She was forced to do this, there's been no final given to this. She is collected no collateral evidence against her husband from my daughter, but told her now I'm collecting collateral damage against you, and there are laws in the state of Texas for qualifications you must have in order to perform a psychological evaluation when you're accused of a mental decline, and our daughter had been under and is under the care of a psychiatrist and has seen a trauma therapist and turned over letters from him and documenting her visits and the judge is ignored this but taken as evidence testimony from the father who raped and beat her and from police officers, who showed up at her house after her house was force broken into, and after she stating you know, I believe that you know he is stalking me and you know has testimony affidavits from her ex-boyfriend where they are proving that they were followed even into Oklahoma so out of state so if it's not a and she was followed if she's followed out of state, they have to be if it's a private investigator they have to be licensed in that state, but when you are under the order of a protective order, including a criminal lifetime order protection, you can't be followed by a private investigator for your attacker. It's illegal, even if your licensed private investigator you cannot be Followed. Jean Lee

JUDGE · DALLAS · **4 SUBMISSIONS**

> *"Jean Lee was the judge who ordered my children to a reunification camp and then after the 45 days of no contact, she extend it to "indefinite." She did not follow up on the two week reporting stated that was required of the reunification therapist named Ellen Hutton for any accountability. She allowed the children to be taken via transporter to a camp led by Lisa Rothfus out of town, where they were forced, threatened with psychiatric hospitalization if they did not go with transporter and then extended their time away from their mother for the rest of their lives. She ruins families by giving children to their abuser, and commits fraud with child support payments, allowing them to be re-routed to pay the children's therapists instead of actual care for the children at home. She is a villian and not to be trusted. She stole my children's childhood which can never be returned."*

She continued to bill for sessions after sessions were stopped. Would not allow cancelations and would bill excessive fees for no shows. Extremely cold, rigid and not welcoming. She gets family court cases to require sessions, and just does everything she can to keep you on the payroll. We attended weekly for 2 years and my child hated every session and would refuse to speak with her. She would get personally offended when my child would refuse. She failed to report abuse. Worked with criminal defense attorney, and Amicus to secretly bring the abuser into therapy. Continued to charge after visits stopped. Would act like a child and be personally offended when my child did not want to talk to her."*

Monica Rawlins CONTINUED 1 / 2

JUDGE · 328TH FORT BEND COUNTY TEXAS COURT · **4 SUBMISSIONS**

> *"Judge Monica Rawlins issued a restraining order against me based on allegations made by my ex-husband despite the lack of any direct evidence supporting his claims. She also issued a restraining order against my current husband, even though he was not present during the conflict between me and my daughter and had no involvement in the alleged incident. During the first hearing, the judge laughed about the restraining order against him before ultimately dismissing it and minimized it as "just a formality," despite the emotional and financial harm it caused us, including the need to hire legal counsel to defend him against the allegations. After the second hearing, Judge Monica Rawlins took approximately two months to issue a ruling, leaving my family in limbo while I remained under severe custody restrictions and continued paying substantial legal fees. Before the second hearing took place, Texas House Bill 3783 (HB 3783), also known as the Safe Haven Act, became effective and prohibited Texas family courts from using reunification-style interventions that require children to have no contact with a parent as a condition of therapy or reunification. Despite this major legislative change, and despite my attorney specifically arguing that the law constituted a substantial change warranting modification of the existing order, my case continued operating under a framework that severely restricted my contact with my children and no timely corrective action was taken by the court. Judge Monica Rawlins ignored significant evidence I presented during the case, including documentation of repeated custody interference by my ex-husband. Even while I was limited to only one hour of parenting time per week during family therapy, my ex repeatedly scheduled trips and vacations that"*

FAMILY COMMENT CONTINUED

"caused the children to miss my already extremely limited court-ordered visitation. Despite ongoing violations of my parenting time, the court did not take any corrective action or enforce the existing custody orders. I was the only one who had to follow the court order. Concerns regarding underage alcohol exposure involving the minor children were also ignored. Both I and the family therapist raised concerns that the children were allegedly being provided alcohol or exposed to inappropriate alcohol-related situations during parties and family trips at my ex-husband's home. Despite these concerns being brought before the court, no action was taken and no investigation was done."

