Jesse I. Santana

JUDGE · SUTTER COUNTY · **6 SUBMISSIONS**

> *"Has used clear breach of proper ethics to serve default judgments, does not communicate to pro per or pro se and frequently abuses "sharp tactics" and dishonest practices during custody and divorce hearings. Due process does not exist here. Evidence didnt exist for DVROs and no authentic evidence was used. Heavily linked to other criminal organizations. Wife charged for forging documents on a felony level at which docs were used to gain DVRO and custody of children. Santana allows women to bankrupt men and takes children from the healthy parent. Constantly siding with the women and disregards men's testimony and facts of evidence. Allows false evidence of texts and false allegations in and using as evidence against other party."* SUTTER

My DRVO was accepted in Sutter County and granted after a trial — only to be rebutted in Placer County by Judge Raymond De Jesus. The lawyer lied and I couldn't get a word in edgewise. THE HEADLINE NUMBERS

CALIFORNIA AT A GLANCE.

Across 511 California families reporting through the Family Rights Registry, the patterns are consistent: long durations in court, serious financial loss, and a disproportionate number of parents going unrepresented because they ran out of money fighting.

WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so California families — and families across every represented location — would stop being invisible to the data. This report is their record.

03 THE COST OF CALIFORNIA FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

EXPENSE CATEGORY	RESPONSES	MEDIAN	MEAN	TOTAL REPORTED
Attorney Fees	310	$35,000	$104,527	$32,403,229
Lost Wages	242	$30,000	$153,982	$37,263,737
Other Court Fees	168	$1,200	$11,260	$1,891,602
Therapy / Evaluations	210	$5,000	$12,395	$2,602,866
Reunification Services	167	$1,500	$10,544	$1,760,816
GAL Fees	126	$1,450	$15,434	$1,944,726
Asset Loss [1]	200	$80,000	—	—
Median Family Burden (227 families reporting 3+ categories)	—	$253,000	—	—

Median vs. mean: Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least $1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

1. On asset loss: One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median ($80,000) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

Harassed me and my children from decades. Violated constitutional rights. Falsely accused me. Enabled my ex husband to counter parented, abuse my children and I and violate child custody for years. While law enforcement enabled it to continue. Then in 2011 my daughter and I go to counseling and the counselors turn our situation into a dysfunctional mess. They medically kidnapped my daughter in 2011. Then youth counselors took my daughter and turned her against me. Then they influenced my daughter to go to family court against me in front of corrupt judges to obtain a RO against me on false pretenses. So I 've been going back to court over and over trying to get the RO cancelled but the judge ignores the law and behaves hostile and continued to grant the RO over and over on false pretenses. Then in 2025 the judge granted the RO permanently on false pretenses.

Such trauma, time away from child, had to learn to not trust " trusted authority" figures but they taught me how to play their game and now they have created a force to reckon with and hold them lawfully and professionally accountable individually and the network they operate in, civilly, criminally etc. for all injuries and be made available all remedies and relief needed to be made whole and be restored and losses and costs incurred, as well as all the players complicent in the process and creating a basis or framework allowing involvement or notification of shared PHI allowing people to be targetted and chosen to stalk and plan cases criminally and CFWB, whose services are contracted with county and clinics and CFWB, who continue to make money off it, and provide substandard questionable services that are falsely claimed and billed to medi-cal and claim to be implementing a contract with fidelity and good faith but very evil people running these programs and non-profits abusing the employees who truely want to help families and violate employment law unless you align with negative information and "concerns" of parent in services and keep parent and family in these services as long as possible and claim medical need and justification billed to Medi-Cal and contract grant money payouts through their trusted licensing and credentials but if they report the truth then employee becomes targetted and employment law rights violated and jeopardizes their job at corrupt evil programs abusing the system and children and parents, reporting making millions a year, it's insane.

From 2005 through 2014, Sacramento County Family Court colluded with my ex husband to strip me of my parental rights from my three children. I survived nearly a decades long of legal battles to fight for the safety of my children. My ex husband with his Epstein class family fortune and all the corrupt players in government did everything to rob my children of the only loving parent in their lives. I fought for years to expose the brutal abuse that my ex husband committed on to my children and myself to the family court of Sacramento County. My constitutional rights were violated in every way possible and my children were being abused by the father, the stepmother and her son for years. My son and my daughters were being brutally raped by the son of the stepmother. Sacramento Family court refused to hear my peals and no matter how much evidence I brought to court, the court did nothing. The court sided with the father because he’s in the Epstein class.

