abuse with no assistance and zero support. I have been severely traumatized, humiliated, embarrassed, and financially ruined. I will probably never see my daughter again. It is the worst pain you could ever feel or imagine. The family court system in Buncombe Co is atrociously slow and fails to protect families and children. The Buncombe Co school system allowed my ex and daughter to violate a court order.Therapists and mediators also failed to address anything pertainent that actually could've helped my case. Everyone completely abanded me and neglected to listen to me and my concerns. Now my two daughters are seperated and will never know each other or have a bond. Ultimately it is the children who suffer the most, because adults fail at their jobs and fail at being decent human beings.

This system has destroyed the soul of a child, her father's grief cannot be put into words, our children have missed out on months, if not years of having their own parents mentally healthy due to the stress and trauma, they have endured trauma of their own due to living with a sibling with undiagnosed reactive attachment from all she has experienced, we have all lost opportunities that would have been life changing, & we went without so much, from a dependable car, let alone a second car, or a nicer place to live due to the amount of money we have to delegate to this. Presently we are in a financial hole due to the mental health needs resulting in residential stays that only we are paying for, plus now having to hire an attorney again.

They have violated my right to due process (not letting the court-ordered expert testify; when their report didn't align with their narrative). They violated my right to raise my children and be a part of their lives, which is protected under the 14th Amendment of the Constitution. They violated the 7th Amendment and executed involuntary servitude when they made me pay child support with no criminal record, no reason for termination of my time with children, and no benefit in paying. They subjected us all to more DV I talked to my daughter 12 times in 1 year and those were very brief calls, maybe 15 min at most. My son was neglected to the point of ICU admission, continual court hearings to prove things that were already proved because they don't want to ruin dad's military career.

I still have PTSD whenever I have to go to court about something, even to renew my drivers license. It was SEVEN years of reliving everything that happened in the three years we were together.

This dark, greedy, ego-driven system has crushed my children's innocence, obviated their ability to trust any adult, removed them from safety, and delivered them into the home of their predator. Instead of protecting my children from a manipulative, coercive, abusive parent, this system has invested its resources into gaslighting my young children and severing them from the only adult who has been brave enough to advocate for them in the face of years of threats and harm.

It destroyed me emotionally and psychologically. It destroyed the innocence of three little girls. It took them away from their families, their friends, their schools and their two brothers. Their grandfather had a stroke while all this was going on and his last wish was to get those girls home. He died, knowing that his granddaughters were in Foster Care being molested by a 40+ year-old man. It has destroyed my daughter emotionally and made her drug use hundred times worse. It has affected every single person in our family.

The prolonged proceedings in Duplin County have caused significant emotional and financial hardship for me over the years. The ongoing conflict and repeated court involvement have contributed to anxiety, stress, and instability for both myself and the minor child.

This custody battle has taught me that protecting children is not about winning against the other parent; it is about preserving stability, truth, and peace when conflict tries to rewrite the story. I will keep choosing documentation over drama, boundaries over bitterness, and my children's well-being over public revenge.

The court has caused undue emotional stress on my young child, and myself. Leading to my child self harming and acting out at school due to not wanting to be with her father despite the courts failure to acknowledge evidence

The coordinated actions of these state and private actors mirror the elements of a federal criminal conspiracy (18 U.S.C. § 241) to deprive me & my daughter of our constitutional rights and exploited my family for pecuniary gain. I have meticulous documentation of these crimes, including the unlawful "self-help" eviction from my home and the theft of my personal property, perjury, obstruction of justice and stonewalling communication with me while working to ignore problems with other parent.

This system weaponized a son's choice against his family, imposing five years of baseless supervised visitation that fractured my relationship with my daughters despite there being no threat of danger.

My son who is taking college courses in highschool is a good kid but has to endure his father's rage episodes where he has been strangled, pushed and father held my son down on the ground with his foot, banged his head on the desk, and threatened since 11 he would go to a foster home if he told police the abuse he was getting.

This system has not protected my child and has torn apart my entire family. They have never listened to my child and they have been openly biased, played favorites, and lied under oath. It's a very sad world when whoever has the most money is the only person listened to. My child is the suffering major life long consequences and lives in fear daily.

This system has nearly broken me as an individual. I have never understood how people coujd give up on life and commit suicide until going through this experience as well as have I never had the true feeling of hatred towards anyone in my entire life and it's been very difficult to not feel that.way towards these actors and perpetrators

I trusted DSS with my first son. This time I gave temporary guardianship to my Aunt and allowed her to take my son to Fl I am in NC DSS has harassed me all day demanding I tell her to bring him back so they can make sure he's safe. They claim they as of 9:30 pm have been granted custody. One of the case workers is Jessica she literally text me at 3 am and said they are going to have my Aunt arrested for kidnapping. There was no court order (and I have yet to see one) when she left I just know they can't be trusted.

> The system encouraged me to consent to a PC however gave me no choice in who I could use and has forced me to stay involved with AND pay a party who is clearly bias in regards to any interpretations of the order. I attempted to wait until the appointment was over rather than file motions to challenge PC decisions for the sake of peace and rather at a reappointment hearing, the PC was praised for keeping my family out of court. When I challenged that narrative the script was turned on me for not filing motions to challenge PC decisions. There is a documented pattern of preference. The PC substantially increased conflict in my family rather than lessen or resolve it.

07 HOW TO READ THIS REPORT

WHAT THIS IS

The Family Rights Registry is a public, parent-reported data collection run by Stand With Meg. Every figure in this North Carolina report comes from North Carolina respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in North Carolina — not to replace formal research, and not to name individual judges or counties as responsible parties.

WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 238 North Carolina families reporting here are not the universe of North Carolina families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. Response counts and percentages use the number of families who answered that specific topic or financial field. The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – October 2026 through standwithmeg.com/family-rights-survey. Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

Dollar fields exclude blank, negative, and obvious data-entry artifact values above the report's field caps. When asset-loss values contain a strong statistical outlier, the asset-loss mean and total are suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county or regional field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