"Monica Rawlins appeared unfamiliar with important evidence and details in my case, and I felt my filings and concerns as a pro se parent were not given meaningful consideration. The resulting orders left major issues unresolved and unenforceable, leading to continued litigation, additional hearings, and ongoing conflict rather than a clear and workable path toward reunification and co-parenting. She is up for reelection and my amicus Danny hoke contributes to her election campaign and there is a conflict of interest and they are very unfair. Have separated family and have to desire to reunify"

"rape and beating of our daughter, I feel like you should be thrown in jail once you commit perjury which that did not happen, this judge refused to hear testimony when the children were taking to Cook Children's on May 4, 2025 because when I picked them up from the Midlothian police station, I recorded the father's mother and Living girlfriend pulling off of 67 in Midlothian Texas into the parking lot of the police station and I recorded until they left the parking lot and you can see the black eye on the four-year-old at that point in time. I was not believing that an actual adult gave this black eye to the four-year-old and I had 17 people at my house celebrating the seventh birthday of her eldest child that she had to miss so it wasn't until the next day that we found out that the black guy was given by Emily Noll when she got her second supervised visit that I was supervising, and once he told my daughter that Emily gave him the blackeye and that she was hitting him about the back and my daughter looked down his shirt. She had him come and tell me and we were at her sister's house and I went and I called Cook Children's and explained to them that we have Called or I we meaning myself and my doctor at called child protective services and they have done nothing to help these children and the courts refused to do anything you know they took the kids and gave custody to the father temporarily without even holding a hearing or alerting my daughter, and there's a order of protection against the father. They said yes bring the kids affair so we did that and then when they called in child protective services child protective services activated, a priority level one case because they're the ones who decide what level it is. not the hospital well, the father we didn't return"

WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so Texas families — and families across every represented location — would stop being invisible to the data. This report is their record.

03 THE COST OF TEXAS FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

EXPENSE CATEGORY	RESPONSES	MEDIAN	MEAN	TOTAL REPORTED
Attorney Fees	243	$25,000	$88,417	$21,485,439
Lost Wages	175	$20,000	$112,191	$19,633,397
Other Court Fees	125	$1,500	$15,192	$1,898,980
Therapy / Evaluations	164	$2,200	$7,041	$1,154,731
Reunification Services	93	$599	$3,389	$315,187
GAL Fees	122	$2,500	$9,513	$1,160,630
Asset Loss [1]	146	$44,000	—	—
Median Family Burden (172 families reporting 3+ categories)	—	$123,500	—	—

Median vs. mean: Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least $1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

1. On asset loss: One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median ($44,000) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

My case is an anomaly. It started out with CPS illegally taking my kids became I couldn't find my prescription medication that they knew my OBGYN prescribed me. 10 hrs after they took my babies I found my medicine bottle but they didn't care. My kids were put in foster care but THANK GOD it was w family. Even though they weren't in my kids lived prior to cps at least I knew my girls were safe w their paternal uncle & his wife. We went to mediation with my husband's brother & his wife with CPS leading it & agreed on an SPO. This was in 2018. From 2018-2023 we coparented pretty well & my babies were happy for the most part. Until Dec. 2023 when my brother in law & his wife literally tricked us/threatened us/pressured & coerced us into signing something that ended up being something completely different than what they said it was. They tricked us into signing our rights to visitation away. & since then they have turned our angels against us to the point where they no longer even acknowledge our existence. However, I just found out that not only did they trick us into signing our visitation rights away (we're still possessory conservators), I found that they committed extrinsic fraud, tampering w government records, notary fraud, & their attorney made some highly illegal moves as well. So, CPS is no longer involved & no longer the problem. It's solely between my husband & me against my brother in law & his wife who have erased us from our babies lives. But here's my quote on what our own family has done to us & our angel girls; THEY HAVE INTENTIONALLY & QUITE LITERALLY RUINED ALL 4 OF OUR LIVES BY RIPPING US AWAY FROM OUR DAUGHTERS WHEN THAT'S THE LAST THING MY BABIES

— ANONYMOUS PARENT (1/2)

WOULD'VE EVER WANTED. THEY'VE PUT HATE, RESENTMENT, & NEGATIVE THOUGHTS & EMOTIONS INTO 2 INNOCENT LITTLE GIRLS HEARTS & MINDS. THEY'VE FORCED THEM INTO A HARDCORE EMOTIONAL & PSYCHOLOGICAL HELL WHERE MY GIRLS ARE BEIN SILENCED. THEY'VE CAUSED MY OLDEST, ESPECIALLY. IRREPARABLE MENTAL HEALTH ISSUES & TRAUMA THAT SHE'S GONNA HAVE TO SPEND YEARS IF NOT FOREVER TRYING TO HEAL FROM. & AS FAR & ME & MY HUSBAND GOES; THEY HAVE CAUSED US TO HATE LIVING & BREATHING MOST THE TIME BECAUSE A WORLD WITHOUT MY BABIES IN IT IS A WORLD I DON'T WANT TO BE A PART OF. BUT WE'RE NOT THINKIN LIKE THAT NOW THAT WE'VE CAUGHT THEM & THEIR FRAUDULENT ACTIVITIES. WHICH I'M WORKIN ON GETTIN READY TO TAKE TO THE DA. THIS HAS 100% RUINED MY MARRIAGE TO THE POINT IT'S ALSO IRREPARABLE. THE WORST PART IS HOW BADLY & CONSTANTLY MY HEART PHYSICALLY ACHES & DROPS FROM MY CHEST EVERY TIME.I THINK OF THE PAIN & CONFUSION THAT MY BABIES ARE BEING FORCED TO FEEL.

