WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so Illinois families — and families across every represented location — would stop being invisible to the data. This report is their record.

03 THE COST OF ILLINOIS FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

EXPENSE CATEGORY	RESPONSES	MEDIAN	MEAN	TOTAL REPORTED
Attorney Fees	138	$23,850	$93,640	$12,922,277
Lost Wages	98	$20,000	$93,495	$9,162,540
Other Court Fees	80	$635	$11,265	$901,169
Therapy / Evaluations	85	$2,000	$7,842	$666,550
Reunification Services	57	$500	$2,274	$129,625
GAL Fees	114	$7,000	$24,010	$2,737,150
Asset Loss [1]	85	$50,000	—	—
Median Family Burden (114 families reporting 3+ categories)	—	$126,200	—	—

Median vs. mean: Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least $1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

1. On asset loss: One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median ($50,000) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

The court system allowed years of costly, endless interventions and unchecked abuses of power that destroyed my relationship with my son and fractured my family beyond repair. I was forced to navigate an exhausting maze of custody evaluations, therapy, supervised visits, and ever-changing requirements that ultimately deprived me of my son and the irreplaceable milestones of his childhood. What was presented as a system designed to protect children instead became a system that isolated me from my son, exhausted my resources, and robbed our family of years we can never get back." Judge listened to ex parte communication from stepmom which she filed a third party intervenor to my divorce case after my ex has died. Put a false Order of Protection against me with no hearing until it was dismissed a year later by my laywer. My ex husband worked with everyone in the same courthouse Im fighting for my daughter.

— KATHLEEN

This has significantly hurt my relationship with my daughter in more ways than I could have ever imagined. They have consistently taken more and more rights away as if I don't deserve to make any decisions in her life. My daughter used to scream bloody murder and cling onto me during exchanges and the courts deem that to be "what's best for the child", now she is much older and still begging to be with me and not understanding why my son always gets to be with me and she rarely gets to see us. This system is unbelievably cruel and unfair and has caused so much harm, pain, suffering, time, trauma, loss of funds, and time together that we will never get back. Before this happened I was a stay at home mom, with her all day every day to getting everything taken away with a snap of a finger. Let's just say in this case money has done the talking and I'm not the one with the money. I'm struggling so bad but I will never give up. Just seeing the courthouse puts me in a state of panic because all I know is what has been done to myself and my daughter inside of that place. Complete strangers that "know" what's best for my child is the most ridiculous thing ever. Records show that she has struggled significantly during these back and forth periods when they were deciding how often I could see her then tried to take the little time I do get, away. My all A's & B's student was failing all of her classes during the month she was not allowed to see or talk to me. But that's what's best, right??!

Dekalb county Family court system has allowed the lies, abuse, control multnipulation and alienation from my boys to continue because they are about breaking laws and not following through with contempt charges holding the wrong parent accountable for their wrong doings.

Juste kathry karayannis would agree and proceed judge kathryn karayannis isnt a stable judgeto be kn thebstand and need to be evaluated for her to be in thebstand to make reasonable decisions for family beside take power and control and due process and also violatioof constitutional rights that she tends to say and cant explan her under oath or speak on her oath . > I recently read the quote "blessed that I was chosen to raise these beautiful souls." And I had to take a step back emotionally because no ounce of me feels chosen to be a mother by this court. Parents are recognizing that we have done all we can to escape the abuse and heal but now we are opening our eyes to a system built upon greed. We have faith that what is done in the dark will come to light.

> The psychological and financial abuse should be considered family terrorism because thats EXACTLY what it is. They terrorize you mentally then extort your hard earned money and savings on the "best interest of the child." The years of therapy I have been through has only made it somewhat bearable.

> A judge suspended all of my parenting time with my son, relief no one asked for, despite every single evaluator opposing restriction, no finding of endangerment, and a written order acknowledging my conduct didn't warrant professional intervention; my child was taken not because I failed him, but because a system with no accountability decided it could.

Having to grieve the loss of children that aren't dead is something that can't be put into words. The pain is unbearable but you have to survive in case they come back...it's a horrible way to live.

