THE HEADLINE NUMBERS

MICHIGAN AT A GLANCE.

Across 94 Michigan families reporting through the Family Rights Registry, the patterns are consistent: long durations in court, serious financial loss, and a disproportionate number of parents going unrepresented because they ran out of money fighting.

WHY THIS REPORT EXISTS.

On January 29, 2024, I lost custody of all five of my children.

- NO TRIAL.
- NO QUESTIONING.
- NO SUBSTANTIATED ABUSE.

It took only a signature on an ex parte emergency order to erase a mother. I refused to disappear. I fought back, and built the Family Rights Registry so Michigan families — and families in every state — would stop being invisible to the data. This report is their record.

02 THE COST OF MICHIGAN FAMILY COURT

Legal fees are the largest reported expense, but they are not the only one. Lost wages, evaluation costs, and reunification services compound the financial loss — pushing most families toward pro se representation once their savings run out.

EXPENSE CATEGORY	RESPONSES	MEDIAN	MEAN	TOTAL REPORTED
Attorney Fees	58	\$20,000	\$59,483	\$3,450,000
Lost Wages	45	\$10,000	\$75,022	\$3,376,000
Other Court Fees	31	\$1,000	\$23,192	\$718,951
Therapy / Evaluations	38	\$2,000	\$7,359	\$279,631
Reunification Services	31	\$60	\$5,604	\$173,711
GAL Fees	30	\$1	\$6,093	\$182,802
Asset Loss ¹	42	\$40,000	—	—
Median Family Burden (42 families reporting 3+ categories)	—	\$107,250	—	—

Median vs. mean: Median is the middle reported amount, so it better reflects the typical reporting family when a few very large expenses appear. Mean is the average across reporting families and can be pulled higher by outliers. **Median Family Burden** is the median of total reported expenses across families who reported costs in 3 or more expense categories with a combined total of at least \$1,000 — a true median of real family totals, restricted to families who filled out enough of the financial section to characterize their case and excluding obvious data-entry artifacts.

1. On asset loss: One respondent reported an extreme outlier that skews the mean beyond usefulness. We report the median (\$40,000) and suppress the mean and total, pending data-quality review. Lost Wages also contains wide variance; median is the honest headline.

My husband recorded my daughter through the bathroom window at my home. I called Ashley child advocacy center and also took her for a forensic interview. At that time we both did a police interview. I picked up my husband after work and took him to turn in his phone and interview. At first he denied. At that time my daughter (15) was unsure if he did it and he had a believable story. He stayed roughly 1 month until he admitted and moved out. I called the police and he turned himself in. The court opened a case and stated he was the respondent. The day of court I became the respondent, got placed in front of an attorney with a list of allegations, and sat in front of the judge. I had asked in court if my husband could live in the apartment in the barn with no unsupervised contact and no access to the house (I was a stay at home mom and home schooled at the time) they took my children that day and placed them in kinship care. They claimed mental and emotional neglect and academic neglect (3 of my children have IEPs and have been in public school and continue to fall behind. I was a substitute and decided to home school this year. Since they have court ordered my children to return to public school). This story goes on. This is just day one. This has been awful and has destroyed my family in ways I can't explain. I lost my husband one day and two days later had my children ripped. I'm so tired and broken. They are home but so lost. My son almost got admitted inpatient psychiatric because separation anxiety is so bad he has become unsafe. He is 7 years old. My life is turned upside down and they still have jurisdiction and FRP is involved. Next hearing is beginning of March.

I went in to court with an attorney within 10 minutes I don't even know what happened it happened so fast My attorney knew that she kidnapped my son never even brought it up to the judge it was automatically how much am I paying child support that was the main subject that had nothing to do with what she had done to me. Now I'm stuck paying an outrageous amount of child support. I can't afford to even go see my son and live at the same time. She agreed to 50% custody but she still wanted the full child support even though she made false allegations against me and she kidnapped my son. The courts in Hillsdale Michigan and Dover Delaware look the other way because they are getting a portion of my child support money. And they have no care of what she had done to me Mentally or psychologically. And worse yet they had no care of how it would affect my son mentally and psychologically as well.

My children and I had such a joyfilled relationship and they trusted that I would protect them after what happened. I told them the courts would see the truth, we just had to trust the process, and that everything would be OK. It wasn't. Everything was taken from us. That was nearly nine years ago and I have not been able to see my children nor do I know where they were moved even though my ex had multiple CPS records and incidents known by therapists. The children lost their mother, their siblings, their maternal family, their home, their trusted doctors and other professionals, their trusted friends, their financial assets, their safety, and their hopes and dreams. Me too. They do not know their mother has never stopped fighting for them. They do not know how much they are missed by their mother, her family, or their friends. I do not know if they are happy or if they have true personal agency. They were robbed of their childhood. I was robbed of motherhood. I do not even know if they are alive. No mother ought ever bear such agony.

06 HOW TO READ THIS REPORT

WHAT THIS IS

The Family Rights Registry is a national, parent-reported data collection run by Stand With Meg. Every figure in this Michigan report comes from Michigan respondents who voluntarily submitted survey entries about their experience inside family court and/or CPS.

This report is built to help families, advocates, reporters, and legislators see the patterns emerging in Michigan — not to replace formal research, and not to name individual judges or counties as responsible parties.

WHAT IT ISN'T

This is not a representative sample. Respondents self-select. The 94 Michigan families reporting here are not the universe of Michigan families in court — they are the families who found the survey, trusted it enough to submit, and told us what happened to them.

Financial figures are self-reported. We flag outliers and report medians when means are distorted (see page 3, note 1). The Median Family Burden headline is the median of total reported expenses across families who reported in three or more expense categories. Quotes are minimally edited.

METHODOLOGY · FAMILY RIGHTS REGISTRY

Data in this report was collected April 2024 – May 2026 through standwithmeg.com/family-rights-survey. Submissions are timestamped. Duplicate-submission heuristics use normalized email + location, with direct survey rows preferred over legacy rows and the newest row retained within each source. Categorical responses from multi-select and short-answer fields are normalized monthly.

When a respondent's financial entry differs from the population by more than three standard deviations, the mean is suppressed and only the median is reported. Lost-wage, attorney-fee, and asset-loss entries are self-reported and not corroborated against tax records or court filings.

Geographic reporting uses the county field as submitted, with light normalization (e.g. "Butte silverbow" → "Butte-Silver Bow"). Quotes carry one of three public permission states: *Anonymous*, *First-name only*, or *Full attribution with consent to public use*. Court actor names appear only after 3 independent families name the same actor.
