> *"Denied due process. Failed to accept my emails (that proved i was in contact with the agency) as evidence saying they looked copy and pasted. Appointed me a lawyer without my consent and allowed that lawyer to represent me in a motions hearing i had notification of She refused to admit my emails with CPS as evidence in my trial for custody. However during appeal the Ohio Thrid District court of Appeals did accept jurisdiction of my emails but still upheld her judgment."*

Aimee Thomas CONTINUED 1 / 2

PSYCHOLOGICAL EVALUATOR · RICHLAND COUNTY · **8 SUBMISSIONS**

> *"Dr. Thomas handled my case unjustly, and set the foundation for the removal of my children indefinitely conspiring with opposing counsel. I had a self defense case in Carroll county Ohio that brought me to this office by the courts and abusers family with the intent to separate me from my child. My parental fitness was never brought up prior to this. They took so long delaying the process, I requested a different evaluator and was denied by the guardian ad litem. This doctor relayed questions from the party that paid for the exam to use against me in order to remove my child in a deceitful manner. Thomas contacted me via telephone and interrogated me relaying questions from the opposing party. When I told her that I wanted to speak with my attorney, she continued asking questions. She explained that she would write that I refused to answer making it look like I wasn't cooperating. She claimed I was devoid in showing affection to my child because I chose to allow my child to lead play time during her observation. Thomas took it upon herself leading my child to the restroom while having me complete a written test without notifying myself or my mother sitting in the waiting room. I had to dismiss myself to check on my child that she had in a restroom with the door closed. Because of her report, my child was removed from my family, and sent to an abusive home in Mississippi where they are alienating me from my child. The family continues to utilize Thomas' report in the courts at every attempt I make to fight for my child and has defamed my character in various states. I was ordered to undergo a parenting class as part of Thomas' recommendations where we were taught to report the very thing I witness My child going through currently. My child has never been harmed by me"*

FAMILY COMMENT CONTINUED

"or any of my family members. Thomas provided all these recommendations to the court, but did not provide me with any contacts or sources to get these things completed. Thomas recommended I take medication indefinitely against recommendations from the Department of Veteran Affairs. Thomas set the foundation demonstrating a pattern of incompetence as well as corruption drafting a report I have been denied full access to. This report has been circulated with court officials and used in retaliation without my consent. I am an honorable Veteran that was misdiagnosed and mistreated by this evaluator in her participation in this case."

"Even though I was working with my own mental health provider, who only ever diagnosed anxiety, I was sent to the psychological evaluator, who stated that a diagnosis of bipolar should be seriously considered for me and that she recommends that I not get my children back unless I commit to a regular medication regimen for the bipolar diagnosis!!!! I have the documentations to prove it and I did submit that in court, and I still lost permanent custody of my kids out of Tuscarawas County Ohio. She completed her psychological eval after 2 of the mandated 4 visits because I knew something wasn't right with the how she was treating me when I was there, so I declined to attend any further appointments and she still completed the eval, I filed a complaint to the board of psychology in Ohio and the opened an investigation because after those 2 visits she wrote in her report that she thinks I have bipolar even though I endured her verbal demands in her office like she has it, plus my own anxiety doctor had only ever diagnosed me with anxiety"

"Submitted a report to CPS with almost verbatim of what their reports stated, as well as refusing to provide me with my record saying that "CPS owned it because they paid for it"." STARK

"She made up lies never talked to any family members or daughters physiatrist" SUMMIT COUNTY