The judge violated my due process rights by not allowing me to have an evident hearing made findings without actually having a hearing I lost contact with my children. I haven't spoken to them in nine months. The judge had a private meeting with the opposing attorney that I was never informed about and learned about later. The judge basically just did whatever he wanted to do. I don't understand why he did this. It's ridiculous that you could call the police on someone and the police find that no abuse took place, but then use that as evidence against the persimmon court. It's irrelevant and improper to make a finding an order after hearing, but never have a Hearing these judges are criminal. I need to be prosecuted.

The system has allowed my abuser to confine a campaign of coercive control over me and our dishes life for over 2.5 years. Despite repeated warnings and filings of the court letting them know if the ATROS violations, the harm to my employment, and the reality of his neglect and control they did nothing. I lost my job and my income because of his unrelenting efforts to sabotage my independence, he harassed me and threatened me directly and then clearly submitted false documentation to the court and for away with it, he has failed to pay child support properly and has hidden and misrepresented his income repeatedly, claiming poverty while paying $500 for his attorney. The courts solve was to ask his attorney if a special master known to the opposing attorney could still do a report... they work in the same complex, know eachother staff by first name and emailed immediately, they were charging us over $4000 just for a retainer and no promise of accuracy. O cannot afford to pay for special masters when I've lost a good job and I'm not receiving adequate support. When my ex violated orders the court will say "these are just temporary orders" but I've been trapped in the system since October of 2023. The court in filings has been made aware repeatedly of his ATROs violations and then when addressing the filing about the ATROs violations with evidence, she says "well I haven't seen anything filed on the ATROs - if you file it we can address it" - she says this with an official filing about the ATROs as her reference. It makes no sense. I was told to meet and confer with opposing counsel, who claimed his software wasn't working and lured me to his office. This was at the judges

— ANONYMOUS PARENT (1/3)

admonishment of me and directive to "meet and confer" I went to his office there was no one else there and he ignored calls from the court house when I tried to go back and secure support. We were pushed 4 months out. He then lied repeatedly under oath. I was granted an ex parte but then at the day of the hearing he again presented false numbers and the judge asked him about a special master. He literally got to choose someone he knows. In the midst of all of this our daughters schedule was a disaster- since my ex spent almost no time with her until the day after getting an attorney only a few months before our first custody hearing he suddenly wanted more time with her than he could even possibly execute. We landed on 70/30 ordered by the judge only for her to immediately mathematically undermine herself. Our daughter's schedule was functionally inversed while she ordered a "70/30" and claimed that she was adopting the FCs recommendation with "one small change" that one small change completely flipped our daughters life upside down. I then had to do 6 or 7 exchanges each week. Never on the same days and each time bringing more chaos. This went on for more than 20 months. Our daughter has missed out on so much. This system is completely broken and corrupt. I write this as what most would consider a successful pro se litigant. I have learned from all of you. I have 85% custody but that reflects life before separation. The judge didn't make it right I did, and eventually my ex just stopped caring so much about the time because he didn't care about the time but it's still all about money for him. He did all of this to avoid paying child support. All of it was about ci ril.

Took full custody of my son for a false allegation and CPS report without any substantial evidence and refuse to give him back and continue to force me and my husband to do parenting/protective parenting for over a year now. No end in sight. Children have confirmed with their court ordered counselors that the allegations were false and still have zero custody back. I have been the main custodian for their whole life until the allegations. Children are now being mentally and verbally abused by dad and step mom, also confirmed with counselors, and their mental health has drastically gone downhill. Extreme alienation since before the false allegations. Son is being called a different name by dad and stepmom, making comments about me (bio mom) and his faith. All calls between me and my son have been audio and video recorded. Son gets sent with gps tracking watch while in my care. Much much more.

