CPS WORKER · CLARK · **4 SUBMISSIONS**

Family-reported pattern context only. Each person must file only their own truthful, first-hand complaint using their own facts, dates, evidence, orders, transcripts, and documents.

Public threshold rule: Names are grouped conservatively by normalized spelling, role, and location. Common titles, punctuation, casing, and middle initials collapse together. Close misspellings are not auto-merged without admin review. Only family-direct submissions count toward the public threshold.

THE HEADLINE NUMBERS

KENTUCKY AT A GLANCE.

Across 104 Kentucky families reporting through the Family Rights Registry, the patterns are consistent: long durations in court, serious financial loss, and a disproportionate number of parents going unrepresented because they ran out of money fighting.

WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so Kentucky families — and families across every represented location — would stop being invisible to the data. This report is their record.

03 THE COST OF KENTUCKY FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

EXPENSE CATEGORY	RESPONSES	MEDIAN	MEAN	TOTAL REPORTED
Attorney Fees	57	$6,500	$75,099	$4,280,660
Lost Wages	47	$7,500	$53,683	$2,523,101
Other Court Fees	36	$1,000	$15,086	$543,100
Therapy / Evaluations	45	$800	$9,190	$413,533
Reunification Services	30	$275	$5,708	$171,250
GAL Fees	38	$1,000	$6,222	$236,450
Asset Loss [1]	37	$20,000	—	—
Median Family Burden (43 families reporting 3+ categories)	—	$97,000	—	—

Median vs. mean: Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least $1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

1. On asset loss: One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median ($20,000) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

Most are wholly inadequate to provide therapeutic or decide any sort of attachment bond between your and your children. Attorneys are not better parents or mental health providers, and the majority of "therapists" are not qualified for high conflict cases, especially if alienation or attempts at false abuse allegations are made. Judges who sign off on motions without due process hearings from these self appointees are lazy and incompetent. Please find a new job, this is not a good fit for you.

And ahe also did this to her ex husband prior to me... which the courts new! He became a drunk i believe now because of her control and narcissistic behaviors as well as her BPD he took off and left his oldest 2. Which is how I have 3.yes I adopted her kids 1 year prior to her then taking them... she wanted child support.

— ANONYMOUS PARENT

removed me from my children's daily lives during the exact years their clinical records now show caused them measurable, documented harm: separation trauma, maximum-score separation anxiety, and a mood disorder diagnosed by two independent licensed clinicians who both concluded the cause was the separation itself, not my conduct. Every month I was restricted to supervised visitation while that unamended registry KARES listing cost me employment and income was a month my children went without their mother during a period that cannot be recovered — and the record of what that absence did to them is now in signed clinical notes from providers who had no connection to this case and no reason to reach any conclusion except the one the evidence gave them.

07 HOW TO READ THIS REPORT

WHAT THIS IS

The Family Rights Registry is a public, parent-reported data collection run by Stand With Meg. Every figure in this Kentucky report comes from Kentucky respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in Kentucky — not to replace formal research, and not to name individual judges or counties as responsible parties.

WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 104 Kentucky families reporting here are not the universe of Kentucky families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. Response counts and percentages use the number of families who answered that specific topic or financial field. The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – October 2026 through standwithmeg.com/family-rights-survey. Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

Dollar fields exclude blank, negative, and obvious data-entry artifact values above the report's field caps. When asset-loss values contain a strong statistical outlier, the asset-loss mean and total are suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county or regional field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
