

THE FIGHT FOR AMERICA'S FAMILIES

Exposing the Corruption in Family Courts and CPS.

They took my kids. They tried to silence me. They WON'T.

THE HEADLINE NUMBERS

GEORGIA AT A GLANCE.

Across 55 Georgia families reporting through the Family Rights Registry, the patterns are consistent: long durations in court, serious financial loss, and a disproportionate number of parents going unrepresented because they ran out of money fighting.

CHILDREN IMPACTED 87 54 of 55 families reported child counts	MEDIAN ATTORNEY FEES \$20,000 per reporting family	MEDIAN MONTHS LOST 17 of parenting time	WENT PRO SE 47.3% 30.9% after running out of money

WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so Georgia families — and families in every state — would stop being invisible to the data. This report is their record.

02

THE COST OF GEORGIA FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

EXPENSE CATEGORY	RESPONSES	MEDIAN	MEAN	TOTAL REPORTED
Attorney Fees	39	\$20,000	\$79,487	\$3,100,000
Lost Wages	33	\$10,000	\$83,872	\$2,767,786
Other Court Fees	21	\$0	\$2,142	\$44,975
Therapy / Evaluations	33	\$2,000	\$3,358	\$110,800
Reunification Services	22	\$0	\$2,868	\$63,100
GAL Fees	26	\$0	\$5,019	\$130,500
Asset Loss ¹	33	\$30,000	—	—
Estimated Median Family Impact	—	\$62,000	—	—

Median vs. mean: Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers.

1. On asset loss: One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median (\$30,000) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

This crooked system paints a false picture of scarcity, and then throws a meaty bone between two parties who used to care about each other, profiting from them tearing each other apart over it. My wife and I are kind people who love Jesus and love our kids. That hasn't helped us, it has hurt us. We maintain traditional biblical values for the family and our marriage, and those values were literally painted as dangerous by a guardian ad litem who got custody flipped on a sham temporary hearing with no proof of harm and actually testifying that our son is thriving. We have three cases in the system between us and our five children. Every experience has been vile. We have watched dishonest people get away with murder, and it not even matter when they get caught. Documented perjury has meant nothing. What could've been generational wealth has been destroyed. All while each children are used as pawns in a game purely played for money and control. Either the Constitution and the rights of guarantees mean everything, or they mean nothing. To the family court system, they mean nothing. There will be a lot of bad actors who have to stand before the Lord of Jesus one day and answer for the lives they have destroyed here on Earth. The family law system is the civil rights crisis of our time.

07 HOW TO READ THIS REPORT**WHAT THIS IS**

The Family Rights Registry is a national, parent-reported data collection run by Stand With Meg. Every figure in this Georgia report comes from Georgia respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in Georgia — not to replace formal research, and not to name individual judges or counties as responsible parties.

WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 55 Georgia families reporting here are not the universe of Georgia families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. We flag outliers and report medians when means are distorted (see page 3, note 1). Quotes are minimally edited.

METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – April 2026 through standwithmeg.com/family-rights-survey. Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

When a respondent's financial entry differs from the population by more than three standard deviations, the mean is suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 5 independent families name the same actor.