> *"I am living in absolute H 3// right now. My son has a rare genetic disorder and had a bit of an episode that was unusual for him. A traumatic experience triggered him to act out of character and lock me out of my house. The police were called (not by me) and the short of it is they charged him criminally. He just turned 14 and has a 72 IQ. He is kind and has a great personality. Since i was the alleged "victim " of the "crime" i figured it would be easy to get him out of juvenile detention. His attorney, my attorney, we are both fighting to have him freed. The GAL and judge want him to go to an institution!!!! It's insanity, absolute insanity. They had the board of DD and our whole team try to get him placed inpatient. It was denied and the appeal was denied because he isn't remotely even CLOSE to needing that level of care!!! So their genius idea was to have CPS take temporary custody. I absolutely REFUSED. They held a pretend hearing (pretended that it mattered what I wanted or what my son's therapist wanted), granted CPS temporary custody, even THEY can't get him in patient and they're using juvenile detention as a day care. Meanwhile my son has been assaulted THREE TIMES, moved 3 times to different pods, and has been fed dairy every single day even though he is medically allergic to it. We are living in an unbelievable nightmare. There is no end in sight. Believe me when i say they are coming for your disabled children!!!!"*

WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so Ohio families — and families across every represented location — would stop being invisible to the data. This report is their record.

03 THE COST OF OHIO FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

EXPENSE CATEGORY	RESPONSES	MEDIAN	MEAN	TOTAL REPORTED
Attorney Fees	199	$15,000	$53,392	$10,625,090
Lost Wages	153	$10,000	$44,614	$6,825,930
Other Court Fees	100	$2,000	$6,702	$670,247
Therapy / Evaluations	112	$2,500	$8,974	$1,005,140
Reunification Services	92	$500	$2,905	$267,260
GAL Fees	156	$3,000	$7,630	$1,190,328
Asset Loss [1]	112	$27,500	—	—
Median Family Burden (154 families reporting 3+ categories)	—	$77,750	—	—

Median vs. mean: Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least $1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

1. On asset loss: One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median ($27,500) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

> This CPS and juvenile court system in Scioto County Ohio has destroyed me , my daughter and her 3 children. They failed to provide our family with a full family conference and purposely blocked out the rest of us in order to manipulate my daughter and take her children forever. The process is ongoing yet on the 3d child and 2 others the court recently awarded full custody to the state and parental rights were taken . Now their taking the other daughter. This isnt all though. When my sons girl friend moved out of their home with their 3 mo old baby cps was called back in 2024 over 15 times by the whole community because the baby was being exposed to drug abuse in his face and cps only warned her to go to rehab. After she did for 3 days she left rehab and cps was called again, they did nothing and did not return to save the child and he died 4 days later. That mother is serving time in prison. They failed to protect when a child needed it. But then they forever took 3 other grandchildren of mine when rehabilitation was working and prevention supports would have helped and was helping. My daughter did her time. 6 months in a star program and then currently went to rehab on her own once released for another 90 days. But the courts refused to see that we loved our babies they refused me and blamed my income and I have 4 years of college in Psychology, and criminal justice as well had a CDCA drug counselor certificate and am a mental health peer specialist. But these people ignored those facts and because I wasnt working at the time and was on disability they had the judge deny me to intervene because of my low income and because the worker ignored my calls to get the kids

> when she first got on the case the time line was over and I had no clue to go do anything because I was in full shock . I was and stopped am in disbelief that this happened..They gave me the kids the first 3 days but then snagged them away and used lies and manipulation to do it and they listen to my daughter who was angry at me at first and wanted them moved from me also. But then she changed her mind after her mind became clear and she began to see what was happening. Drugs was not involved in the direct reason they was taken.. the family was napping and the twp boys got up first and went outside and sit-down on their steps..a nosy neighbor who couldn't stand my daughter called in on her. No helping her or the kids to get back inside but called to ruin a family. Kids get out !! Its life! Although its dangerous kids do it all across America and moms are not doubles. We only get one mom. So Scioto County Ohio took the opportunity to gain two special needs children at that and refused kin to have them. .they moved my grandchildren 7 times home to home and they still are moving them. And all along they could be home with grandmother and happy and content. They browk the law and refused us all due process. Violated my daughters privacy and told people In the family my daughter was a monster and that they was taking her kids permanently before they even notified the parents of the children. They have caused me not to sleep for over a year now. I have night mares and I scream out their names in the night begging please dont take my grandchildren. attorneys has caused mental trauma to me my daughter and grandchildren. I saw my grandchildren on FaceTime at the father's visits every Friday and they begged me please mimi come get us and save us. And I have night mares because of it. This was a simple open and shut case and all they had to do was give me the support I needed to get set up with the children and leave us alone My daughter tried to sign me her rights over and the jail notary denied her that right and so did the courts and cps .. They have totally destroyed us and them babies forever and my son and I also have to grieve for his dead son that they could have and should have saved but Didn't. They , the Scioto County Ohio CPS, Police department and Courts failed my family and we will never be the same again.