"The system" has abused my child and I more than any of our abusers; "the system" has every legal right to trap your children in an abusive life with no escape while taking every legal right you have to raise your child, protect your child and speak for your child away. From the very first city dates, the courts stole my children, allowed my children to be abused, hurt, changed schools, homes. Taken from a loving mother and family. (I never ever kept my children from their father) They caused a loss so great, pain, suffering, illness, not to just me, but my family, friends, and the children had no way of defending themselves from this abuse. I'll never forget my daughter, begging to not go, saying she will be good, we found her diary, begging God to forgive her. Or my sons, having to drop them off, having my 5yr old say, "I can't stay there, there's no mommy there, and I can't eat snacks!" My other son, so devastated that before he left, he walked behind me, room to room. So scared. My children had never been away from me! Minors counsel, did not represent my children, did not speak to my side of the family. Told judge, kids wanted to stay with Mom, but it's best with Dad! A person they hardly knew, were afraid, and never lived with them. I was married to my daughter's father, he cheated and left. I was never married to my sons father, yet they treated the cases together as if we were. So many lies, so much damage, so much time lost, no way out, no help, no one listened! Now my daughter is so alienated, my sons live in fear. The system, failed my children, family and caused more pain, unforgivable pain! Thank you

Took 8 years to divorce my ex firefighter — he was sleeping with his attorney the first tempo years of our divorce and took my daughter on trips with her family while litigating against me Was abusice to our daughter emotionally and told me she could live with me then put me in contempt of court ten day trial 50,000 for " withholding her " thank god for the Coursey vs Coursey case that kept me out of jail I gave up my retirement to have him finally sign papers And the judge did not order child support or alimony He moved to another city with a woman broke up moved again , and then one more time into a home he bought completely deregulating our 16 year old son threatened him he wouldn't be driving him all the way into town to take him to school and that he'd have to change schools to where he moved So my son had a breakdown themreatened suicide became violent with me , I had to call the police because when he'd come home to me he would act like he was instructed to be trouble and cause issues , when I'd address them he'd get violent and destroy property — last week CPS said because I " trigger " my son by having rules and holding him accountable they are taking him out of my custody I have one daughter 14 now and worry I'll be in contempt again as he just leaves he with me on his custody days

Family court operates in secrecy with no audio, video or jury to ensure the ongoing corruption to abuse children; profiteering schemes and the kidnapping and trafficking of vulnerable children. As a teacher and school Principal of 23 years, I've been protecting children and families. This is why I'm running for public office (Board of Supervisors) to ensure children are no longer kidnapped, abused and trafficked.

Inflicted immense emotional and psychological trauma, financial distress, paranoia, and created an array of life struggles. My daughter's and my physical health have also been affected; her father figure was ordered no contact a year and a half ago for false allegations that were proven to all be lies, order still stands. I was scared to give her a sibling, believing they would take them as well, now she will never get to have a sibling at the same school as her or close in age to relate to as she is five and we are still in court since she was 1 month old.

I Lost my children. It should have never happened. if I would have been stronger and understood the system was not my friend and they were not there to help me reunify, I don't think I would have been so vulnerable. They will portray they are there to help while they slowly watch you sink. Their goal is to take the kids while you are traumatized. I was totally lost when they took the kids. Then the babies from the hospital. I was a basket case. I had no direction but at the same time, tried to stay within my lane. Slowly I was preparing myself to never see them again. It was obvious what they were doing. But I had no way defending myself. I did not know what to do. So, I did nothing. That is my fault and till this day i am haunted by the decisions I made, and didn't make. I have moved on with my life with my other children. I lived in a dark space for many many years. “There is no pain like watching your children suffer and knowing the very system you begged to protect them is the system that took them from you. My evidence was ignored. Their cries for help were dismissed. They were placed with someone I had repeatedly raised concerns about for abuse and domestic violence, and we were forced into reunification therapy that caused more harm than healing. Now I watch my children break down mentally and emotionally while those with the power to protect them look the other way. This is not justice. This is what happens when protecting decisions and reputations becomes more important than protecting children.”

Losing your children in Family Court is like mourning the death of a child. However there is light at the end of the tunnel. Patience will be your friend and children mature & grow mentally and emotionally. Sooner or later they’ll see the truth. Pray for Patience.

