Family-reported pattern context only. Each person must file only their own truthful, first-hand complaint using their own facts, dates, evidence, orders, transcripts, and documents.

Public threshold rule: Names are grouped conservatively by normalized spelling, role, and location. Common titles, punctuation, casing, and middle initials collapse together. Close misspellings are not auto-merged without admin review. Only family-direct submissions count toward the public threshold.

THE HEADLINE NUMBERS

NEW HAMPSHIRE AT A GLANCE.

Across 42 New Hampshire families reporting through the Family Rights Registry, the patterns are consistent: long durations in court, serious financial loss, and a disproportionate number of parents going unrepresented because they ran out of money fighting.

WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so New Hampshire families — and families across every represented location — would stop being invisible to the data. This report is their record.

03 THE COST OF NEW HAMPSHIRE FAMILY COURT

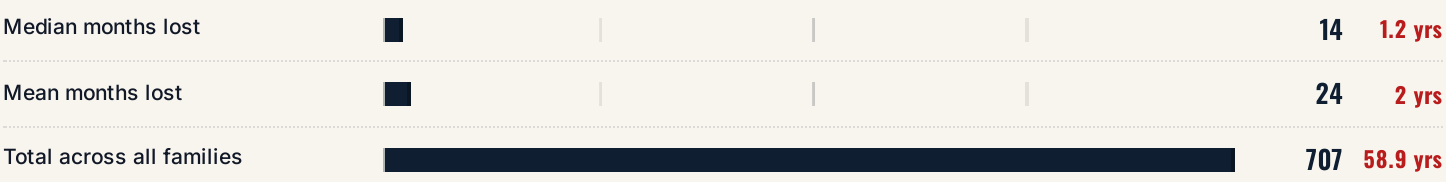

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

EXPENSE CATEGORY	RESPONSES	MEDIAN	MEAN	TOTAL REPORTED
Attorney Fees	26	$20,000	$68,365	$1,777,500
Lost Wages	23	$50,000	$52,170	$1,199,900
Other Court Fees	16	$500	$7,862	$125,800
Therapy / Evaluations	22	$1,750	$6,800	$149,600
Reunification Services	15	$200	$2,567	$38,500
GAL Fees	19	$2,500	$5,727	$108,810
Asset Loss [1]	17	$30,000	—	—
Median Family Burden (23 families reporting 3+ categories)	—	$102,500	—	—

Median vs. mean: Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least $1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

1. On asset loss: One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median ($30,000) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

With NH having the highest overdose rating in the Country, I told my team that I wanted to know how many of them had children involved with DCYF and if there was a significantly higher number of overdoses to parents involved with dcyf. I was accused of opiates use, however I did not and luckily was never a user, but I guarantee with the intentional pain and gut wrenching heartache dcyf inflicted daily, I guaranteed that number is significant. I saw parents who loved their children, good people, cease to be, all because they needed to numb the overbearing, intentional and unnecessary heartache and turmoil inflicted on a daily basis. I could understand just how a user could do a little too much trying to face the day, trying to minimize the pain, trying to stay compliant and ignore every human parental instinct in our bones. So many children will never understand how important they truly were to that parent, just how much they wanted to be with them, or how much they were deeply loved and cherished and that ultimately they gave everything in hopes of being with them again.

The Judge ignores our please, my daughter was hospitalized and was sepsis, she almost died... But she was denied a continuance on a important court date, physically and mentally she couldn't represent herself, she was sepsis... Court denied, and that's when everything fell apart, because she was ill.

There were no false allegations there were no reasons to limit the father's time other than the mother decided that even though her child had been with his father equally for his entire life that the child should now only see the father on the weekends every other weekend. Changing the child's School has caused him emotional distress change in his behavior and personality. It has stressed our family as a unit his siblings are separated from him they all go to one school and he is forced to go to a separate School on a separate schedule. He was 8 years old at the time of this decision and was not given an opportunity to speak about his wishes. The focus was on the mother and her feelings.

07 HOW TO READ THIS REPORT

WHAT THIS IS

The Family Rights Registry is a public, parent-reported data collection run by Stand With Meg. Every figure in this New Hampshire report comes from New Hampshire respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in New Hampshire — not to replace formal research, and not to name individual judges or counties as responsible parties.

WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 42 New Hampshire families reporting here are not the universe of New Hampshire families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. Response counts and percentages use the number of families who answered that specific topic or financial field. The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – October 2026 through standwithmeg.com/family-rights-survey. Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

Dollar fields exclude blank, negative, and obvious data-entry artifact values above the report's field caps. When asset-loss values contain a strong statistical outlier, the asset-loss mean and total are suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county or regional field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
