THE HEADLINE NUMBERS

NEW JERSEY AT A GLANCE.

Across 73 New Jersey families reporting through the Family Rights Registry, the patterns are consistent: long durations in court, serious financial loss, and a disproportionate number of parents going unrepresented because they ran out of money fighting.

WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so New Jersey families — and families across every represented location — would stop being invisible to the data. This report is their record.

02 THE COST OF NEW JERSEY FAMILY COURT

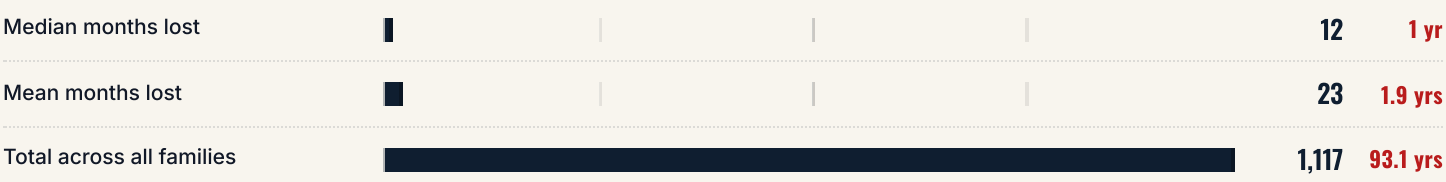

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

EXPENSE CATEGORY	RESPONSES	MEDIAN	MEAN	TOTAL REPORTED
Attorney Fees	46	$44,000	$190,865	$8,779,792
Lost Wages	33	$25,000	$69,018	$2,277,600
Other Court Fees	29	$10,000	$39,863	$1,156,038
Therapy / Evaluations	35	$5,000	$15,741	$550,950
Reunification Services	18	$500	$7,944	$143,000
GAL Fees	19	$0	$8,432	$160,200
Asset Loss [1]	33	$70,000	—	—
Median Family Burden (35 families reporting 3+ categories)	—	$221,750	—	—

Median vs. mean: Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least $1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

1. On asset loss: One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median ($70,000) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

I am deaf Latina who doesn't speak English our abuser is deaf American born but nevertheless court has allowed his paralegal wife interfere and participate for him fully even though there are proof in writing that texts in app court are not his, nor long email with legal jargon to parent coordinators. In court his appearance are brief and fall short of his long demanding perjury claims on me. But nobody cares. I have requested to go onto mediation in court as both of us are in front of interpreter and mediator and his tantrums don't work and we are able to move on because his paralegal wife is not there to coach him but firstly attorneys don't want to suggest it and judge said they rather us to work it out outside court. But this leave us to the escalation of issues from our abuser for everything and for minimal it could be because he thrive in coercive control and litigation. He has told our children he will never stop fighting me until they are out of family court system and discouraged them to pursue college or university studies as he JW and wants them to go to mission and get married.

Morris County and Judge Bogaard has destroyed my children and I financially emotionally and physically they protect abusers. My exhusband has friends that are politically connected and law-enforcement. They are all sons of Italy bothers. They are all working together selling divorces and painting women as the “abusers” yet we are the ones with the actual physical evidence of abuses that the courts won’t review or allow into evidence. It is a white male misogynistic world in Morris County. It’s no surprise that all the ICE protests are currently going on in Morristown Because women , children, people of color are considered second class citizens in that part of New Jersey. I had an interview with Marianne Petrii with slam the gavel. To see my interview, just go to YouTube and search Isabella Reyes Alfano..

I went through 4 attorneys, none of which were helpful in moving my case forward. One lawyer wanted me to hire a child custody expert and an educational expert to the tune of $80,000. I refused. My last lawyer cut to the chase, I cut my losses financially, and signed a terrible unfair agreement (unfair child support, alimony, division of assets (including vehicles and retirement)) to stop from digging my debt hole even further down. Judge wouldn't even take the time to meet with the parties, and really didn't have time to meet with the lawyers. Spent a ridiculous amount of time with a mediator, paying 1.5x's my lawyers hourly rate, and nothing was accomplished. All of those "intensive settlement conference" days in the courthouse were a waste of time and money- we had nowhere to go and meet and figure things out. Plus, it was high conflict, so it was lawyers just arguing and not moving forward.

