I'm currently facing arraignment for indirect contempt for speaking about my case and answering my kids messages when they ran away from abuse suffered at the home of the guardians/ paternal grandparents"* OKMULGEE COUNTY

> *"This judge signed off on an emergency custody with no grounds to take my children, took my children for 21 days I wasn't allowed to see, talk or hear from my children, signed off on denial of paternity papers after proving my ex wasn't the father of my two younger children but still forces my children who are no relation to this man to goto his home."*

Jamie Vogt

PSYCHOLOGICAL EVALUATOR · TULSA COUNTY · **6 SUBMISSIONS**

> *"She ignored obvious signs of trauma in my child and said that she seemed coached because my child's demeanor and tone changed when describing abuse. She said that my child seemed animated and lively when talking about hobbies and interests, but she became emotionally distant when discussing trauma. My child was evaluated and then diagnosed with PTSD. She discredited my daughter's abuse disclosure because of her different (monotone) tone of voice and emotional shutdown when talking about it. My daughter has PTSD. That's exactly how traumatized individuals describe trauma. They disassociate. She ruled that my daughter's disclosure of SA was coached because she had a flat affect and became emotionally distant when discussing the abuse. My daughter has PTSD. That is the typical presentation. My daughter was denied advocacy and protection as a result."*

> *"Jamie Vogt did EFE on both my children. My daughter layed in my lap in her office after not seeing me for 1 year my first time seeing her was in Jamie Vogt office for one hour. My daughter layed in my lap crying begging me not to leave saying I was the only one who can keep her safe. Jamie did noting to help my baby! Took 10 thousand dollars to see both my kids and helped paternal grandmother kidnap my daughter. Let abusers bring her to Jamie's office and never had a visit with my daughter and her father. My daughter begged for help and was ignored. She never even mentioned this in my daughter's report for court."* WAGONER COUNTY

> *"Coerced me to give details about a situation with my kids in counseling with my ex while the divorce was still taking place. I expressed that my ex was using the session to fish for information to use against me and she allowed her to do it, even telling me that if I didn't she would report back to the GAL how difficult I was being."*

> *"To be disclosed if my testimony is required. I have paper, digital, and video evidence of all of my above statements. The judge dismissed all as evidence."* WAGONER

Amy Newberry

THERAPIST / COUNSELOR · OKLAHOMA · **5 SUBMISSIONS**

> *"Filed aggressively false DHS report against me. She was sued twice in 2022 by others. Allegations appear to include misrepresenting professional credentials and qualifications; presenting opinions beyond the scope of licensure or expertise; failing to maintain professional records; ethical obligation concerns; exceeding the appropriate role of a treating therapist in family court matters; providing information or opinions that influenced custody and psych evaluations; making reports or recommendations alleged to be false or misleading. In my own case, I experienced many of the same, and am connected with others who did too. Cancelled several appointments at the last minute to attend other emergency court hearings. Allowed associate to provide court ordered anger management to the father while she provided therapy to the kids so they could work together and share notes. Graduated him despite documentation of continued harassment and concerning behaviors. Years lost that could have been dedicated to kids healing instead of additional trauma. My experience left serious concerns about this pattern of practice when working with traumatized children. It is discouraging that, despite the harm caused, laws like Oklahoma's Citizen Participation Act (anti-SLAPP) can prevent meaningful accountability and allow damaging behavior to persist for people like this. Amy Newberry initially instructed everyone involved to address her as Dr. Newberry. Months later, she corrected us and had us start calling her Amy (around the time of the two lawsuits). The institution where she received her"*

> *"Hired by Rob Hopkins to force my male child to believe my ex was a man. Has personal relationships as their children go to same private school. Forced my son on visits that he repeatedly told her violated the rules of that visit."*

Louis Alvin "Luke" Duel Jr.