A traumatic experience triggered him to act out of character and lock me out of my house. The police were called (not by me) and the short of it is they charged him criminally. He just turned 14 and has a 72 IQ. He is kind and has a great personality. Since i was the alleged "victim " of the "crime" i figured it would be easy to get him out of juvenile detention. His attorney, my attorney, we are both fighting to have him freed. The GAL and judge want him to go to an institution!!!! It's insanity, absolute insanity. They had the board of DD and our whole team try to get him placed inpatient. It was denied and the appeal was denied because he isn't remotely even CLOSE to needing that level of care!!! So their genius idea was to have CPS take temporary custody. I absolutely REFUSED. They held a pretend hearing (pretended that it mattered what I wanted or what my son's therapist wanted), granted CPS temporary custody, even THEY can't get him in patient and they're using juvenile detention as a day care. Meanwhile my son has been assaulted THREE TIMES, moved 3 times to different pods, and has been fed dairy every single day even though he is medically allergic to it. My health is declined, my traumatic brain injury symptoms that have been managed for over a decade have flared up and I've been exacerbated by CPS is involvement and core actors, denying my rights appearance, character assassination by hearsay of those who've never witnessed anything being said, lying on the stage of purging themselves. My doctors are starting to get fed up because the court is not listening to them or submitting their testimonies. My daughter and I were in a really bad car accident five years ago on the way to my oldest son's graduation. We've been in court for the last five years and now because I don't have my daughter this case is being dismissed that attorney is getting mad saying that he can't move forward if I don't have my daughter because she was another one of the witnesses and it gets out that I don't have my child it'll be considered that I'm a bad mom so therefore he's dismissed this case I will get no closure over a car accident that left me with no memory of my first horns child's graduation party that I planned. The mental emotional physical and spiritual stress that this has caused myself in my family and the false allegations that will never found to be true, has impacted our lives greatly.. our family friends Dr School they all know the truth, but keeping my child away from me medically neglecting her, not getting her to mental health has caused me to over. Worry about my daughter, putting my health at risk caused me a silent heart attack in November complex, migraines, and stroke like symptoms. involved I end up with a perforated colon was in the hospital for five days in critical care almost died because of the stress and an officer that it's caused all because CPS is hell bound on destroying a family trying to make me go insane the harder I fight the more I proved their lies the more they're keeping my daughter from me and this is affecting my daughter mentally and emotionally. I know it is they're telling her that her family and friends doesn't want to see Her. Alienating her from her loved ones from medical care team, a failing, her friends, especially her siblings. They had a super tight bond and now her brothers are so upset at this entire situation and the lies that have been said about our family that strong family bond has been severed . They're telling her all kinds of lies and my daughter starting to believe it. My daughter doesn't even know what's happening on this side. They're not allowing us to talk. We can't reconcile because we can't talk about what is happened. They tell me to move on, but I can't get closure.. I'm worried that my daughter's health she's gonna go back and start having flareups and her body's gonna start falling apart all the work in progress that my daughter has had over the last four years they've stopped all of her care not taking her to her Specialist taking her to those outside of Children's providers who do not know about my daughter's medical history. I fear for my daughter's life and her safety and my daughter doesn't understand what's going on with her body. She believes these individuals who know nothing about her or her medical complexities. Crushed my family, turned my loving kids into having hate in their soul,