The system is being very biased. I explain to the court how the child is being used as a weapon to hurt me by the other party & they are doing nothing about it. I try to request more time other party objects and the court granted her objection. I been the one filing for 4 years and the other party is always talking about my personal life and mentioning how she do not want my fiancee to post my child on social media with out the court finding any harm. Judge Tiscornia still put that as an order mind you the other party never filed for that. This was a case I filed for. The system is being very unfair. Things keep getting worse and the court keeps enforing me to speak to the other parent despite the fact that they disrespect me.

— CHRISITAN

The family court system has turned my daughter's childhood into years of litigation, conflict, and instability. Instead of protecting our parent-child relationship, I believe it allowed repeated interference with my parenting time, ignored evidence I presented, delayed decisions, and left me fighting to remain an active father. The emotional, financial, and psychological toll has been devastating. My daughter has lost valuable time with her father that can never be replaced, and our family has suffered because the system failed to act when it mattered most. My goal has never been to "win" against the other parent, it has always been to protect my daughter and preserve her right to have a meaningful relationship with both parents.

— WILLIAM

The system took me away from my children even though I was their primary caregiver, the parent who took them to school, attended meetings, helped with homework, and supported their activities. Years of delays and litigation kept me from being an active father, while my children's education and well-being suffered, leaving us with lasting emotional and financial damage.

— ANONYMOUS PARENT

They have allowed my x to violate the court orders without consequence. Allowed him to retain shared custodies to continue to tell the children lies about me to place them in the middle of litigations and attempt to turn them against me and make their entire childhood an attack on me to validate his narrative to the end of our relationship.

— ANONYMOUS PARENT

System allows people to become bankrupt by assigned all of these unnecessary evaluators and professionals. No cap on fees and no oversight and no guard rails for these unscrupulous individuals to get rich. It is appalling that they have such power over children and families while not following the law, bankrupting and colluding

— ANONYMOUS PARENT

The system has destroyed the well bring and emotion state of my family. It has completely alienated my daughter from me and forced my oldest son to be alienated from his father and his family. It has systematically broken us. We live in constant PTSD and live to defend and protect ourselves. There is no peace. It is now daily attacks. It is not sustainable.

— ANONYMOUS PARENT

The system is so skewed for people with higher income or those who know someone in the courts or have some sort of power of their own. Poor, hard working people usually pay dearly, well off people that are abusive do not.

— ANONYMOUS PARENT

This system has re traumatized me over and over again, kept my family broken, and caused distress for my child. This system has brought me to the edge of what I can handle financially and mentally and then punished me for being a human being. This husband has allowed a party with coercive control history to keep harming me and my child.

— ANONYMOUS PARENT

Every time I came to the system for help, they made my situation worse every time I went to a new person to help they made my situation worse every time I went to administrators a directors for help they still involved blocked information, lost paperwork, or also made the situation worse. My 21-year-old son committed suicide in October 2025 due to the fact that he was unable to come back home because of the instability from three separate agencies attacking me at once.

> It became so bad that my oldest was suicidal. When I begged the courts, the lawyers, and most of all my ex for help because he was suffering, no one listened. Only when a school therapist came forward and said that he was in bad shape did everyone listen. This has beaten me down to almost nothing. How can I be a father when I cant even be a human on some days.

06 HOW TO READ THIS REPORT

WHAT THIS IS

The Family Rights Registry is a public, parent-reported data collection run by Stand With Meg. Every figure in this New Jersey report comes from New Jersey respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in New Jersey — not to replace formal research, and not to name individual judges or counties as responsible parties.

WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 73 New Jersey families reporting here are not the universe of New Jersey families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. Response counts and percentages use the number of families who answered that specific topic or financial field. The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – October 2026 through standwithmeg.com/family-rights-survey. Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

Dollar fields exclude blank, negative, and obvious data-entry artifact values above the report's field caps. When asset-loss values contain a strong statistical outlier, the asset-loss mean and total are suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county or regional field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
