JUDGE · CHEROKEE · **9 SUBMISSIONS**

> *"Denied specialists medical care for my daughter. Denied access to courtroom during key hearings. Pro se but never included in any meetings or case conferences. No mediation offered. No real DFCS oversight. Dfcs was allowed this set all visitation parameters. Extreme bias. No CASA Advisory committee status disclosure. Conflict of interest being on Cherokee CASA Advisory Committee with Cherokee County DFCS Director Brooke Ford, for ex parte' communications concerns. Judge Davis basically allowed Cherokee County DFCS to run the hearings. Judge Davis set CRP or Citizen Review Panel meetings the day before a major hearing twice. No opportunity to challenge the recommendations of the panel this way. Judge Davis was named as the person responsible for moving the entire division of juvenile records out of the safety of the Cherokee Clerk of Courts Office downstairs to upstairs outside her chambers, where parents have concerns for the records being altered with no oversight. Judge Davis had an extremely dark tinted glass retrofitted over the new Juvenile Clerk of Courts window to conceal activities."*

> *"She was one of my GAL in my daughters case that continue to ignore evidence claiming just let him hang himself , or telling me I had to have proof of my daughters reaction to visiting dad and once a video was shown to her she stated I should be in trouble for recording my daughter, in that State instead of comforting her more and telling her it would be OK to go visit her dad"*

> *"She refused to consider my tax returns for my income, and scolded me for not calling the opposing attorney "Mr." as if I should have known that was required for due process. I was nothing but kind and respectful. I was threatened with criminal contempt if I didn't settle, once my admissible evidence was treated as non-admissible."*

> *"Helped with fabrication of documents and evidence to remove a child no signs of danger etc as well as signed off to put child in foster care by-passing parents and family all together. All done without any Court hearings or due process"*

GAL / CHILD REPRESENTATIVE · COBB · **7 SUBMISSIONS**

> *"A low life scum of an attorney with ZERO integrity. She farms out work getting appointed to her by the judges so she can bill whatever she deems necessary. She never traveled to both houses to ensure child welfare yet reported that she did. She sat on her reports for months and denied any input, when I called to ask about care she told me it was none of my business. She only talked to me when it was about getting billed. She told me I don't care where you come up with $20K, you better borrow it from friends and pay me. Yet she hasn't produced any documents. 10 months to produce a 2 page document that explained nothing. Her exact statement "I do not award 50/50 custody or primary custody to Fathers" She was annoyed when clients leave bad reviews online via google and yelp. So much so she tried to sue for defamation making threats yet no comments were untrue and I refused to take them down. She proceeded to have a friend who is federal law enforcement intimidate me with his position. He called and harassed me utilizing his badge and fbi credentials to intimidate me. I filed a formal complaint via an attorney directly to the DOJ to stop his illegal use of his position. Brandy continues to beg for cases so that she can get paid and do little to no work. She is a complete incompetent person with zero integrity. May she rot in hell"*

> *"Made up evidence (including a false criminal record on an excel spreadsheet), told me she is sick of our family's religion (we are Christians), ignored convicted criminal activity on the other side and said it wasn't a crime - victim shamed and threatened a bad outcome if we cooperated with law enforcement. That's exactly what happened. Lied in testimony, made up evidence (including totally fake drug charges she submitted on an excel spreadsheet), ignored actual convicted criminal activity of the other side, currently being sued by another victim parent for collusion with the very firm who entered the case just in time to be handed a win in our temporary hearing."*

Brandy Daswani is a collaborator with multiple attorneys in Cobb and this severely impacted my case and our children's entire childhood"*

WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so Georgia families — and families across every represented location — would stop being invisible to the data. This report is their record.

03 THE COST OF GEORGIA FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

EXPENSE CATEGORY	RESPONSES	MEDIAN	MEAN	TOTAL REPORTED
Attorney Fees	125	$25,000	$77,393	$9,674,168
Lost Wages	96	$15,000	$69,230	$6,646,091
Other Court Fees	65	$2,500	$7,596	$493,723
Therapy / Evaluations	92	$2,500	$9,618	$884,850
Reunification Services	53	$500	$4,320	$228,934
GAL Fees	77	$5,000	$22,165	$1,706,699
Asset Loss [1]	83	$40,000	—	—
Median Family Burden (98 families reporting 3+ categories)	—	$146,500	—	—

Median vs. mean: Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least $1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

1. On asset loss: One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median ($40,000) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

> This crooked system paints a false picture of scarcity, and then throws a meaty bone between two parties who used to care about each other, profiting from them tearing each other apart over it. My wife and I are kind people who love Jesus and love our kids. That hasn't helped us, it has hurt us. We maintain traditional biblical values for the family and our marriage, and those values were literally painted as dangerous by a guardian ad litem who got custody flipped on a sham temporary hearing with no proof of harm and actually testifying that our son is thriving. We have three cases in the system between us and our five children. Every experience has been vile. We have watched dishonest people get away with murder, and it not even matter when they get caught. Documented perjury has meant nothing. What could've been generational wealth has been destroyed. All while each children are used as pawns in a game purely played for money and control. Either the Constitution and the rights of guarantees mean everything, or they mean nothing. To the family court system, they mean nothing. There will be a lot of bad actors who have to stand before the Lord of Jesus one day and answer for the lives they have destroyed here on Earth. The family law system is the civil rights crisis of our time.

Absolutely destroyed, our lives taken away every sense of self and safety and security at the my children have they have ruined my life they ruined my children's life. They have ungodly amounts of money. I truly believe that Forsyth County is trafficking children through the family court I believe that Judge Bagley has a lot to do with it. He's the head of the superior court. He's also on board of Bank chairs, which is the umbrella company for the Forsyth County bank in Georgia which he also has jurisdiction over divorce in property proceeding, the rotary club has a lot of these actors in it Rachel Platt the guardian at Leham is known for giving children to abusers mainly fathers regardless of the evidence Christine Seidel is in this as well. They are in this industry to make money in their crafting off of our children Forsyth County Georgia needs to be investigated. It is the most corrupt County on the planet and judge Bagley needs to be in prison along with Keith Brandon along with Rachel Platt along with Christine Seidel and every other person that they associate with in their business because they are what family court corruption is about.

I have spent years in therapy recovering from the trauma of my marriage with the combined abuse by the system. My ex has been able to use this opportunity to further use coercive control against me and my children. One child continues to suffer from mental health issues, while the other has formed a loyalty bond with his father and is very defensive of him. My children continue to be harmed and reports made against their father by third parties. I have filed for bankruptcy and my attorney continues to represent me due to having a personal interest in my case despite a large unpaid balance I may never be able to pay. I will likely never own a home again, have no financial security, and struggle to make ends meet. I will never financially recover.

My children were ripped away from me. Where they were going was planned long before court even happened. I wasn't given time to call family, they were going with my middle girls dad whom has 4 pending child abuse charges and battery. 07 HOW TO READ THIS REPORT

WHAT THIS IS

The Family Rights Registry is a public, parent-reported data collection run by Stand With Meg. Every figure in this Georgia report comes from Georgia respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in Georgia — not to replace formal research, and not to name individual judges or counties as responsible parties.

WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 188 Georgia families reporting here are not the universe of Georgia families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. Response counts and percentages use the number of families who answered that specific topic or financial field. The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – October 2026 through standwithmeg.com/family-rights-survey. Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

Dollar fields exclude blank, negative, and obvious data-entry artifact values above the report's field caps. When asset-loss values contain a strong statistical outlier, the asset-loss mean and total are suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county or regional field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte–Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