— JONATHAN

I struggle daily to keep going I've completed all steps in my life to better myself and my kids were just given less contact with each step I completed! I've lost weight and jobs and homes since losing my girls. I'm down to 100lbs due to stress. All I ever wanted to be when I grew up out of foster care was the best mom and I know I was with everything in me! I still am I will never stop fighting for my girls back! They was kidnapped on a weekend by Cps! I was diagnosed with postpartum when they took my newborn!

— KARI

This system allows legal kidnapping, because there are no checks and balances for Juvenile Court Judges. Judge Kristen Johnson has caused tremendous trauma to not only me and my son but our entire family. Director Randall Galbraith and Supervisor Karmen Lauth intentionally delayed the process of developing a caseplan for me to obtain custody. Then lied under oath about my contact with the agency

— JAMES

Dcfs and the gal do not have the best interest of my kids. They are destroying them.

— ANONYMOUS PARENT

I almost died that day my children were "legally" kidnapped. It will take a lifetime to recover from this.

— ANONYMOUS PARENT

Ripped three innocent kids from their loving father who they share a very deep bond with. But we remain - this corrupt system will never defeat our love for each other, ever.

There is nothing but corruption in Highland county Ohio. CPS ignores all reports even from mandated reporters. I cry every day, it was always me and my son, every day since he was born, I look at the pictures of me and him together my son clinging onto me when he was little and I break down and cry, we used to order pizza and have pizza and movie night once a month, I taught my son how to cook and we would make dinner together and have dinner and movie night and sit and talk about anything and everything, my son is my whole world, my everything, the family court system and CPS gave my son to the father who was never around and thousands of dollars behind in back child support, I did everything on my own (with help of my grandparent's, aunt and uncle who raised me) but mostly it was always me as the full time parent 24/7 every day for 13 close to 14 years, my son was always in perfect health, had everything he ever wanted and needed, I provided everything, I made sure he always had an education and went to the doctor, when we both got COVID I still took care of my son even though I myself was sick, because mom's don't get sick days, I even offered to give up child support since that was the reason my ex wanted custody, I only want my son, he's my baby, he will always be my baby, now all I have left is pictures and memories and so much hurt and pain, all because of pictures of MY private bedroom being messy taken without my knowledge or consent and sent to CPS, and because CPS and a police officer entered my home without a court order by means of a threat and CPS took my son away on a cold December night, CPS even made my son stand outside in the freezing temperatures for close to an hour they wouldn't even allow my son to go inside where it was warm, and while he was at the "group

— ANONYMOUS PARENT (1/4)

home" CASA and CPS told my son inappropriate things regarding my friends private medical, my ex (his father) told my son "I'm a wh*re" when I'm a strict Christian with strong Christian beliefs, I remember a time my longtime best friend from school gave me a ride to pick up my son for the weekend while he was in state/county care and the caseworker called and demanded that I return my son because my friend and her husband needed to be "CPS approved" (fingerprint and BCI background and drug tested" in order to drive me to pick up my son, and my friend and her husband don't even smoke cigarettes !! This has not only affected me but it also affected my son, the group home made my son push mow a field all summer in the hot sun even on heat advisory days with an infected ingrown toenail while my son was limping in pain, and one foster home was ate up with bed bugs and my son had bug bites all over him, my son said they made him sleep on a bed bugs infested bed with only one sheet and one pillow, now my son is living in a one room apartment shared with 3 other people, no bedroom, a messy apartment, and with his father who never was around or had a part in raising him, my son is angry and hurt, and so am I, laws need to change, unless a house is a hoarding situation they should leave a simple messy house alone, because now both me and my child was extremely hurt, a one happy home completely ripped apart, a child being ripped away from the only parent he ever had, so much hurt was caused by CPS, CASA, Family Court, and the so called public pretender, the more people speak up, the more attention gets drawn, and hopefully lawmakers will change the laws, but that requires the states