JUDGE · LOGAN · **3 SUBMISSIONS**

> *"Did not follow processes allowed significant delays of trial. rule based on emotions such as my protective order he signed and then the next trial day he was angry he had to ask the other side witnesses to leave courtroom as he had every single. He literally tossed the court binder and then took away my protective order. in which he still has to ask the people to leave. Other side but angry I asked. He repeatedly accepted false claims with no evidence and put me in contempt. My ex never followed his orders and yet nothing was done except granting my ex more of what he wanted. Example ex stopped taking alcohol tests and with bank statements showing his alcohol purchases, Judge did nothing but start allowing full visitation. My ex was court ordered to move out of my house and get a job with no deadlines so it took as solid 2 years. my ex refused to do the appraisal process with nothing appraised and I was awarded purchase price yet 2 years later the Judge allowed them to come in and say the travel trailer was to old and such and Judge literally just took it off the balance. while Knowing Kim Rennie Mitchel has stolen all my court documents and he would not let me defend myself. even denying my first ever request for continuation. The court house records do not reflect when I was in court and we have requested the records over a month ago. The court does not show accurate purchase of transcripts either. absolutely ignored court rules and process. no transcripts for 2 years and 5 years later claims he made a fair decision after reviewing evidence. He knew my documents were stolen by my paid off fraudulent attorney and refused to help and denied a continuation forcing me to argue on financial items with no facts. He ruled multiple times and would just unrule"*

THE HEADLINE NUMBERS

OKLAHOMA AT A GLANCE.

Across 221 Oklahoma families reporting through the Family Rights Registry, the patterns are consistent: long durations in court, serious financial loss, and a disproportionate number of parents going unrepresented because they ran out of money fighting.

WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so Oklahoma families — and families across every represented location — would stop being invisible to the data. This report is their record.

03 THE COST OF OKLAHOMA FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

EXPENSE CATEGORY	RESPONSES	MEDIAN	MEAN	TOTAL REPORTED
Attorney Fees	155	$25,000	$50,211	$7,782,711
Lost Wages	111	$12,000	$95,568	$10,608,064
Other Court Fees	79	$1,572	$5,418	$428,010
Therapy / Evaluations	103	$2,000	$4,344	$447,469
Reunification Services	62	$1,058	$2,954	$183,125
GAL Fees	93	$5,000	$12,506	$1,163,050
Asset Loss [1]	80	$30,000	—	—
Median Family Burden (114 families reporting 3+ categories)	—	$102,875	—	—

Median vs. mean: Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least $1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

1. On asset loss: One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median ($30,000) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

Judge Duel I believe was being paid off or bribed by my ex husband attorney. Divorce began in 2020 and due to pandemic no court reporter or transcripts yet he claims he reviewed all evidence and made his decision after 3 plus years and over 20 days of trial that also spanned 3 years. Significant delays of trial by Judge and other side Attorney simply not showing up. Judge and other Attorney have a long relationship with me and should have never been allowed to handle my divorce. He was asked to step down and said no and he asked other attorney to step down and he said and he we are. Ive been abused by my ex and he is using the legal system to do so.

Family court is the most corrupt thing that I have witnessed. I have watched judges, attorneys, parenting coordinator, GAL, and mediators colluded to extort fathers financially. I have witnessed multiple times of going off the record where the actors discuss their upcoming cases with each other. They make it near impossible to have a court reporter and charge you exorbitant amounts for the transcript. We believe the transcript was altered but how can you prove it. The fact that they fight to keep cameras out of the courtrooms should prove their motives.

The court has usurped power, removed a child from the only safe parent and in that process broken a child that was once healthy and happy! There is no amount of money that can replace the time that has been stolen from us! Time is not something you can repay. — GIAVANNA

The court process and DHS involvement have had a profound impact on our family over an extended period of time. While these systems are intended to protect children and address concerns, the ongoing investigations, litigation, hearings, evaluations, and co-parenting disputes have created significant emotional strain, instability, and stress within our family. The children have experienced disruptions to their routines, schooling, therapy, and parent-child relationships, along with ongoing uncertainty surrounding visitation, communication, and household transitions. The prolonged conflict and involvement of multiple agencies and professionals has shifted much of our family's focus away from healing and normal childhood experiences and toward surviving legal processes, documenting concerns, and navigating continued conflict. Throughout this process, there has also been an ongoing lack of meaningful accountability regarding unmet parental responsibilities, including the absence of consistent financial support, which has placed additional emotional and financial strain on the household without clear resolution or enforcement through the court process. In addition, the repeated failure to meaningfully recognize or address patterns commonly associated with coercive control, reactive responses to prolonged conflict, and the broader dynamics of domestic abuse has left me feeling that the systems involved have not been adequately informed or equipped to fully understand the realities and long-term effects of these dynamics on both myself and the children. I was also left feeling intimidated and discouraged from seeking further court intervention after being warned that continued

returns to court over co-parenting conflict could place my custody at risk, despite my concerns being rooted in what I believed was necessary to protect the children from ongoing abuse and harmful conditions within the other household. Rather than feeling supported in raising concerns for the children's well-being, the process often left me feeling that the context and seriousness of those concerns were minimized or overlooked. As a parent, I have experienced the emotional, financial, and mental burden of trying to maintain stability, advocate for the children's needs, comply with court requirements, and support the children through an environment that has often felt adversarial and emotionally exhausting for everyone involved.