My ex husband is an abusive child and adolescent psychiatrist who physically abused our children, gaslight me for years, drugged me and and the kids to mask our trauma, and attempted to kidnap the children twice. The first time he used false claims and a restraining order and I got them back. He failed at sending the boys to wilderness camp, he was restricted to therapeutic visitation due to physical abuse of the children, numerous children and times, including severe strangulation. He deceptively worked with all the therapists and attorneys to take them to a 4 day reunification camp and never returned them and without due process or proper service or hearing, blocking my rights, he then got full conservatorship of all four children and removed and erased me from their lives with no rationale, cause or without any evidence. He did this to hide the abuse that was with the DAs office and to brainwash the children. He is also the child psychiatrist who does this to numerous other families all over, with the same pattern of abuse, and with overprescribing of medications to harm children and families.

The family judicial system has actively participated in parental abuse and alienation, gone with the money, neglected the needs of my young child, and negatively impacted not just my immediate family, that includes siblings of the child this suit is affecting, but has out-poured into extended family and our community. Irreparable harm has been done to my baby girl’s psychological, physical, mental, and emotional well-being; the court system has allowed physical and mental abuse, emotional neglect, coercion and manipulation, and they do it with a smile on their face, to protect the parent who provides a socio-economic benefit to the lawyers, amicus attorney, GAL, and judge, and neglected to protect the child, as is their DUTY. This has torn our family down financially medically and emotionally it's been very traumatic the most traumatic thing any one of us has ever experienced in our life time because it's an entire system and we've asked for help from the bottom all the way up to the top and shown proof of innocent children in danger of losing their live's and it's ignored while other stories emerge mirroring our's where time expired and another child, parent, or family member succumbed to this torture and abuse by a system that is opposed to protect the people their oaths were taken in officials were sworn in promising to protect and serve us knowing full well their intentions were to increase their bank accounts and line their pockets with the blood and lost lives of innocent little children and families of their own communities and they sleep peacefully while doing this and post all over social media how they get to spend those precious moments with their loved ones spending our money doing it.

My children were taken away from me unannounced, based solely on the word of my abuser & his wealthy parents which traumatized one of my 3 children severely. I have spent over 6-1/2 years defending myself & children from constant litigation, everything from an intervention filed by my rich ex in-laws to take away custody, to numerous attacks on my parental rights and possession time, all to completely drain me financially, physically and emotionally.

> The State took my children on October 6, 2025, claiming it was an "emergency" that required immediate action. But looking at their own evidence, the "danger" they cited was drug test results from May and June of 2025. If my children were in 'immediate danger' in May, why did the Department wait 130 days to act? By leaving my children in my care all summer long, the State admitted there was no emergency. They didn't seize my children to protect them from a crisis; they waited until it was convenient for them, bypassing the 4th Amendment requirement for a warrant by using 'stale' information to create a fake emergency. The State has handed me a "Service Plan" that treats me like property rather than a parent. Specifically, they have ordered that I am not allowed to cut, color, or alter my hair without their permission. This isn't about safety; it's about absolute control. Under the 14th Amendment, I have a right to personal liberty and bodily autonomy. The State has no business telling a grown woman how to wear her hair. If they want to drug test me, there are dozens of ways to do it without dictating my physical appearance. This is a humiliating and arbitrary rule that has nothing to do with being a good mother. My son's father, lives in a separate home and has no allegations against him. Yet, the State refused to place our son with him. The State is acting as if I am the only person in the world, and because they have an issue with me, they get to keep the children in the 'system.' By bypassing a non-offending father and keeping the children in state-managed care, they are violating the law that says a child should be with a fit parent before a foster home or a kinship

> placement. They are purposely keeping my family apart to maintain their own conservatorship. The Department is actively trying to strike my mother's legal intervention in this case. My mother has been the one consistent support for my children. By trying to kick her out of the courtroom, the State is trying to isolate me and ensure I have no one standing in my corner. They want to make it 'The State vs. Sarah' so they can control the outcome without my family having a voice.