governor (in my case Ohio) to actually care, I've called the governor, state representatives, ombudsman, and nothing happened, nobody cared, and if the caseworker knew I spoke up who knows what retaliation would happen, since the court put a "gag-order" on me !! They don't want parents to speak up, because how dare the parents fight back !! Every CPS case NEEDS to be reopened and investigated by the higher courts because there are so many innocent and good parents who have had their child/children taken for the most ridiculous reasons, Clermont County Ohio is always in the spotlight for bad things, they take children from good home and place them in horrible situations, one caseworker told me he was due to remove 10 different children from different homes all in one day, and that speaks volumes, the caseworker (at the time) told me "there are so many kid's in the system in this county they don't have enough homes to place them" and that's why my son was sent three or four counties away !! It's time that every parent speak up and tell their stories, because if not this will keep happening !! We all need to get up and take a stand, I have not been the same emotionally since my son was taken, my heart is so broken, I just want my son back in my arms, Supreme Court NEEDS to do something to fix what COS and family court is doing, they cause more harm than good, and it will keep happening if laws are not changed, look up Clermont County Ohio CPS, they are known for shady stuff and targeting innocent parents more so single mom's, if I could afford a paid lawyer my case would have been won easily, but due to disability and disability income I couldn't afford one, and they sure

The system has single-handedly divided and destroyed my sense of security, my sense of peace, my children from my life and allowed the abuser to publicly look like a hero, forcing the mother to pay a child support for two kids while residing in Ohio and kids being in California and I haven't seen my kids since before Covid

— ANONYMOUS PARENT

This system that was intended to "protect" children ultimately put my children into the hands of real abusers. This systemic issue in Hancock county unjustly kept the children from all relatives to break bonds. They ignored phone calls and requests. They ignore ombudsman recommendations. They denied kinship with no written denials. We have missed every milestone and holidays over the past almost 2 years. It has caused many family issues. During this time Kelli tried to stop us from being licensed fosters and said we will not get these children to our first home study worker. We became licensed in July 2025. We have had several children placed with us but still requests for kinship of the children have been ignored. She cut and paste a court document and said this is why and sent it in an email. We have never been in court. We currently have a foster child that we have had placed in our home county for almost 10 months. Please make it make sense. It's about abuse of power, retaliation, abuse of funding and just pure evil. The children have been traumatized more being in foster care than had then been placed other loving family. Denied motion and ignored evidence!! None of them did their job they made up everything. The judge didn't want to listen to us whatsoever that we gave him evidence and they didn't show him any evidence and that he ruled with them over us. He delayed hearings gave them more time biased, he didn't sign half of his records he had to click record sign it things like that you can put well. She really really wasn't on our case that much it was mainly James he was the one he was his assistant prosecutor. They have kept me away from my daughter since she was born. Have false documents and have been proven but no one will listen to me. Please help me!!!!

This system has lied and tore my family apart causing emotional damage

— ANONYMOUS PARENT

My lived experience that is still ongoing has cast me into homelessness, taken all my belongings and created a situation that is impossible to regain stability even at its simplest form, and has attempted to silence my and my children's stories from not just being heard but from the record entirely; it has cost me the most precious and valuable thing of all, my children, as well as my and my children's protection, belief in justice, safety, healing, my children's voices and their childhood at ages 7 & 11.

A corrupt system doesn't fear evil, they already possess that, it fears witnesses.. of which my family and I have been and well documented our experiences during the months and months I filed every motion and in sept of 2024 was granted the compel to care order against the Tuscarawas JFS.

— ANONYMOUS PARENT

Took our health, finances and entrapped us into never ending horrific cycles of abuse. It gaslit us and turned every good thing about parenting and our bonds into a "problem". It's an upside down land that makes you fight everyday to hold onto reality.