If you are getting food stamps or cash aide, do not tell them the father's name. Once they go after father he might try to avoid paying by aiming for 50/50 custody even though he could care less about parental before. Additionally, try to educate your child about the proper names of body parts so they can describe situations better. Try to get them to tell the full story when they tell the simple ones such as what time of day or exact time and location so it's habit if really big situations come up. Recognize if there is any physical evidence or witnesses. Document all dates and times of problematic situations without sounding spiteful to a judge. My child was only 3.5 when she notified me of SA from her father. I didn't think to teacher her these things at that young age. Learn from my mistake on that one and teach your kids boundaries and body parts names. Also, don't trust anybody court appointed. That evaluator and therapist are not your friend.

SLO County Family Court I want you to know you killed a good Mom the day you ripped my Benz from me. I was a fantastic Momma, daughter, sister, Aunt, Advocate, family member and Friend. This family court system was supposed to be the backbone of what kept me and my son safe and now all that it's done is ripped away the bond between the mother and her son when all they keep saying is that it's best for the child. Someone needs to look further into cases like mine and look at the bigger picture so that somebody can do something about the pain they have caused for over two years now. Someone needs to take accountability for this because once a child has grown up and has spent most of his childhood angry for not understanding why he couldn't be with his parents there's nothing that can be done to fix it.

Family court didn't just take time from me—it rewrote my motherhood in legal terms, where love became limited and distance was enforced. Family court is a racket that partakes in legalized kidnapping when a parent is forced out of their child's everyday life and made to pay hundreds of thousands of dollars for limited contact.

I'm exhausted and losing a battle to the system who is being played by my narcissistic ex, and my daughter is suffering, yet there's no help for stay at home moms trying to fight against the system and someone who knows how to manipulate it and is suffocating all your resources and committing financial, emotional and psychological abuse.

The family justice system has further proven its inability to make the right decision or put what's in the child's best interest first. Instead, they have continued to support the alienation and protect a pedophile.

My relationship with my child is but a remnant of what it was. They are closed off due to what the other parental unit did and said to them. Then other unit now has started to issue death threats towards bottle the child and myself, blaming us for what has happened to them.

systemic due process violations and unlawful wage/benefit seizures carried out by multiple state child support enforcement agencies. From approximately 2008 through 2024, child support agencies in California, Missouri, and Kansas initiated and enforced multiple Income Withholding Orders (IWOs) and intercept actions against me, resulting in: • Wage garnishments through multiple employers (documented via ADP records) • Tax intercepts (state and federal) • Unemployment benefit intercepts • Passport denial • Continued enforcement despite unanswered formal records requests

They believed our daughter was better off with the mother which is far from the truth. Her eldest son is a convicted murderer. She has another baby daddy.

> After disputed allegations I denied on the record, Placer County Family Court issued a five-year restraining order and custody restrictions that left me with only supervised video calls. My concern is that major decisions were made through a process with serious record and due-process questions, including disputed child testimony, unclear evidence rulings, Family Code 3044 findings, and a trial day with no court reporter.

> Lost custody of my child, who was 10 years old at the time, after providing all evidence showing the best interests of my child to Minor's Council. Therapy Records, school records, and witness statements were not disclosed nor reviewed by minors council which served as credible evidence against the party awarded full custody.

> When we left, he said, "I will make your life a living hell". And with the help of the family court system, including a custody evaluator, he did. The custoday evaluator eventually said, "You have the right to be angry with me for the rest of your life." The problem is we have to live with the consequences, not her.

07 HOW TO READ THIS REPORT

WHAT THIS IS

The Family Rights Registry is a public, parent-reported data collection run by Stand With Meg. Every figure in this California report comes from California respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in California — not to replace formal research, and not to name individual judges or counties as responsible parties.

WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 511 California families reporting here are not the universe of California families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. Response counts and percentages use the number of families who answered that specific topic or financial field. The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – October 2026 through standwithmeg.com/family-rights-survey. Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

Dollar fields exclude blank, negative, and obvious data-entry artifact values above the report's field caps. When asset-loss values contain a strong statistical outlier, the asset-loss mean and total are suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county or regional field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