Ever since my child was born, even before I've been a domestic abuse situation. The reason I left their situation is because the father my child threatened to kill my grandparents while he was drunk, waving a gun in the air, which pointed at me and my son and I had to grab the end of the barrel before it went off and he kept throwing things and acting crazy. Then we went to court and they said that I was mentally insane and that we had 50-50 custody my evidence was not shared and ignored fast-forward today I have been through domestic view chase down with the car yelled at screamed at throw stuff at but everything is being ignored even with the proof I've had Now today. I am happily married with the baby on the way, but now they're trying to take away my child saying that we abused him which we did not . The other part's mother is coming up the traps working for Dhs. I believe that my son was abused in his father's care and they're trying to blame it on us. There's false allegations and everyone is believing them. The family court system did not just fail me — it empowered coercive control, ignored financial abuse, and allowed narratives to replace evidence. I refused to pay anything but I provided groceries, clothing and all my child needs. My case was very strange. It was the 1st that my child had ever been away from me and the only time she was ever neglected it abused was during her time in foster care. So many things they inflicted on us and it didn't stop there. They also came after my granddaughter bc she lived with me. I've actually had around 21 years of them lying, harassing and falsifying complaints against me but only being able to keep me from my child for about 7-8 months! They were so wrong that I took my child back from the foster home and kept her without any reprimand, that's unheard of but they didn't want exposure is what I'm thinking.

The system has participated in the unjust, unconstitutional, persecution of a family. Most notably, the persecution of my children's childhood at the time of separation they had two parents who loved them deeply, but had their own personal issues and their marital relationship unfortunately, that changed at the time of separation when the other party hated me more than they loved their children. This system thrives on the circumstances, it is a large club where the actors don't make millions but make thousands upon thousands even sometimes hundred of thousands of dollars to provide a lack of resolution and eventually over 5 to 10 years on a single custody case will provide resolution that is unfavorable most importantly to the children, and violate the constitution of the United States of America. The family system thrives on unconstitutional rollings, and the name of "best interest of the child". The court system must do better as to not affect even more families.

> The unjust system and unfair treatment and attempts to make me fail has just made it opposite. I'm almost completed with my BA in psychology and I'm trying to be the change I want to see in the world!!!!! I want to help people in DHS cases to maneuver becoming suitable parents or make the best choices if they can't!!!! I'm a great mother but I shouldn't have to drive 6 hours every other weekend and every other week in the summer. And I'm the only one responsible for transportation

> I already have C-PTSD prior to any of this happening and had 4 years of therapy, but dealing with this altogether and know this has been fixed to go against me from the beginning, has reignited some triggers that were once healed. I've starting having nightmares again pertaining to court and to losing my son. I've become incredibly distrusting towards most people around me, because if something like THAT has been fixed against me, and other things like retaliation, blacklisting, stalking, and harassment have been allowed to happen, then what else is being fixed to work against me? Due to how many people were actually involved in what lead up to the guardianship, I dont have anyone that I can actually trust without questioning their motives or thinking there's some kind of catch 22

07 HOW TO READ THIS REPORT

WHAT THIS IS

The Family Rights Registry is a public, parent-reported data collection run by Stand With Meg. Every figure in this Oklahoma report comes from Oklahoma respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in Oklahoma — not to replace formal research, and not to name individual judges or counties as responsible parties.

WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 221 Oklahoma families reporting here are not the universe of Oklahoma families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. Response counts and percentages use the number of families who answered that specific topic or financial field. The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – November 2026 through standwithmeg.com/family-rights-survey. Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

Dollar fields exclude blank, negative, and obvious data-entry artifact values above the report's field caps. When asset-loss values contain a strong statistical outlier, the asset-loss mean and total are suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county or regional field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