The system has done nothing for me except bring stress

— ANONYMOUS PARENT

EX and GAL accused me of being a drug (narcotic) addict during a high conflict divorce WITHOUT ANY EVIDENCE, and used my PTSD from my time in the military as the "cause". Because of my PTSD being affected but this, I agreed to full custody to my ex so a technicality of losing my kids due to my non-existent drug addiction wasn't present.

— ANONYMOUS PARENT

Despite absolutely stealing my children, the system has worked feverishly to ruin my career, evict me from my home, turn friends against me, ruin my reputation, put me in prison, and bankrupt me all to get me to give up, take a plea and walk away. Acting in the best interest of the kids is a fallacy —because the goal was never “justice for the kids,” it was to weaponize compliance.

— ANONYMOUS PARENT

I spent 25 plus years living in an abusive, unsupportive and neglectful marriage. The family court system is equally abusive, unsupportive and neglectful. There is no “justice”” in our justice system. The priorities of the court is for profit - not “for the people”.. (I wish I could speak to someone directly as my case has been very unique since the opposition was a former sheriff. I was told at one point I could not even file for a protection order because it was a conflict of interest and I wouldn’t have a judge to sign it). Criminal investigations were pushed off to the state and severely delayed or ignored) my children are no longer minors. It was not safe for me to leave while he was sheriff as he threatened to use the system against me the entire time. I had no where to turn.

The system is an absolute disgrace, it's ruined my children's lives and my life. The system is a child trafficking ring - children go to the highest bidder.

They took everything from us, they literally tried to murder us, but we're still standing. Anyone that obsessed with controlling another person needs to be institutionalized.

20 years of marriage and 5 children, This system has completely torn my family apart. I never anticipated that thru my divorce I would lose my children. After being their sole caretaker throughout the duration of my marriage and for their whole lives I now have all my children together with me for a total of 5 hours once a month.

— BRIGETTE

This system did not simply mishandle a case—it destabilized my family, punished me for surviving, and gave more weight to control and paperwork than to truth, safety, and healing. What it cost us cannot be measured only in money or court dates; it cost my children peace, stability, and precious time with the mother who has never stopped fighting for them.

— TOSHIA

The judge said there was no evidence I ever directly harmed my child, and I still only get six hours on Sunday — six hours to hold her, to be her mom, to feel normal — then she's gone again while someone else raises her and decides if I deserve more time. I don't sleep, I don't trust, I think about this every single day, and it has cost me my peace, my relationships, and pieces of my daughter's childhood I will never get back. Corrine came back to me anxious, clingy, and carrying a worry no 7-year-old should have — and she is still carrying it. We are both still carrying it.

— AMBER

This system turned my children's lives into a maze of restrictions, gatekeeping, and delayed justice, while rewarding the people who controlled access to them and punishing me for trying to remain their mother. It fractured our family, distorted ordinary parent-child relationships into suspicion and supervision, and forced us to live for years under decisions that were never grounded in clear, timely, testable evidence

— ANNA

The court stole my daughter and trafficked her to a pedophile, all for financial gain. My daughter has endured substantial harm and was taken from a safe and loving home with me.

This system has caused my family and I extreme stress, countless sleepless nights, missed work due to repeated court appearances that are often postponed, and an overwhelming number of appointments, while requiring unnecessary parenting classes despite my successful experience raising children. I feel I have been expected to follow policies that do not meet this child's individual needs and, in my experience, have set him up for failure rather than success.

— ANONYMOUS PARENT

They have let the mother keep child and continue to ignore all court orders. Guardian sides with her even though child is failing in school and now obese at 9 years old. He has behavioral issues that are getting worse.