Family Court gave him the tools to violent me and my children. He was treated with respect by the judge, after months of fighting with my children; went to shake his hand and asked him about his buildings. When he claimed bankruptcy to get away of paying me child support and stole 100% community property. He did not have but debts before our marriage. Years later; I have to deal with an abuser to co parent and no time was taken to actually investigate the truth. It seems everyone knows; local politicians, local lawyers, and they all think it's unfair but as told by an expert: Family court is considered 'the court of lies' anything is admissible if it can't be proven otherwise. I never had an affair or treated him bad; he just has a strange relationship with his mother; that moved with him. They have done the same thing to others. Evidence of all types of abuse gets overlooked, minimized, or dismissed, and sometimes even your own attorney tells you that certain evidence “can’t be used” for final hearings, leaving victims feeling unheard and defeated while the abusive parent continues getting everything they are fighting for. The emotional, psychological, and financial damage this causes to mothers and children is something many people will never understand unless they have lived through it themselves. The system helps the parent who can afford it. Whoever loves the children the most is the one who suffers and loses precious time with them. It is a broken, unfair, unbalanced system.

I had an attorney, then ran out money. Went pro se -did well. Then found OC outside my home hiding-stalking-waiting-watching. I then had to hire an attorney as I was afraid for my life due to threats previously. Attorney came into the case, then ran out of money. Went pro se again until final and attorney came back onto the case.

The system has ignored the abuse. Put my special needs child in continuous danger & punished me for protecting my baby as is my right as her mama while knowing our abuser has a violent history of abuse and just using our child to avoid immigration.

As a veteran, this experience has significantly eroded my faith and trust in the country, the institutions I served to defend, and the constitutional values they are meant to uphold.

This system has completely torn my family apart when there was no need for the removal he was living with me not his mom Yet you gave him to the person that put him in harms way to begin with. You have ruined my life and tore us apart. Justice will prevail.

The family courts have contributed greatly to my son's emotional distress over time. It has drained me financially of the ability to save for my son's educational future.

— BRITTANY

My children have been living without a parent or siblings, my older child has low self esteem, emotional disorder, and suicidal thoughts, she has been institutionalized in mental health facility, my middle son is confused and angry with me being groomed to think I don't love him and a bad person, I don't know anything about my youngest. I have been in and out of jail on numerous set ups paying a lot in bonds and taking on a terrible background. My business is almost at a complete vault and I struggle to make enough money to survive due to my record.

— TIFFANI

The people who are responsible for making major decisions in the lives of people they do not know should be educated and trained on narcissistic and manipulative behavior. Being able to make decisions like that, that do not affect their lives the second they walk out the door should require a hell of a lot more than just words told by a vengeful ex or someone who knows how to use a system to abuse the other parent.

What should have protected my family instead prolonged conflict, rewarded delay, and forced us to spend years and enormous resources fighting for stability, peace, and accountability.

Delayed the divorce process, tried to fan the fire and worsen things between ex and I, hell bent on trial from the get-go which is extremely inappropriate

Alienation from my son. He's been medicated. I lost my job and all my extended family thinks I am on drugs so no one speaks to me anymore. I'm not invited to holidays and I had to find a new community for support.

I can't put into words the way I feel or what it's done. I'm a completely different person who feels like I can't even be myself because it'll be used against me, so I try to stay quiet and hold back even joking with family and friends.

The greatest loss was never my parenting time. It was watching my son slowly learn that loving his mother came with consequences. The court could separate us physically, but what broke my heart was watching a once open, joyful little boy learn to hide his feelings, suppress his voice, and carry burdens that no child should ever have to carry. I always believed my job as a mother was to raise a boy who would grow into a kind, emotionally healthy man who knew how to love, trust, communicate, and build a strong family of his own. Instead, I have spent years watching the people and institutions that were supposed to protect him teach him to question his own experiences, withhold his feelings, and carry emotional weight far beyond his age. This was never the life I wanted for him, and it was never a burden he asked to carry. I left because I believed I was protecting my child, yet there have been moments when watching the damage this process has caused made me question everything. The greatest tragedy is not what was taken from me. It is what was taken from him.

Emotional distress for myself and our oldest child, secondary impact on child 2 and 3; taken away finances and security and energy to sustain building my post-divorce life. Stupidly expensive way to avoid being a man and god forbid having some accountability.