The damage to my family is catastrophic. Its been 9 years of torment. My youngest son was only 2 yrs old, and I've been told he doesn't remember me and thinks my exes current wife is his mom and they let him think so. Hes 11 years old now. Ive haven't seen my daughter either and I have no idea if she remembers me at all. My oldest is 22 now and we are just beginning to have a relationship. I am grateful for that but I mourn the relationship we used to have, the one we should have, the one we deserve to have. None of us are the people we would have been, we are all more broken, all more damaged, changed, robbed of our rightful place in each other's lives and not one person is better for it. A family destroyed for nothing.

The system failed me as a child in the welfare system, at 30 years old seeing no real change, accountability or resources while my children are now in DCFS custody is quite scary, they're understaffed and not held accountable. We now live in fear waiting for reunification, in which we have been targets of DCFS since 2019.

> For more than seven years, this system has replaced my children's childhood with litigation, supervision, and conflict, while stripping us of ordinary family experiences and irreplaceable milestones that can never be recovered. My daughter and I have been torn apart our bond is being destroyed and I feel like I am losing everything I have ever worked so hard for and loved - my entire life has been taken from me and then I am being punished for it on top of everything. My baby girl needs to come home before things are made even harder or worse for us as time is allowed to go on like this. She has almost died now more than once while being forced out of my care and medical neglect has been allowed by dcfs and the court to occur with no acknowledgement accountability or repercussions for allowing child to fall four feet onto her head and not being seen by medical professionals for over 24 hours / she broke the baseline of her skull and fractured the cartilage in nose and various points in the surrounding areas - have documents photos and video of the fall and no one seems to care that she could have had a seizure- brain bleed - injury to the spine or connective points surrounding the skull and neck vertebrae- no checking for concussion or anything at all total medical neglect. When I called foster grandparents to understand what happened then all of my contact was diminished and taken from me as I was being punished for caring and being concerned about my child. I have every document and recording to support my statements and no one will listen or give me the time of day. I am scared for my child's life the longer she stays in their care

It cost me my whole world. I made mistakes and I take full responsibility for them but people can change and learn from their mistakes and I've done that. They are using my past and my prior cases and court involvement as a reason for me to not be able to parent now and I truly believe they are in the wrong. I'm a great mother and I love my kids. What they are doing isn't right and they are causing more damage by putting such a young baby who only knows his mom and dad into a foster home with complete strangers.

> Over years of litigation and ongoing conflict, the family court process and my ex's conduct have created instability, severe emotional strain, and division within our family, placing the children in the middle of adult issues instead of protecting their emotional, mental and physical wellbeing. The repeated litigation, financial instability, interference with parenting time, and ongoing conflict have significantly impacted both me and the children emotionally, mentally, physically, financially, and relationally, while undermining consistency and security for the children.

> My infant daughter has been thrown into the arms of strangers who do not have her best interest in mind. They're treating this like a game to be won, and as if she's a thing to play tug of war with. Her development is at stake right now. She's never been without me. It's not healthy to thrust a baby into 50/50 when she has a secure attachment to one parent. It's only just begun. They're going for sole custody and I'm powerless to stop it.

> My daughters repeatedly ask for mom. I've seen my oldest daughter's school portal where she writes letters to me that she isn't allowed to send. Her doctor has reached out to me asking why her father hasn't brought her to her regular checkups for her medical condition. He lies and says she resides with him when eyewitnesses have stated they have seen all other members of his family except do my daughter. My youngest (with the other man who is now my ex's bff) is confined to a playroom, is in full time year round daycare while her father sits unemployed in a million dollar home asking me for child support (i work part time and rely on family help). I watch as he tells her that she is happy after she expresses she had a bad day or is sad. She has said she doesn't have friends.

07 HOW TO READ THIS REPORT

WHAT THIS IS

The Family Rights Registry is a public, parent-reported data collection run by Stand With Meg. Every figure in this Illinois report comes from Illinois respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in Illinois — not to replace formal research, and not to name individual judges or counties as responsible parties.

WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 188 Illinois families reporting here are not the universe of Illinois families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. Response counts and percentages use the number of families who answered that specific topic or financial field. The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – November 2026 through standwithmeg.com/family-rights-survey. Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

Dollar fields exclude blank, negative, and obvious data-entry artifact values above the report's field caps. When asset-loss values contain a strong statistical outlier, the asset-loss mean and total are suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county or regional field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