— ANONYMOUS PARENT

I am the alienated parent, this has caused me to have PTSD and the total loss of custody, my parenting time and my parental rights now my daughter is an adult. The damage is already done but I have been through unimaginable stress and loss grieving my daughter that is still alive because of the lies and decisions of someone else. I missed out on so much of my daughter's life, memories and her graduation from high school that I can never replace or get back because of this system that chose to turn their back on me as a loving mother.

— ANONYMOUS PARENT

The system enabled psychological, financial, litigation and post-separation emotional abuse by ignoring evidence, failing to conduct an impartial investigation into alienation and hold countering parent accountable for loss of all contact with my child whose unaddressed mental health crisis required inpatient stabilization for suicidal ideation with multiple plans and intent.

— ANONYMOUS PARENT

The court is destroying my child. He's being abused and neglected by his dad and stepmom, and even after proving everything, none of the officials will do anything about it. Their solution was "let's put it in writing". When I told them that wouldn't matter, and he would continue violating everything as he has been, they insisted this was the way to go, and that I would have to come back and pay a lot more money to come after him again. The court is bankrupting me!

Total alienation from my daughter, assaulted physically, sheriff good ol boys refused reports every time I wanted one, denied access to my daughter was not allowed to file contempt, denied medical attention by sheriff when assaulted causing bodily harm, physically and mentally exhausted, broke, alination from my daughter., ptsd

— RHIANNA

The overt actions and inaction of bad actors within the family court system have forced my child to endure ongoing emotional and physical harm while I have been drained emotionally, financially, professionally and psychologically trying to protect her. Instead of intervening to stop the suffering, the family court system has partnered with the juvenile court system to intentionally keep both of us trapped in prolonged trauma.

— ANONYMOUS PARENT

The system has introduced violence, manipulation, conditional love, ugliness, and worries we've never known. ALL THAT WE THOUGHT WAS A POSSIBLE NIGHTMARE HAS BECOME OUR REALITY. The 4th of July used to be our favorite holiday to celebrate. This year? We cried inside our house because when we go in public, people hurt us. We have no safe place to go. We have never known a life where we cannot move freely in the world. But now it's all we worry about, because ANYONE can misinterpret our actions, generate a rumor, and actually have a child abducted. IT IS THE SCARIEST EXPERIENCE OF OUR LIVES.

— ANONYMOUS PARENT

This has really made things hard for our family. We didn’t sign a case plan so they arrested us. I now have cameras up everywhere because I don’t trust anyone. I have ptsd from this and nightmares. They are forcing our daughter to say things to fit their narrative and she does it because she wants them to leave her alone. She doesn’t even like the case worker. We feel like we’re stuck in a hole that we can’t get out of. It’s not right.

— ANONYMOUS PARENT

Magistrate X, you moved my son 1,000 miles away and while not even spending the paltry 75 days with me, G somehow blames me for everything wrong in his life and has cut me out of his life. If that’s not parental alienation, I don’t know what is. Your choice to have G live with that man was wrong and will sadly affect him, his mental health, as well as all of his Ohio family for the rest of our lives.

> I believe that it boils down to which parent has the most money and can pay for representation. My daughter is 21 years old now and has an emotional issues because of what her father has done. Parent alienation is real and I submitted evidence that he was doing this to my daughter and it was looked over. The last time we went to court, I was told if he continued to act in the same manner that we could go to court once again.

07 HOW TO READ THIS REPORT

WHAT THIS IS

The Family Rights Registry is a public, parent-reported data collection run by Stand With Meg. Every figure in this Ohio report comes from Ohio respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in Ohio — not to replace formal research, and not to name individual judges or counties as responsible parties.

WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 312 Ohio families reporting here are not the universe of Ohio families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. Response counts and percentages use the number of families who answered that specific topic or financial field. The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – October 2026 through standwithmeg.com/family-rights-survey. Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

Dollar fields exclude blank, negative, and obvious data-entry artifact values above the report's field caps. When asset-loss values contain a strong statistical outlier, the asset-loss mean and total are suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county or regional field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