For years, I have lived in the exhausting reality of family court litigation, carrying the weight of single motherhood, a permanent disability, and relentless legal conflict while trying to provide a peaceful childhood for my daughter. What should have been some of the most joyful years of our lives were instead consumed by courtrooms, financial strain, and uncertainty, yet through it all I have never stopped fighting to build a safer, more supported future for her.

My life can never be the same, irreparable damage done.. time never able to be recovered. Pain unforgettable, unhealable. The way I see the world is different and I can't take the filter off.

The recent unjust court rulings have shattered my children's sense of safety and stability by tearing them away from their primary caregiver without cause, destroying our financial security, and forcing them to live in constant emotional turmoil, confusion, grief, and instability that no child should ever have to endure.

I worked so hard in 20 years to save this amount of money for my son's college and my retirement. Now i will not be able to retire and will back to work after this divorce until I'm 80 years old or until i die.

This system has completely drained me financially and emotionally, punishing me for being a fiercely protective mother while forcing me to watch my medically fragile son's health deteriorate from the sidelines against our abuser. It has pushed me to the absolute limits of my exhaustion, yet it has also forged me into an unbreakable advocate who will never stop fighting for his life.

The Brazos County court system has left my family deeply fractured after I was ordered with only 24 hours' notice to relocate my four children to the same town as their father, forcing immediate school changes, housing decisions, and major financial disruption. I was told the alternative was incarceration and that my children would be placed in their father's sole custody. This has had a lasting impact on my family's stability and well-being.

Wife alleged allegations of assault with a weapon against her husband. All false, all lies. She injured herself and claimed he did it. She has a history of mental issues and psych hospital stays. Husband has NO history of violence, arrests or trouble. Ever. Yet he is considered guilty until proven innocent. This is dragging on - he has not been able to see or talk to his child in over 4 months. In the meantime, child lives with mom who is not emotionally stable. A case like this needs to be expedited for the child's sake (7 years old)

They have completely ignored my evidence and teachers testimonies and a principal testimony, ignored MHMR records didn't force my subpoena for the skills teacher that seen my son and did parenting class with me. Filed a Writ of attachment judge signed it then when I appeared in court to argue my ex had already the very same day we had gotten out of court the time before refused my visit and he did nothing but threaten to throw me in jail

Gave my daughter bad anxiety and both are scared of their dad so they beg me not to reopen the case they dont want him mad. I've lost alot of money and time with my children and 3 years worth of Christmas. All the money I was owed for not getting the house i remodel on my own with my credit cards I got after the divorce I had to pay. And im still paying for his credit card and im owed spousal support of 1500 he refuses to pay.

This has ruined my daughter's lives, my youngest has no concept of what a father is supposed to be, she is 2. My oldest (who is 5) lives in fear that anything she says will be used against her father. She also lives in fear that she won't see me again or will be kept away from me. I've suffered years of depression and anxiety, and my daughters will too. Meanwhile, the court actors made over $300,000 via both parties in a single year.

The family court system in Texas caused profound harm to our family. We have experienced 8 years of emotional exhaustion, financial strain, fear, and helplessness, while trying to raise concerns that were important to our child's well-being. When families feel that evidence is ignored and decision-makers are not accountable for their actions, trust in the system is deeply damaged. Please reach out to us if you've had the same experience in Dallas/Collin County Texas.

> I was married for 10 years to a deadbeat. I spent half of that trying to get a divorce and finally got it after filing three times. I was awarded custody and child support and moved on with my life. 6 months later, I was hit with a very unusual custody case. The accusations were that I was mentally unstable. Text messages stating that I was going to put a gun to my head were used to file the case. These text messages are coming from an unknown app and no matter what I've done, the court won't prove to me where they came from. Since then I have also been subjected to a substantial amount of violence and theft. I haven't seen my child and almost 4 years. Even when I had visitation, nothing was ever enforced. None of my evidence has been considered and I feel like a complete doormat whose life has been turned upside down.

07 HOW TO READ THIS REPORT

WHAT THIS IS

The Family Rights Registry is a public, parent-reported data collection run by Stand With Meg. Every figure in this Texas report comes from Texas respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in Texas — not to replace formal research, and not to name individual judges or counties as responsible parties.

WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 360 Texas families reporting here are not the universe of Texas families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. Response counts and percentages use the number of families who answered that specific topic or financial field. The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – October 2026 through standwithmeg.com/family-rights-survey. Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

Dollar fields exclude blank, negative, and obvious data-entry artifact values above the report's field caps. When asset-loss values contain a strong statistical outlier, the asset-loss mean and total are suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county or regional field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
